IN THE CIRCUIT COURT OF THE SIXTH JUDICIAL CIRCUIT
OF THE STATE OF FLORIDA IN AND FOR PASCO COUNTY
JUVENILE DIVISION

CASE NUMBER:

IN THE INTEREST OF:

NAME	DOB	SEX	SPN
Nicholas Ryan Galli	05/13/2017	M	

Child.

AFFIDAVIT AND PETITION FOR PLACEMENT IN SHELTER/ PICK UP ORDER

Comes now, the undersigned, Child Protective Investigator (CPI) Francelis Caminero, who being duly sworn says:

1. On November 18, 2022, at 4:00 PM the above named minor child was found within the jurisdiction of this court.

   ☐ The child was taken into custody by Pasco Sheriff's Office.

   ☒ The child needs to be taken into protective custody.

Filed for Record
Pasco County, Florida
2022 NOV 19 AM 9:41
Nikki Alvarez-Sowles, Esq.
Clerk & Comptroller
Pasco County, Florida

2. The name, age and residence of this child is:

NAME	DOB	SEX	RACE	ADDRESS
Nicholas Ryan Galli	05/13/2017	M	W	6715 Hone Street New Port Richey, FL 34653

3. The name, relationship to the child and address of the child's parents or other legal custodian are:

NAME	DOB	RELATIONSHIP	ADDRESS
Melissa Lee Davis	05/25/1991	Legal Caregiver	6715 Hone Street New Port Richey, FL 34653
April Jean Murray	09/21/1978	Biological Mother	2450 Decker Driver Deckerville, MI 48427
Unknown Unknown	00/00/0000	Prospective father	Unknown

Paternity of the father has been determined by:

☐ The mother and father were legally married at the time of birth or conception of the child.

☐ The mother was not legally married at the time of birth or conception of the child, the child was born on or after July 1, 1997, and the father's name appears on the child's birth certificate.

☐ A court of competent jurisdiction has adjudicated paternity.

☒ Other: Per the Comprehensive Case Information System (CCIS) the caregiver, Melissa Davis (previously known as Melissa Galli) was granted temporary custody of Nicholas Ryan Galli through Circuit 6 court case 512018DR006027DRAXWS and there is a documented additional court case number related to a modification as to the temporary custody of Nicholas Ryan Galli 512019DR000942DRAXWS. Per Florida Vital Statistics, Nicholas Ryan Galli, mother is listed as April Hammond (now April Murray) and there is no father listed on the child's birth certificate.

4. The following individuals who were listed in #3 above have been notified pursuant to Section 39.402 (5), Florida Statutes in the following manner of the date, time and location of this hearing:

NAME:	MANNER NOTIFIED
Melissa Davis Contact# (727)945-3371	By Phone Email: Refused to provide
April Hammond Contact # (810)333-0812	By Phone Email: murrayapril209@gmail.com

The following individuals who were listed in #3 above have not been notified of this hearing:

NAME	REASON
Unknown Unknown (prospective father)	Unable to locate based on lack of information provided by the bio-mother and caregiver

5. Probable cause exists to remove child from the legal care, custody and control of the parents/legal guardian within the intent and meaning of Section 39.402(1), Florida Statues as the child:

☒ Has been abused, abandoned or neglected or is in imminent danger of illness or injury as a result of abuse, abandonment or neglect.

☐ Was with a parent or legal custodian who has materially violated a condition of placement imposed by the court,

☐ Has no parent, legal custodian or responsible adult relative immediately known and available to provide supervision and care;

Allegations:

On October 9, 2022, the Florida Child Abuse Hotline received intake# 2022-308130-01 alleging: *"On 10/8/22, Nicholas was at school and was having a very rough day, Nicholas wanted to put his hands on many different children, he chocked a little girl in the class room and slapped another little boy in the face, he was then putting quarters in his mouth, yelling at other children calling them losers. Nicholas was asked to calm down and he refused. Teachers came in to help calm him down. Reportedly, Nicholas was acting in this manner because his dad is always mean to him and hits him all the time. Dad also*

threatens to burn all of his stuff including his bed, and tells him that he is going to beat him. Mom and dad fight over Nicholas all the time. Dad calls Nicholas a "bad child" and "ungrateful person." Dad has forced Nicholas to eat and when he does not eat, he gets slapped and dad forces the food into his mouth. If that does not work, then dad will grab Nicholas by the arm and throw him into his room. When Nicholas takes a shower, dad will not allow mom to come in and help him. Dad comes into the bathroom and is mean to Nicholas. He yells in his face and says mean things. There is a time that Nicholas has slipped in the shower because of dad. Dad has also slapped Nicholas in the face and made his mouth bleed. When mom tried to intervene, dad yelled at her and made her cry. Dad tells mom that she needs to stop treating Nicholas like a baby and that is he is going to be disrespectful to an adult then he will tear Nicholas like one. Dad also says that it is his mom's fault Nicholas is the way he is, that it is her fault he is a bad kid. Dad has told Nicholas that he needs to be a place for bad children or he can pack his back and leave. Dad has told mom that Nicholas is the reason why they are fighting all the time and that Nicholas will be the reason why he leaves."

On November 9, 2022, the Florida Child Abuse Hotline received intake# 2022-308130-02 alleging: *"The children were with the father from Friday after school until Monday. The children are afraid to go back to the father's house. The father told the children that someone broke into the house on Halloween and stole a lot of stuff. The father said that he had a firearm that was long and black that someone tried to steal it. There are concerns that the firearm is within reach of the children but this is unknown. The stepmother took a bath with Autumn. Autumn was screaming. Autumn was given a big white pill and it made her feel funny. It is unknown what was given to Autumn. The stepmother is on Hydrocodone because she has a pill problem. The stepmother is not supposed to be around the children at all due to court orders. There are concerns that she is still hurting the children. Autumn does not remember what happened. Autumn told the father that her mother said the stepmother is not their mother. The father has talked about how he would kill the mother's family in front of the children. The children are traumatized because the stepmother stole Sebastian's black necklace and broke it because she was mad at him.*

Nicholas has mental issues. The father yells at the children all the time and sends them to their room. The father sleeps all day and the children are up by themselves."

On November 15, 2022, the Florida Child Abuse Hotline received intake# 2022-308130-03 alleging:

"There are concerns regarding the safety and wellbeing of Nicholas. It is believed that Nicholas has marijuana in his system, but it is unknown where he obtained the marijuana. Around 3:30 am, Nicholas started having hallucinations and screaming; he thought bugs were crawling on him, and a snake was around his neck. Nicholas was taken to the pediatrician around 8 am, and he began showing signs of lethargy and slurring his words; he was transported to the hospital and examined, and it was determined his pupils were dilated. Nicholas was given a toxicology screen, and it was discovered he had marijuana in his system. It was alleged that Nicholas told the mother that a woman came to his bedroom and offered him a brownie, which he ate. It was also alleged the woman was the husband's sister, who does not want Nicholas or the mother in the husband's life, and wants the husband to be with the mother of his children- this story is not plausible, and these allegations were not given until the results of Nicholas toxicology screen were returned. There is no evidence that suggests the husband's sister is responsible for this incident. It is alleged the husband has a medical marijuana card, but he ingests the marijuana at a friend's home and doesn't keep it in the house."

On November 16, 2022, the Florida Child Abuse Hotline received intake# 2022-308130-04 alleging:

"Nicholas was seen in clinic for hospital follow up on 11/16/2022. He was seen at Mease Countryside the day prior (11/15/2022) because he was having hallucinations yesterday morning at dad and stepmom's home (started at 3:30am). Nicholas said someone gave him a brownie in the middle of the night. The person came through the window into the room (2 girls, black hair and red leggings, blonde with glasses). At the hospital, Nicholas was found to have greater than 50 nanograms (2 ounces) of THC in his system via lab work. His CT of head came back normal. There were no meds given, per stepmom and he was discharged the same day. There are no changes to his psych meds at this time. Nicholas has not had any hallucinations since yesterday afternoon. He is back to baseline with appetite and activity. Nicholas had trouble sleeping last night because he was scared to sleep in the room.

There is a custody battle between the mother and father/stepmom."

Recommendations:

The Pasco Sheriff's Office Child Protective Investigations Division (CPID) respectfully requests the child, Nicholas Ryan Galli (age 5) be removed from his legal caregiver, Melissa Lee Davis (age 31) and the child's biological mother, April Jean Murray (age 44). There are immediate safety concerns as for the safety and wellbeing as to the victim child. On November 15, 2022, the victim child, Nicolas Ryan Galli was taken by the caregiver, Melissa Lee Davis to a local hospital. It was learned that five year old Nicolas Ryan Galli was positive for marijuana. According to the hospital Nicholas' eyes were dilated and he was very lethargic and even with sternum rubs, it was difficult for him to wake up. The hospital completed a full drug panel that yielded the results that Nicholas had ingested marijuana. According to Nicholas' pediatrician Nicholas was found to have 50 nanograms (2 ounces) of marijuana in his system. CPI and Pasco Sheriff's Office (PSO) patrol and Detective have attempted to interview the caregivers, Melissa and Donavin Davis however they have declined to cooperate with the investigation. The caregivers provided CPI and PSO Detective with contact information for their attorney, Jerry Warren. According to the caregivers and a brief conversation from CPI to Jerry Warren, he did not want the caregivers being spoke to without him (as in Jerry) being present. CPI was able to see the victim child, Nicholas on November 15, 2022 through the cooperation of the attorney but CPI was advised there was no interview to take place. Initially on November 15, 2022, contact with the caregivers and attorney a zoom meeting was to be set up to occur on November 18, 2022, at 2 PM however neither the caregivers nor attorney provided the link for this to occur. CPI has attempted to engage with the caregivers to gain insight into what occurred as to how Nicholas was able to ingest marijuana. The current information gathered does not appear plausible or valid as to how the child, Nicholas was able to ingest the illicit substance. To aide in additional concerns at this time the department is unaware of the current location of the victim child, Nicholas. Per review of the Comprehensive Case Information System (CCIS) the Davis family has a pending eviction (512022CC003761CCAXWS) from their current home residence in New Port Richey. CPI has extreme concerns at the Davis family is evading and fleeing with the child, Nicolas. It was learned on November 18, 2022, that Donavin Davis has current visitation with his own minor children, Autumn (age 5) and Sebastian (age 7) Davis. There is a family court order as to Donavin's children with the biological-mother, Jennifer Brophy court case 512020DR005931DRAXWS that provides a stipulation as to Melissa Lee Davis is to keep from contact or interaction with the minor children. Over the course of the last 72 hours CPI has learned of additional concerns as to the safety of the child, Nicolas in the care of his current caregivers. Pasco School employees provide there is concern as to the child, Nicholas based on the caregiver, Melissa sharing at a meeting regarding a potential IEP for the child (this meeting occurred

on November 14, 2022) that based on the child's behaviors appearing to improve the child may not need to have an IEP. The school provided that the caregiver made statements that she (as in Melissa Davis) felt the child's behaviors would be worse on November 15, 2022. The school employee shared that this has been a similar statements made at previous IEP discussions and that the school shared the child's behaviors previous to the November 14, 2022 discussion have in fact deteriorated the following day as predicted by the caregiver, Melissa. It was not till this latest incident that the school connected the concerns as to the potential danger the caregiver is placing Nicholas in as of now know the child ingested 50 nanograms (2 ounces) of marijuana.

At this time, CPID is unable to establish the victim child, Nicholas Ryan Galli is safe in the care of his current caregivers. The limited information gathered at this juncture as to the manner the five year old was able to ingest 50 nanograms (2 ounces) of marijuana is not plausible. It is reasonable based on the history of the caregivers they are withholding the child to enable CPID for assessing and gather information as to the child's ability to have ingested the illicit substance. The caregivers have a history, specifically as to Melissa Davis to coach and guide young children in order to protect her own actions which is reliable based on her (as in Melissa Davis) arrest for evidence-destroying-alter destroy conceal remo rec doc phys, public order crimes-use two way communication devise to facility, and making false report-false information to LEO re capital felony.

There is immediate, significant and actively occurring concerns for the safety of the vulnerable child. There is an inability to access the current safety concern due to the caregiver's cooperation along with the CPIDs inability to manage the manner the danger threats are manifesting in the home. As a result of an out-of-home safety plan is necessary to ensure the immediate safety of the vulnerable child. CPI is requesting placement of the child with in the care of non-relative, Robert Galli upon an approved home study being completed. At this time, CPI is requesting no contact with the caregivers, Melissa and Donavin Davis. CPI plans to connect the assistance of Pasco Kids First Child Protective Team (CPT) for a trauma assessment the victim child, Nicholas.

Danger Threat:

Parent/Legal Guardian/Caregiver is not meeting the child's basic and essential needs for food, clothing, and/or supervision AND the child is/has already been seriously harmed or will likely be seriously harmed.

Child has a serious illness or injury (indicative of child abuse) that is unexplained, or the Parent/Legal Guardian/Caregiver explanations are inconsistent with the illness or injury.

The child's physical living conditions are hazardous and a child has already been seriously injured or will likely be seriously injured. The living conditions seriously endanger a child's physical health.

Evidence Gathered During Current Investigation:

The current household of focus consists of Melissa Davis (caregiver), Donavin Davis (husband to Melissa) and the victim child, Nicholas Galli. The children Autumn Davis ~~and Sebastian Davis (children~~ to Donavin) are in the home every other weekend per family court visitation.

On October 10, 2022, CPIT McMillan and Deputy Moore completed field visit to the Davis home. CPIT and Deputy Moore were greeted by Donavan who was not happy to see CPI and Deputies and he began to record CPI and Deputy. Donavan then got Melissa who also was not happy to see CPI. CPIT and Deputy Moore completed interview with the child Nicholas however Melissa stayed for the interview. The child

was observed to be clean and free of bruises but the child did have staples in the top of his head due to hitting his head on a window sill. Melissa did provide CPI a discharge summary from HCA Trinity Hospital. He successfully truth and lie qualified. He advised that he forgot about Friday's (October 7, 2022) incident but remembers it being scary. Nicholas advised that he went to his room after he got home from school. CPIT and Deputy Moore addressed the allegations and the child advised that he showers by himself and his dad will check in on him. He advised that he goes to his room when he is in trouble and have never been picked up or pulled. He advised that his parents get mad when he gets in trouble. When Deputy Moore asked further questions about possibly injuries and showering Melissa stepped in and asked the child to go back in the home.

On October 10, 2022, CPIT and Deputy Moore interviewed Melissa who advised that she was aware of the incident that happened at school on Friday (October 7, 2022) and it was the first time it has ever been this extreme. She said that he has been given a written warning and to go to the reflection room. She advised that the child is diagnosed with Autism, ADHD, and severe sensory disorder. Melissa advised that Nicholas does shower by himself and they will sometimes have to go in and check in on him.

On October, 10, 20220, CPIT and Deputy Moore completed interview with Donavin who advised that Nicholas does shower by himself and he has had to help him wash his hair a couple of times. He advised that he has fallen when he throws his fits. He said he does not remember the last time it happened. Donavin advised that Nicholas will go to his room when he tells him to. He advised that the child usually listens and he does not force him into his room. He advised that he and Melissa will raise their voices but they have never been physical with each other.

Due to additional allegations being received, on November 9, 2022, CPI Caminero and CPIT Petellat completed contact with the biological mother of Sebastian and Autumn, Jennifer Brophy. Jennifer allowed CPI Caminero and CPIT Petellat to interview the Davis children independently and without her (as in Jennifer's supervision). Contact was completed with the child, Autumn who was observed free and clear of any concerning marks or bruises. Autumn hugged CPI and was open to talking with CPI. Autumn advised that she was last at her dad's (Donavin) house on Friday (November 4, 2022). She denies Melissa being there. She advised that Melissa had back surgery and she knows this because her dad told her. She advised that she takes showers at her dad's house and denies anyone helping her shower. She advised that her dad has a lot of guns in his house which are located in his room. She advised that they are in a place no one can find it and advised that she is not allowed to touch them. She denies anyone breaking into her father's house. She denies Melissa hurting her any type of way. She advised that her dad lies about mommy Jen but does not know what he says about her. She denies having any knowledge of Sebastian having a black necklace. Contact was made with the child, Sebastian who was observed free and clear of any concerning marks or bruises. He advised that he was at his dad's house and he played Uno. He advised that the last time he was at his dads house was when the other CPI was there. He advised that he thinks Melissa takes medicine for a cough. He advised that when they are at his dad's house, Autumn takes a shower by herself. He denies Melissa hurting him or his sister. He denies having a black necklace however, advised that he does have a necklace however, no one has broken it. He advised that his dad has guns in his room however, he is not allowed to touch them. He stated that his dad has said that his mom is a "snitch about lying" he advised that his mom does not lie. He then shared with CPI that he is not allowed to eat candy because of his teeth. He advised that he does not feel safe at his dad's house because he does not have his toy sword with him and that was the only reasoning.

According to Jennifer the children were with Donovan last weekend. She advised that she has not heard about anyone breaking into his house. She advised that the kids have mentioned that he has a hand gun. She has no idea about anything relating to Melissa and her whereabouts. She advised that she does not know if Autumn gets assistance showering at her father's house and advised that she just asks the kids if they had a good weekend and they say yes.

On November 15, 2022, CPI Caminero commenced the additional case at the alleged house of focus Present was PSO Deputy Ramos and Deputy Barrow who advised that the child, Nicolas was at Mease Countryside Hospital. According to the hospital Nicolas's eyes were dilated and he was very lethargic and even with sternum rubs, it was difficult for him to wake up. Upon a toxicology being completed, Nicholas was positive for marijuana. This is when Melissa advised that Nicolas has told her that someone came into his bedroom that morning and gave him a brownie. Major Crimes Detective arrived on scene and attempted to speak with Melissa and Donovin with CPI however, Donavin stated that his attorney was on the phone and he was not to speak with anyone without him being present. In addition, both Melissa and Donavin refused to bring Nicholas outside for CPI to lay eyes on him without his attorney present. CPI contacted Donavin's attorney, Jerry Warren who advised that he would like to be present for any interviews and stated that he would be available on Friday at 2:00 PM via Zoom. The attorney advised that he would let Melissa and Donavin to bring out Nicholas so CPI can lay eyes on Nicholas. Donavin brought out Nicholas who was observed laying on Donavin's shoulder with his eyes open. Donavin and Melissa then brought the child back in the home quickly after CPI was able to see Nicholas.

On November 17, 2022 CPI Caminero and CPIS Ryan Becker arrived to the home in efforts to notify Melissa and Donavin about present danger being identified and a safety plan needing to be implemented. Melissa was on the phone with Donovin and summoned him to the home which he arrived and became irate with CPI. Melissa advised that CPI will not be implementing a safety plan and advised that the department is to speak with her attorney. Donavin called CPI a "fucking bitch" and asked CPI and CPIS to leave the residence and contact his attorney.

On November 18, 2022, CPI Caminero contacted Melissa and Donavin's attorney, Jerry Warren in efforts to coordinate the zoom meeting which was scheduled for 2:00 PM. However, the attorney, Jerry Warren has never answered any calls on this day from CPI. CPI left messages in addition to leaving a text message as to the phone number provided by the attorney. CPI reached out to Melissa in efforts to have her call her attorney to get in contact. Melissa called back and advised that her attorney was awaiting a phone call from PSO legal team in regards to CPI being out to question her the night prior without him being present. CPI explained they were not being questioned and a CPI was attempting to put in place a safety plan due to the safety concerns of how Nicholas ingested an illicit substance.

On November 18, 2022, CPI Caminero and CPIS Ryan Becker arrived to the home with PSO patrol in efforts to re-engage the family and giving another opportunity to speak upon the incident where the child, Nicholas ingested marijuana. There was no one home and CPI contacted Melissa via phone. Melissa advised that her attorney advised her not to speak with CPI in addition to not being cooperative until the Pasco Sheriff's Office completes their Internal Affairs investigation. In addition, CPI asked for the attorney's last name and bar number in efforts to locate his office however, Melissa refused. CPI asked Melissa when they would be home which she advised "it is none of your business where I am or when I

am going home. I am not to speak to you without my attorney and I will let him know that you called me again." CPI attempted to contact the attorney however, there was no answer.

On November 18, 2022 CPI Caminero spoke with the school counselor at Cotee River Elementary. She advised that this week, she spoke with the mother on Tuesday, November 15, 2022, as Melissa brought in emergency discharge papers from the ER as Nicholas tested positive for marijuana. She advised that Melissa expressed to her that Nicholas was experiencing hallucinations and they brought a doctor's note from the pediatrician to excuse him from school from November 15, 2022 until November 18, 2022. Melissa had shared with her that two people had shown up to Nicholas's window at night and gave him a brownie which was infused with marijuana. She tried to talk with Nicholas however, Melissa was present and her demeanor showed as if she did not want anyone speaking with Nicholas. She stated that Nicholas's behaviors were subdued as he is normally hyper and happy. Melissa explained that Nicholas was going through detox. She stated that the hospital paperwork showed a recommendation for the family to follow up with law enforcement. She advised that she believed the entire campus has concerns for Nicholas. She advised that Nicholas will have really good days and when this is brought up to Melissa, she will state that he is about to have a bad day and the following day, Nicholas will show up to school as a different child and describes him as almost manic. She advised that Nicholas has been on medications but he currently does not have any that he takes at school. She advised that they have asked Melissa for updated court papers as she has had Temporary Custody since 2019 and Melissa states that she does not have any. She advised that there are times where she believes that Nicholas is being coached.

On November 18, 2022, CPI Caminero spoke with the Behavioral specialist at Cotee River Elementary School who advised that she's had multiple interactions with Melissa since Nicholas first started with them in the summer. She advised that Melissa appears to make false statements to where she will talk about Nicholas's behaviors and make him out to be a schizophrenic child. She advised that Melissa had stated that Nicholas had broken another student's nose at his prior school and when the school was contacted, there was no record of it. She advised that Melissa has also contacted the school district on the school creating accusations of the school not doing their part in regards to her son and always creating conflict. She advised that there always has to be someone present in a room with Melissa as she tries to switch up people's words to get them into trouble. She advised that her concerns are for Nicholas's rapid change in behavior. She stated that anytime there is a meeting in regards to Nicholas's progress and the mother is given a positive feedback, she will create commentary on how she can sense that he will have a problem and act out soon. She advised that the following day, Nicholas would come back a completely different child and appeared manic and could not be controlled and advised that it seemed as if he was given something. She advised that their last meeting was on Monday, November 14, 2022 where they discussed Nicholas having an IEP and a discussion about how Nicholas was doing fine was brought up. The following day, November 15, 2022, it was learned that Nicholas had ingested Marijuana. She stated that it appears as though every time a positive feedback is given about Nicholas, something terrible happens to him. She advised that Nicholas has come in with bruises before and one time, Nicholas had a bruise on his wrist to when he was asked, Nicholas advised that he had fallen on the carpet however, she advised that he had just gotten to school and that was not reasonable. She advised that there are concerns for Nicholas being coached as he says things which are very specific to include what he can and cannot do, because of his IEP. Melissa has made a comment to the staff that the primary language spoken in the home in sign language because of the deaf child whom they have at home. At this time, the department is not aware of any children in the home whom are deaf. She advised that Melissa exhibits Munchausen

Syndrome by proxy (a mental illness and a form of child abuse. The caretaker of a child, most often a mother, either makes up fake symptoms or causes real symptoms to make it look like the child is sick.) She advised that part of the follow up on the hospital paper work was for Nicholas to get a brain scan completed.

On November 18, 2022, CPI Caminero spoke with the maternal grandmother as to Nicholas, Debra Kruger who advised that her daughter is April Hammond. She advised that her daughter resides in Michigan. She advised that she is not sure why Nicholas is with Melissa in Florida and that she has never met Nicholas before. She advised that she will provide April with CPI's phone number.

On November 18, 2022, CPI Caminero spoke with Nicholas's biological mother, April. April advised that Nicholas has been with Melissa since he was born due to her being un-stable and could not afford to keep him. She advised that she is in the state of Michigan and she has no memory of her son, Nicholas as she was in a car accident which has caused closed head trauma. She advised that due to her head trauma, she has been unable to work and is currently unstable.

On November 18, 2022, CPI Caminero spoke with the nurse, Alexi at the pediatrician's office who advised that she saw Nicholas for follow up on November 16, 2022. She advised that Melissa has brought Nicholas in with concerns for Nicholas having hallucinations. The child, Nicholas disclosed that two women came into his window. He described one of them with black hair and the other with blond hair with glasses. Nicholas advised that these women had given him a brownie. Alexi advised that the child was very specific in what he was saying which could indicate being coached. She advised that Melissa was in the room with the child the entire time. She advised that Nicholas has been seen several times in office in addition to ER follow-up. She advised that most of the time, they are blaming the father's ex-wife. She advised that after Nicholas was spoken to, Melissa asked for a copy of her notes to include what was said by Nicholas. Her concerns remain with the amount of marijuana found in Nicholas's system. She advised that it would equate to two ounces. The amount that was shown in the paper work, shows that it was not accidental as it was a significant amount. The test that was given to Nicholas reached the maximum level and it is possible that the levels could be higher. She advised that the story that was given, she herself feels as though it did not occur. She advised that every time Nicholas is seen in the office, elaborate stories are given.

On November 18, 2022, CPI Caminero spoke with the neighbor. According to this neighbor she expressed that she (personally) would not leave children or a dogs in the Davis home. The neighbor shared that she hears constant fighting between both Melissa and Donovan. She advised that she can sometimes hear Donovan breaking things in the garage. In addition, when Nicholas begins to cry, she can hear them yelling at him to "shut the F up." She advised that her son will sometimes smell an odor of marijuana coming from their home. She advised that the child, Nicholas appears to have a lot of mental break downs and Melissa does not "keep her cool" with him.

On November 18, 2022 CPI Caminero spoke with Robert Galli who advised that he has not seen Nicholas in four months. He advised that Melissa stated she wanted him to say that everything he said about her in the prior investigation was not true. He advised that he has concerns for Nicholas's safety with both Melissa and Donovin. Nicholas has disclosed to him numerous times about Donavin hitting him so hard that he cannot sit down. He advised that Nicholas is afraid of both Melissa and Donovan and always stated that he wants to live with him instead. Every time he would get Nicholas, the child would not want

to go back to Melissa's house as he would cry about it. He advised that Melissa had doubled up on his night time medications and he is only supposed to take one at night and one during the day. He advised that the instructions were to be given. He describes Melissa as a very sick individual and having a lot of mental health as she is bipolar, schizophrenic and an excessive liar. When he first met Melissa, she was on medications however, when she stopped, her entire personality changed. When they had Nicholas, she pushed him off the bed because he accidently kicked her on the ribs. Melissa is a very abusive person and will do whatever she has to do to have things her way. The biological mother, April and Melissa used to be friends and Nicholas is not biologically related either of them. April wanted Nicholas to have his last name, Galli since birth which is why he has that last name. April signed over temporary custody to him and Melissa. He advised that somehow, Melissa got his name off of it by going through the courts and she then took April to court and went to the magistrate and threatened April from her other children if she did not go with the plan.

Priors:

On October 4, 2022, the Florida Child Abuse Hotline received intake#2022-250746 alleging:
"There are concerns that the mother willfully disregards the specialist's orders regarding Autumn's health. Autumn is significantly overweight and at high risk of type 2 diabetes. Her height is where it needs to be, but she can't grow into the weight to the point she is looking like a dwarf. Autumn is at risk for cardiac problems due to the strain on her heart, and she has a significantly large arch in her back. She waddles which causes a significant amount of pain in her back and knees. The mother doesn't know what Autumn eats or drink while she's at school. She has not alerted school staff that Autumn has a strict no sugar, small portions diet plan. The mother still gets Autumn fast food and lets her sugar, "just not a lot." The doctor specifically stated zero sugar and fast food. The mother is failing to adhere to the specialist's order for Autumn, which is causing some major effects within Autumn's health.

Autumn is developing breast tissue and hair in pubic areas at age 4. She will likely begin menstruations at age 5. There are concerns that the mother is grooming Autumn, as she was observed wearing "booty" shorts. This raises concerns that Autumn has been molested or is currently being molested due to presentation of accelerated puberty. The mother laughs when informed of these concerns. There is no clear indication of sexual abuse at this time."

The investigation was closed with no indicators of medical neglect as to the victim child, Autumn Davis with the alleged perpetrator listed as Jennifer Brophy. Sebastian Davis was listed as a child in the home. There are no finding for Medical Neglect with the mother at this time as the child, Autumn was seen by CPT. There are no concerns for sexual abuse as the child has not disclosed any sex abuse in any form. The children remain in the home with their mother. The children see their father every other weekend. Impending danger has not been identified.

On August 16, 2022, the Florida Child Abuse Hotline received intake#2022-245417 alleging:
"On 8/13/2022, the father shaved Autumn's head and put her in a cold shower because she said no to her step mother. The step mother tried to lift up Autumn's dress to look at her vagina.
The step mother and father got into a fight and the father punched the step mother in the face.
There are many concerns for the safety of the children as there are many concerns for sexual abuse. The step mother is not supposed to be around the children per the family law judge. The father is not in his "right state of mind.""

On September 30, 2022, the Florida Child Abuse Hotline received additional allegations alleging:

"The mother and father were accused of child abuse by an unknown person. The allegations include the father shaving the daughter's hair and having the children take ice cold showers. The mother is being accused of lifting Autumn's skirt to look at her vagina. These accusations and were unfounded by law enforcement."

The investigation was closed with no indicators of bizarre punishment, inadequate supervision, physical injury and household violence threatens child as to the victim children, Nicholas Galli, Sebastian and Autumn Davis. The father shaved Autumn's head however, was not for discipline, the father and Melissa advised that Autumn asked for it and Sebastian stated that it was because he told his dad to do it. Autumn denies being put in a cold shower. The father and Melissa advise that he children bathe themselves and know how to turn on the water. The child's head was half shaved and she is able to cover it up if she wanted to. The children did not disclose any domestic violence in the home and there have not been any call-outs to the home due to domestic violence. Melissa has not seen the children since the court order was put in place by the family courts and has no access to either Autumn or Sebastian.

On May 30, 2022, the Florida Child Abuse Hotline received intake#2022-166899 alleging:
"When the mother picks Sebastian up from school, she turns the car off and leaves Autumn in the car with the windows rolled up. Autumn is left in the car for about ten minutes while it is 85-90 degrees outside. This happens every day. There are concerns about the mother leaving Autumn in the car by herself because she could get a heat stroke or possibly die. When their father picks up Sebastian, he brings all of the children he has with him to the school.
Autumn is severely overweight."

On July 14, 2022, the Florida Child Abuse Hotline received supplemental information alleging:
"On Saturday, 7/9/22, while at the grandmother's home, the grandparents and the mother talked about the father and stepmother trying to take the children away from the mother and the father is taking the mother to court on Monday. The mother has told the children not to tell anyone what happened in the home. Sebastian and Autumn were told if they were questioned to say that the stepmother told them to say everything. If they told the truth that the mother put her fingers in Autumn, the mother and both "grandpas" would go to jail and they will never see them again. They were told they would go and live with a stranger. It was reported that the stepmother is crazy in the head. Law enforcement was lied to and the stepmother got into trouble. Sebastian was told that the stepmother was dead to him. Sebastian was very upset and confused. The mother makes Autumn wear a swimsuit with and open front when they go to the grandfather's home. The grandfather likes it and it makes Autumn look beautiful. The mother has told Autumn to say the stepmother put medication inside of her so she would not be left around them and the father would not be able to see them any longer. There are concerns the children are being sexually abused and Sebastian is being mentally abused.
The mother drinks something funny and it smells. The mother smokes something with the grandparents and it also smells funny.
Sebastian wants to see the father and he does not like how the mother has been acting. On Monday, July 11, 2022, Sebastian seemed to be very distracted. Sebastian does not want to lie anymore."
The investigation was closed with not substantiated findings of inadequate supervision as to the victim child Autumn Davis with the alleged perpetrator listed as Jennifer Brophy. Sebastian Davis is listed as a child in the home. The mother advised that when Autumn does not want to walk inside with her into the school, she will leave her in the car. The mother understood the dangers that could arise which she stated that she would no longer do it. Upon completing a collateral with the school, they advised that the most recent visit, the mother brought Autumn into the school while dropping off Sebastian.

On May 7, 2022, the Florida Child Abuse Hotline received intake#2022-142287alleging:
"The step-mother has left bruises on the children before, and has threatened to beat them. There is a court order in place that the stepmother is not allowed to be around the children due to being a danger to

them. It is believed she is currently at the house with the children. The stepmother is out on bond due to telling the children what to say. Based on the stepmother's history, it is believed the children are in imminent danger and that the stepmother is going to beat them for talking and putting her in jail."

On May 10, 2022, the Florida Child Abuse Hotline received supplemental information alleging:
"Autmun stated that she was told by her mother to say that her "mommy Melissa" got medication from the doctors this weekend and put the medication inside Autumn's "choochkie" because it was hurting. The biological mother also stated that the stepmother is not allowed around the children due to facing serious charges for what happened to the children."

On May 11, 2022, the Florida Child Abuse Hotline received supplemental information alleging:
"Over the weekend, "Mommy Melissa" put medication inside Autumn's "choockie." The mother inserted the medication while the father was at the store. There are concerns that Autumn is being sexually abused. There are concerns that the children are in imminent danger."

On May 14, 2022, the Florida Child Abuse Hotline received additional allegations alleging:
"The stepmother keeps the children in their rooms all day on the weekend. The stepmother will lock the door. The stepmother will not allow the children to eat or drink until dinner time. All the bruising on the children is from the stepmother hitting them with belts and hangers. The stepmother gives the children medicine to go to sleep as well as the stepmother puts medicine inside Autumn's vagina.
In the past, the stepmother has beat a child that lives with her and put that child in the hospital. This was in January. The child sustained a broken leg because of it."

On May 15, 2022, the Florida Child Abuse Hotline received additional allegations alleging:
"Allegedly mom has been putting things into Autumn's vigina while Autumn was laying on her bed in her room. Autumn is scared of her mommy and if she tells her no, then mom will beat her. The father "has done to stop it", he will take Autumn and put her into a cold shower for lying. Sebastian has seen mom do this to his sister and has seen mom put something inside her while they were on the couch. Sebastian was scared to say anything as he felt he would get in trouble.
Both children have seen mom take Nicholas into the bedroom, they heard yelling and him screaming "no, mommy please don't". There is a court order that mom is not allowed around any of the children, but dad still continues to allow her around them. It is believed that the children are being sexually abused as well a physically abused and the father is allowing it to continue."

On May 21, 2022, the Florida Child Abuse Hotline received supplemental information alleging:
"The children are supposed to be with the father but the father is allowing the stepmother to leave the state with the children so the mother cannot get them back. The stepmother is a danger to the children and there are concerns that they are in imminent danger with her. There is a court order that the stepmother is not to be around the children and she is around them in a blue Nissan vehicle. The stepmother has beat the children before and left marks on their body."

On June 3, 2022, the Florida Child Abuse Hotline received supplemental information alleging:
"It was disclosed on Tuesday, that the stepmother was at Learn and Play (Autumn's school) trying to enroll her son. There is a court order that the stepmother is not allowed to be around the children, due to her being a danger to them. It is believed that the stepmother was there to try to take Autumn and run with her as she has tried to leave the state with the biological parent's kids before.
On 06/03/2022, the stepmother was then again at Sebastian's place program trying to enroll her son there as well. There is a court order that she is not allowed around the children. The children are currently with their father for the weekend. When it is not his weekend to take then, it is believed that they are going to leave the state with the children as there is a court order that says they can't leave with the children.

There are concerns for the children's safety as they are in imminent danger. There should be a well check done on them immediately to ensure the children are safe."

On June 14, 2022, the Florida Child Abuse Hotline received additional allegations alleging:
"On 6/12/2022, the mother punched Nicholas while they were at the grocery store. Nicholas was acting out, so the mother punched Nicholas in the head. She then told him something, details unknown. The mother then slapped Nicholas so hard that his face was red. The mother also grabbed and squeezed him by the arm, and he could be heard saying "Mommy, let go, you're hurting me". The mother then told Nicholas that "if you don't stop, I'm going to leave you here". The mother then left Nicholas in the middle of the aisle as he was crying.

On 6/14, there was a mediation that took place and mention of the charges being dropped and criminal charges being closed. There is a concern that the mother will be allowed around the children without a safety plan in place. The mother still beats the children and gets physical with them. The mother and father's actions got Autumn kicked out of school. The father is trying to take the children away from the mother. When the children are with the father, they are in danger because the father gives them medicine to go to sleep. The mother is getting ready to leave the state with Nicholas as she is out on bond. There is a court order in place that states that the mother cannot be around the children, though she is still trying to come around the children. The children visit the father on the weekends and Nicholas is with him now."

On June 14, 2022, the Florida Child Abuse Hotline received additional allegations alleging:
"Today, 06/14/22, the mother was in a Jeep with Nicholas, the father and a neighbor. The mother was allowing Nicholas to hang out the side of the jeep while it was moving, and Nicholas almost fell out of the jeep. Nicholas was not strapped in and he was not in a car seat. The neighbor laughing about it and went faster. There are concerns that Nicholas is going to get hurt or killed in the care of the parents."

On June 21, 2022, the Florida Child Abuse Hotline received supplemental information alleging:
"Mom would use a belt to beat Nicholas, resulting in a split open, bloody lip and a black right eye. Mom also put her hands around Nicholas' neck choking him. Donavin was just sitting there watching this happen.

Mom gives Autumn a blue pill (Unknown) so she would go to sleep.
There are concerns mom has no food in the house, nor electricity or water.
There is a no contact order for 500 feet for mom and Sebastian, but mom still goes around him.
Donavin wants 50/50 custody, possibly so he and mom can run away with the kids."

The investigation was closed with not substantiated finings of physical injury, no indicators of bone fracture, inadequate supervision, and sexual abuse-sexual battery as to the victim children, Autumn and Sebastian Davis and Nicholas Galli with the alleged perpetrator listed as Melissa Davis. Other parent in the home as Donavin Davis. The child, Nicholas sustained a foot injury however, upon reviewing medical records, the child's foot never sustained a fracture and the notes did not indicate that he sustained in injury which was inflicted by a parent/caregiver. Household members informed that the injury sustained was caused by him playing on the trampoline. A report came in for Physical injury however, upon speaking with the mother and collaterals, the child was not present with the mother on the day she was at the grocery store and allegedly smacked the child. In regards to physical injury on Autumn and Sebastian, there have been concerns for Melissa being physical with all of the children. Physical injury will be not substantiated as the children have not presented with any marks or bruises however, collaterals appear to have concerns for the children being physically abused. The child was not observed with any injury. The child, Autumn denies anyone touching her inappropriately when the allegations for sexual abuse came up. The Maltreatment for inadequate supervision is also screened out as the child, Nicholas was not in the

jeep when the allegations came in for the child hanging out of the car while the mother and step-father were driving.

On April 9, 2022, the Florida Child Abuse Hotline received special conditions referral for a child-on-child intake#2022-109024:
"Autumn has been playing with herself all day on 04/09/2022, she has been putting herself on the couch in between Sebastian and Nicholas and rubbing and playing with herself "down there" on her vagina area. It seems that she is doing it for pleasure. Autumn says to her brothers that she needs to make babies when she is playing house. She sits on both the brother's laps. She tried to kiss Nicholas and tried to put her tongue in his mouth and Nicholas pushed her off of him."

This intake will not warrant a field response. Deputy Moore responded and completed investigation 22-012203 in conjunction with mention of additional allegations of Child on Child reports. The children involve are siblings (Autumn and Sebastian) and Nicholas is the father's girlfriend involving the children which two are siblings and one being a non-relative. The children denied the allegations and the officers closed the investigation. The step-mother, Melissa Davis was arrested for false reporting and tampering with evidence. CPI completed a collateral with CPI Caminero and she reported no concerns for the children with their mother, Jennifer Brophy. She has some concerns as the step-mother and father both have history of acting impulsive. CPI made contact with all parents, Jennifer Brophy, Melissa Davis and Donavan Davis in reference to the allegations. The parents all agreed to a referral for counseling for all of the children. CPI completed a Sequel Care referral for counseling. There was no evidence to support the allegations. It was documented in numerous reports that the step-mother / mother Melissa Davis was coaching the children on what to say. Law Enforcement closed out their investigation. The case was handled at the PSO ART Pilot level with no further action.

On April 9, 2022, the Florida Child Abuse Hotline received intake#2022-109023 alleging:
"The paternal grandmother has numerous loaded firearms that are left around the house within the children's reach, they are alcoholics, and the paternal aunt sells cocaine and marijuana. She keeps the cocaine and the marijuana at the home. She does not lock up the drugs. There is a dog and cat. The paternal aunt sells marijuana to the paternal grandmother. The children are going to the paternal grandmother's home this upcoming weekend when they are with the mother."

The investigation was closed with no indicators of environmental hazards as to the victim children, Autumn and Sebastian Davis with the alleged perpetrator listed the paternal grandparents as to the Davis children, Kristine and Dale Davis along with Katelyn Davis (paternal aunt). Other household member listed include Lajuan, Grace, Devin, Kileen Keegan. The investigation will close out with no indicators for Environmental Hazards as none of the household members or children were able to identify any drug use from the home. In addition, collaterals deny any concerns for the household members. In addition, none of the household members that were drug screened were positive for any substances.

On April 9, 2022, the Florida Child Abuse Hotline received intake#2022-108930 alleging:
"The investigation will close out with a referral to Chrysalis Health for the child, Sebastian due to having outbursts at school. The children, Sebastian and Autumn did not disclose anything that would support the said allegations. The child, Nicholas did not state anything concerning to support the said allegation other than Sebastian "teaching him how to play with it" however, did not know what it meant and could not elaborate on it. The victim child did not disclose any additional information until the child was left alone with the mother then asked for CPI."

On April 9, 2022, the Florida Child Abuse Hotline received additional allegations alleging:
"On the night of 04/08/2022, LE was out at the home for the 2 children. Autumn was sexually assaulted. She had her shorts on and a nightgown on. She pulled her panties to the side and started fingering herself

in front of Sebastian. She was told to stop when an adult walked in on Autumn doing it. Sebastian stated that, "the mother showed her how to do that because the mother did that to Autumn and showed her how to do it," on the couch at the mother's home on 04/03/2022. It happened at nighttime around 7pm because, "mommy wanted a million dollars." It was stated that "mommy showed her how to spread her lips open and that mommy showed her how to stick her fingers inside of herself, because mommy was doing it to", [meaning that the mother was sticking fingers inside of Autumn]. "Mommy was doing it to herself too," it is unknown if that means that the mother was playing with herself as well. LE asked "why mommy would do this?" Sebastian, stated "I don't know, but mommy stated that she wanted a million dollars." Sebastian was sitting on the couch when it happened. The children will be back in the mother's custody on 04/11/2022 after school. The stepmother and the father do not feel comfortable with the children returning home to the mother's home. LE closed the case, because Autumn stated that nothing happened to her. Autumn stated that no one touched her.

Autumn has 2 bruises on her right side. The mother hit her 7 times with an open hand because she was being loud at bedtime. The mother had the children for 13 days and those bruises were not there when the stepmother had Autumn 2 weeks ago.

Sebastian may have some autism. The mother is very depressed, and she drinks. The mother drinks all the time every day. The mother gets angry when she drinks, and she has fallen asleep while she drinks. The children do not like it. She is the only one that is ever home. The mother does not trust the maternal grandfather with the children. The mother goes out every other weekend to drink. There are always alcohol bottles in her house. Her bank statements show that she has a drinking problem.

On 02/2022, there was another report on the maternal grandfather. The maternal grandfather was touching Sebastian's penis in the shower. And showing Sebastian how to masturbate with himself. The maternal grandfather and Sebastian were taking a shower together.

The maternal grandfather and the ex-maternal grandfather's girlfriend huff freon together in the past. The carpet had to get pulled up because it smelled like meth. The maternal grandfather does meth daily in his room while the children are home. He is a functional user and stated that "he will never stop doing it." The maternal grandfather has been doing it for years. He gets mad very quickly and he is very controlling especially over the mother. There are concerns for the safety and wellbeing in the care of the mother.

This is second time that DCF was involved for sexual allegations specifically with the mother. A couple of months ago in 2022, Autumn had some bruising on her inner thigh area near her vagina area. Both Autumn and Sebastian and told Nicholas that there was a guy named Bob that was touching Autumn at the mother's house by the pool. It was unfounded.

There is a court order for the children going back with the mother on 04/11/2022.
The mother made a comment that she does not trust the maternal grandfather's girlfriend."
The investigation was closed with no indicators of physical injury, sexual abuse-sexual battery, sexual abuse-sexual molestation, substance misuse-alcohol and substance misuse-illicit drugs as to the victim children, Sebastian and Autumn Davis with the alleged perpetrator listed as Jennifer and Thomas Brophy. The investigation was closed out as a false report.

On February 17, 2022, the Florida Child Abuse Hotline received special conditions referral for a child-on-child intake#2022-050241: *"On 2/12/22, Sebastian showed Nicholas how to play with his penis because Sebastian was in the bathroom with Nicholas and Sebastian showed him how to do it. Sebastian was touching Nicholas' penis. While they were in the bathroom, Sebastian was also playing with his*

penis. Nicholas told his mother but is scared that Sebastian is going to get hurt because Sebastian's mother told them not to say anything because he would be in trouble.
A couple weeks ago, when Autumn was over, Autumn was playing with a yellow plastic straw and was poking Nicholas in the butt with the straw. She then asked Nicholas if she could put the straw in his butt and he said no, and she still tried to do it.

Nicholas has autism and a sensory disorder.

Nicholas and Autumn are at the home every other weekend. This week they are with their mother."

On February 18, 2022, the Florida Child Hotline received special conditions referral for a child-on-child supplemental information: *"The information was received on 2/18/2022. There was a Zoom on 2/16/22, and the step-mother shared that there have been some concerning behaviors in the classroom with Nicholas. She was asked what was causing the behaviors. The stepmother informed that Nicholas' behaviors have changed since he has been going to his stepbrother and stepsister house.*
The stepmother informed that Nicholas stated to her that Sebastian has showed him how to play with his "pee pee" and showed Nicholas how to do this. The stepmother stated that DCF has already been involved with Sebastian, Autumn, and Nicholas. Law enforcement went to the home on (2/13/22) Sunday, to speak with Nicholas about what had happened.
The children do not live in the same house hold."

The investigation will close out with a referral to Chrysalis Health for the child, Sebastian due to having outbursts at school. The children, Sebastian and Autumn did not disclose anything that would support the said allegations. The child, Nicholas did not state anything concerning to support the said allegation other than Sebastian "teaching him how to play with it" however, did not know what it meant and could not elaborate on it. The victim child did not disclose any additional information until the child was left alone with the mother then asked for CPI.

On January 14, 2022, the Florida Child Abuse Hotline received intake#2022-013399 alleging:
"On January 14, 2022, there are concerns for the children when they are with their mother.
Ongoing for about three years, the children have been fighting head lice. The mother claims that they don't look like lice or that they don't scratch themselves at her house. Autumn constantly gets urinary tract infections and has blisters.

The mother dresses the children in clothes that are too small even through the father provides clothes that fit appropriately. The mother doesn't dress the children appropriately for the weather.

There is a concern that the children are being sexually abused. Autumn screams when an adult tries to give her a bath. At the mother's home, the mother bathes with the children. The mother is naked and lets Sebastian play with her "boobs". He says that she has rings in them. The children also take showers with their grandfather, who is an alcoholic. Autumn and Sebastian don't like bathing with the adults. The mother has different men that sleep with her and the children at night. Autumn and Sebastian have been instructed not to talk about what happens at night. When they say something and remember they weren't supposed to talk about it, the children shake.

The mother had never taken the children to a dentist until the father made her take them. Their teeth are rotting, and the children complain that they hurt.

Sebastian has been referred to a neurologist many times by his pediatrician, but the mother won't take him. If an appointment is set for her, she doesn't show up. Sebastian appears to have autism.

There is a concern that the mother takes Autumn to work with her, and the grandfather takes Sebastian to his job. Neither place is safe for children and a person can't watch a child this young and work at the same time. The mother works with chemicals and the grandfather works as a mechanic on diesel engines.

The children are also left with the paternal grandparents who are alcoholics and have firearms within reach of the children. The safety is left.off on the weapons. The paternal aunt uses marijuana and cocaine and there's a concern that they could go in her room and get into it. They are over there about every other weekend when not with their father."

On January 21, 2022, the Florida Child Abuse Hotline received supplemental information alleging:
"The children reside with the mother. The father has visitation two weekends a month. On Friday January 14, 2022, the father gets the children after school until Monday morning. The stepmother was bringing the children home, Autumn had to go the bathroom. The stepmother stopped at a gas station and went inside and helped Autumn go to the toilet. The stepmother noticed bruising on Autumn's groin, in between the legs by the child's vagina and she was complaining of pain in her vagina. They got home, the stepmother spoke to the father and they called the police or the hotline; they responded to the home. Autumn and her brother, Sebastian went to CPT; they found bruising on Sebastian's arm and back and bruising on Autumn's vagina and took a pictures. On Saturday January 15, 2022, the stepmother was giving Autumn a bath and she started screaming in pain. The stepmother checked Autumn and there was something white coming out of her vagina. Autumn was in so much pain that they took her to Medical Center of Trinity. The doctor there pulled out what looked like wadded up napkins and there was blood on them. Autumn was sleeping and unfazed by the doctor doing this; this was concerning to the father and stepmother. The Medical Center of Trinity they called the department and CPT. CPT stated that they were not adding that to their report because their medical team did not find that the night before. Medical Center of Trinity diagnosed Autumn with a foreign body in vagina.

Since October of 2021 until now, both of the children have been battling head lice for about ten weeks. The father gets the treatment and when he gets the children back in two weeks the children have not been treated. The father took both children to the dentist, Sebastian has to have surgery because he has so many cavities. Autumn has more cavities than a four year should. This is because the children are eating junk food and are not brushing their teeth. The father took the children to the doctor, Autumn weighs sixty pounds and is overweight, she is wearing a size ten in girls. When Autumn goes to the father's home her clothes are too small and too tight. Sebastian he was underweight for his age, around forty pounds. Autumn has been on antibiotics eight times for urinary tract infections and yeast infections; she would go the father's home with these. Autumn's underwear would be stained with discharge.

Both of the children, but mainly Sebastian say that they shower with the mother. Sebastian stated, "mommy let's me play with her boobs." The children have both stated that they shower with the maternal grandfather.

Within the last month, Sebastian was telling the father that the mother has guys sleeping over; they all sleep in the same bed. Sebastian would be on one side, then it would be the mother, Bob and then Autumn would be on the other side. The children often go to work with the mother at the pool company and with maternal grandfather at a truck company. The mother works at some kind of Pool Company with chemicals."

On February 17, 2022, the Florida Child Abuse Hotline received additional allegations:
"There is a guy called "big" guy that was touching Sebastian's penis when Sebastian was in the shower with him at the mother's house. The "big guy" was showing Sebastian how to play with his penis.
The mother told them not to say anything because he would be in trouble."

The investigation was closed with not substantiated findings of physical injury, no indicators of environmental hazards, inadequate supervision, medical neglect, and sexual abuse-sexual molestation as to the victim children, Autumn and Sebastian Davis with the alleged perpetrators listed as Jennifer and Thomas Brophy. The investigation will close out with no indicators for sexual abuse-sexual molestation as the child, Autumn did not disclose any sexual abuse. The child was seen by CPT and the findings were no indicators for physical sexual abuse. Physical injury will be coded as not substantiated as Sebastian was seen with a mark on his arm which was unexplained. In addition, the father and step-mother reporter Sebastian to having a black eye however, Sebastian is unable to describe how he received any injuries. The children are being seen by medical professionals by the father and there are no indicators to suggest that the mother does not follow up. There has been miscommunication between the parents as to when it comes down to appointments and medications. There is no evidence to suggest that there is an environmental hazard or inadequate supervision on behalf of the mother.

On August 18, 2021, the Florida Child Abuse Hotline received intake#2021-252052 alleging:
"Nicholas has a fresh scratch mark near his temple and eye. He has a rectangular shaped bruise right next to his eye on his temple. The step father caused the injury because of Nicholas's attitude. The injury was caused his morning or yesterday evening. Nicholas is scared."

The investigation was closed with verified findings of physical injury as to the victim child, Nicholas Galli with the caregiver responsible listed as Donavin Davis. Other household member/parent/caregiver was listed as Melissa Davis. Nicholas was interviewed by CPIT Gleason and Deputy Croft on August 19, 2021. Nicholas was observed with a two bruises on his face. When asked what happened, he stated he and Donavin (who he refers to as his father) were kicking and punching each other like superheroes. He stated he is disciplined by being spanked on the butt with an open hand over clothes. His caregiver, Melissa Davis, stated that Nicholas was not listening and he jumped off of the couch and he fell and hit his head. Melissa's husband, Donavin Davis, said Nicholas was jumping on the couch and he told him to stop several times. When he continued to jump, he advised Melissa what was going on and he went outside to smoke a cigarette. He was outside and did not see Nicholas fall and hurt himself. Nicholas was interviewed at Child Protection Team and gave two additional explanations for hat occurred. He advised he was running from snakes and he advised Donavin turned him over to spank his butt and he hit his head on the side of the trailer which was the most plausible explanation provided based on his injuries. Law enforcement was present at interviews and Pasco Sheriff's Office Report 2102932 has been unfounded for child abuse. Nicholas was observed with two small bruises on his face at commencement. He was seen at CPT and provided several explanations for the injury to include Donavin flipping him over to spank him and he hit his face on side of trailer which was the most plausible based on the injury. CPT had positive findings that support abuse by Donavin. Nicholas is diagnosed with Intermittent Explosive Disorder and Post-Traumatic Stress Disorder and is prescribed medication. He attends VPK daily at Richey Elementary and according to school social worker, he has meltdowns at school, however she has no concerns for child in the home with Melissa and Donavin. Nicholas has been referred to a pediatric neurologist and they are scheduling a sleep deprivation study to determine if there are any medical issues contributing to his outbursts and are evaluating him for Autism Spectrum Disorder. Melissa engaged with Primary Diversion throughout this investigation and has begun utilizing new techniques with Nicholas. Donavin has been resistant to suggestions provided from Primary Diversion but has agreed to continue working with services to learn better parenting techniques. Case is being transferred for in-home non-judicial services.

On August 10, 2021, the Florida Child Abuse Hotline received intake#2021-243944 alleging:
"Sebastian is only 44lbs and underdeveloped. He is not gaining weight. The pediatrician provided 12 refers for a neurologist. The mother states "I don't care what the pediatrician has to say I'm not taking them to any doctors or specialist. They don't need it." Sebastian has signs of autism that are interfering with his everyday life. It is unknown why Sebastian is underdeveloped and underweight which is why he

needs to see the neurologist. When he eats he will cry. He doesn't like food in his mouth. The mother gives him whatever he wants so he doesn't cry. Sebastian doesn't fully communicate and doesn't comprehend like a normal 5-year-old. Sebastian also needs to see a speech therapist. It has been 3 years now.
Autumn weighs almost 60lbs and her blood pressure is elevated. She is very obese due to excessive calories and at risk for cardiac issues. The pediatrician provided 6 referrals to see a speech therapist but the mother refuses to take the referrals. The mother will not take the children. Appointments were made and she cancels them because she had a lunch date or it's an inconvenience her for. The mother doesn't cook. She gives them whatever they want. The children eat snacks all day or McDonalds. The children have been in the mother's care since December. She was charged for domestic violence in December. When in the father's care, the children were doing great and up to date of medical stuff."

The investigation was closed with no indicators of medical neglect as to the victim children, Sebastian and Autumn Davis with the alleged perpetrator Jennifer Brophy. The household consists of the mother, Jennifer Brophy, her children, three year old Autumn Davis and five year old Sebastian Davis, and the maternal grandfather, Thomas Brophy. Both children go to their pediatrician when sick, are up to date on their immunizations, and their well checks. The mother and other family members believes that the allegations were called in by the children's father, whom the mother is currently in a custody battle with.

On June 2, 2021, the Florida Child Abuse Hotline received intake#2021-175997 alleging:
"The step father was angry and grabbed Nicholas' cheeks and squeezed to where the child had a bruise on his face. Nicholas' mouth was bleeding as well. There is a concern for the safety of the child."

The investigation was closed with verified findings of physical injury with the caregiver responsible listed as Donavin Davis with the victim child listed as Nicholas Galli. Melissa Galli (now Melissa Davis) was listed as parent/caregiver. Nicholas said that Donavin grabbed him by him by his cheeks, he also said that he hurt his head at school. Melissa stated that Donavin let his frustration get the best of him, while he was helping her care for Nicholas. She stated that Donavin did grab Nicholas by his cheeks and left a mark on his cheek, she stated that Donavin did also smack Nicholas on his butt and left finger prints on Nicholas butt. Donavin agreed that he allowed his frustration to get the best of him, he stated there is a lot of things happing with him and his own kids. He said to include Melissa's father being back in the hospital. He stated that he did not have intentions on hurting Nicholas, he stated he was not aware of any markings on Nicholas until Melissa told him. Child was observed with a bruise on the right side of his face and what appeared to be finger markings on the child's buttocks. New Port Richey Police Department took report and forwarded charges to SAO, however at closure no charges have been filed. Child Protection Team had positive findings for abuse. The mother and Donovin separated. Family just completed Family Support Services and family was referred to Sequel Care and Baycare for anger management and parenting at closure.

On March 4, 2021, the Florida Child Abuse Hotline received intake#2021-071588 alleging:
"On 01/17/2021, Nicholas was admitted to the hospital with a black eye, bruised ribs, and cuts on him. Nicholas was in the care of the mother when the incident occurred. It is believed that the mother or stepfather caused Nicholas' injuries. Nicholas' father was previously accused by the mother of being the individual responsible for these injuries on Nicholas. Nicholas' father hasn't seen Nicholas since 01/11/2021. Nicholas' father dropped Nicholas off at daycare on this day without any injuries. The mother took Nicholas' father to court for the allegation, but she dropped the charge. The mother likely got angry because Nicholas was asking about his father, resulting in the injuries. Nicholas has expressed in the past that he doesn't want to go home to the mother's home when he is with his father. Nicholas has expressed that the mother spanks him hard. Nicholas screams, cries, and hides when mother picks him up from his father's home. There is a concern that the mother's violence towards Nicholas is escalating. There is a concern the mother could put Nicolas in coma or kill him even by accident with her level of anger. There is a history of physical abuse in the mother's home. About a year ago, Nicholas had cuts on

his lips. Nicholas previously had a knot on his forehead. When Nicholas was younger the mother pushed him off the bed and ended up with a knot. DCF was contacted, but no one came to talk to Nicholas' father about the incident. During the incident, Nicholas had a concussion and slight brain bleed. Nicholas had another knot on head last year as well as a second black eye. The mother abuses Nicholas out of anger. The mother has eight or nine previous DCF cases against her and three domestic violence cases in the past year and a half. The mother had a history of domestic violence towards Nicholas' father while they were still together.

The mother has unmanaged mental health issues. The mother is diagnosed with severe Bipolar Disorder and Schizophrenia. The mother gets angry very easily. The mother goes from being angry to "psycho" very quickly. The mother is supposed to be taking medications for her mental illness. The mother hasn't been taking her medications for five or six years. The mother's mental health is getting worse and worse. The mother's unmanaged mental health issues are a serious danger to Nicholas.
The maternal grandfather living in the home has three charges against him in the early 90s for having sex with a child.

The mother and stepfather are smoking marijuana.

The mother may have Munchausen's and/or Munchausen's by proxy. The mother has taken Nicholas to the hospital an abnormal amount of times for unverified issues. The mother was claiming that Nicholas had seizures, which no one has seen. The mother is most recently claiming Nicholas has psychological problems, likely caused by the mother.

The stepfather/father's children are in the home on Friday, Saturday, and Sundays. The mother brought a homeless man into the home that she doesn't know. The mother is described as manipulative and narcissistic. The mother makes up stories like crazy. The mother plays the victim well."

On March 12, 2021, the Florida Child Abuse Hotline received supplemental information alleging:
"Nicholas is abused by the mother. Nicholas states he hates the mother because she hurts him and smacks him very hard. It is unknown when the last time the mother smacked him or if he has ever had injuries. A year ago, Nicholas was observed with black eyes and bumps on the head. the mother would always come up with an excuse for him having the injuries such has he hit the door or tripped over something. On 01/17/2021, Nicholas had a left black eye and bruised ribs. The mother took Nicholas to the hospital and accused the father of causing the injuries. However, there are concerns the injuries occurred while in the mother's care.

Nicholas attends Great Hope Preschool. Nicholas doesn't want to live with the mother but wants to live with the father. Nicholas is afraid of the mother.

The mother is not the birth mom but the guardian. The birth mom gave the father and mother, Melissa signed guardianship because she already had six children. The mother, Melissa claimed to be a third relative to the birth mom which they are not blood related. Everything the mother does is a lie. The mother is bipolar and doesn't take her medication. The mother states she is cured. In June 2020, the mother stole $2,000 from Nicholas's paternal relatives after getting their credit card information. However, law enforcement did nothing about it because the bank returned the money back to the relative's account. The mother gets away with everything, it is unbelievable. The mother got married three months ago. The grandfather have heart problems. The grandfather was convicted of child molestation in the State of Washington. The grandfather has three charges but the State of Washington did not classify him as a sex offender. He spent some time in jail. The stepfather have two girls that visit on weekends."

On April 8, 2021, the Florida Child Abuse Hotline received supplemental information alleging:

"The mother was hitting Nicholas on his belly and it hurts. The mother grabbed him and the father hit him and got him on his knee with the father's nails. There is a scratch on his knee, but it is relatively fresh and could be no more than a few hours old. Nicholas was sucking his thumb and it is believed this is regressive behaviors. He has been staring of into the distance and being more aggressive in his play during free time."

On April 13, 2021, the Florida Child Abuse Hotline received supplemental information alleging:
"The parents are packing up their car with a lot of bags. There is a concern they are leaving state. Nicholas is in danger in their care. The mother has been off her medication and she is not in her right state of mind to have Nicholas in her care out of state."

The investigation was closed with no indicators of inadequate supervision and physical injury as to the victim child, Nicholas Galli with the alleged perpetrators listed as Melissa Galli and Doavain Davis. Other household members include Morse Clark, other children listed in the home include Sebastian and Autumn Davis. The child, Nicholas was not observed to have any marks or bruises when the department arrived at the family's home. Nicholas said yes, he did have a black eye he then got distracted and began taking about something on the TV. He said that his mommy did spank his hand because he was doing something that he was not supposed to do in the kitchen. Melissa denied the allegations, she said Robert dropped of Nicholas she took the child to the hospital due to the marks and bruises on his body. Morris, maternal grandfather said Robert is "pissed off" he denied all of the allegations, he said he has no concerns for Melissa caring for Nicholas. Donovan Davis denied the allegations, he said his children have not been in his home for over three months. He said old stuff is being brought to the table. Child protection team has indeterminate findings for Munchausen syndrome and nothing to support the allegations of physical injury at this time. The child stated he will go to time out when he is in trouble.

On January 14, 2021, the Florida Child Abuse Hotline received intake#2021-014199 alleging:
"The current or past legal name of Melissa Davis is / was Melissa Galli. At about 1:00 p.m. today, an officer with the New Port Richey Police Department responded to her home "in reference to a possibly child injury case." Davis stated that "years ago, she adopted a 3 year old boy named Nicholas Galli." There is no supporting information at this time to indicate that Davis legally adopted Nicholas but he was in her home today.

Davis also told the officer that "during the adoption, she was married to a man named Robert Galli. Melissa [Davis] stated Robert has been around all of Nicholas' life. Melissa stated she has recently separated from Robert and has since been having custody issues with Robert regarding Nicholas. Melissa explained that Robert does not have any parental rights when it comes to Nicholas as the courts have awarded her full and complete custody." Davis gave no supporting evidence that would indicate she has been awarded "full and complete custody" of Nicholas.

Davis explained to the officer "how she feels Nicholas needs to continue to spend time with Robert as Nicholas began missing him. Melissa [Davis] allowed Robert to take Nicholas on Thursdays. Robert then drops Nicholas off at school on Monday and Melissa picks him up from school. Melissa explained that Nicholas was just with Robert. Melissa retrieved Nicholas from school and noticed several injuries on his body. Melissa observed a slight black eye to Nicholas' left eye, a bruise on Nicholas' right shoulder, a bruise on his left rib cage and a bruise on Nicholas' leg. Melissa asked Nicholas how he obtained these injuries and Nicholas informed Melissa that Robert slapped him in the face (3 times). Melissa also explained that Nicholas informed her that Robert was going to shoot Melissa with a gun. Melissa believes Nicholas may have overheard a conversation Robert was having with someone."

The officer spoke to Nicholas who "stated he was struck in the face 3 times by Robert the last time he was with Robert. Nicholas denied any other injuries, however, he is only 3 years old. While speaking with

Nicholas," the officer "did not observe any injuries to his face and exposed skin." Davis then showed the officer "pictures of Nicholas injuries." He "observed photos of Nicholas left eye slightly bruised" and "bruises in the areas she had mentioned before." Davis stated "that Robert resides in Clearwater, which is where the alleged incident took place. Melissa [Davis] stated she will not let Robert take Nicholas for safety concerns."

Later this afternoon, Davis "began receiving text messages from Robert stating that she wasn't going to like what's going to happen next. Melissa [Davis] was in fear that Robert may be threatening her and that he may arrive at her house later." When the officer contacted Robert Galli by phone, he stated that "he was going to contact Child Protective Services to get Melissa in trouble. This is what he meant by the text messages. Robert assured" the officer "that he would not be driving to Melissa's residence."

At this time, it is not known what the true legal and biological relationships are between Melissa Davis and Nicholas Galli, and between Robert Galli and Nicholas Galli."

The investigation was closed with not substantiated findings of physical injury as to the victim child, Nicholas Galli with the alleged perpetrator listed as Robert Galli. The child would go with the Robert Thursday through Sunday and then was going to Roberts's sibling's house Monday and Tuesday. Melissa said she and Robert were married in 2018 and divorced in 2018, she stated she has all rights and custody over Nicholas, Robert does not have any rights to Nicholas at all. The biological mother of Nicholas is April Hammond, Melissa's stated they have not seen or spoke to April in over a year. She stated she divorced Robert because Robert tried to purchase a firearm from a pawn shop in Hudson. He was not able to purchase the firearm so he went and bought a BB gun, he then put the BB gun to her head in the back yard while Nicholas was right there. She said her father grabbed Nicholas and took Nicholas in the house. Melissa stated Robert put what looked like a gun to her head and said to her see how easy it would be for me to pull the trigger. Melissa said she did not want anything else to do with Robert. Melissa stated she's working with sunrise and plans on filing an injunction to include Nicholas.

On December 19, 2020, the Florida Child Abuse Hotline received intake#2020-367905 alleging:
"Every time the father picks up Autumn from the mother's house, Autumn is in a saturated diaper and has Urinary tract infections. Last night, the father brought Autumn to urgent care, got her a urinalysis, and they said she had a UTI. The father brought Autumn into the ER today, and Autumn does not appear to have a UTI at this time. She has no signs of diaper rash. Autumn has been having recurrent UTIs and diaper rash proceeding visitation with the mother. Every time the father picks up Autumn, she is in a wet diaper. The mother says she doesn't get around to bathing Autumn. At this time Autumn appears to be in good health.

The mother is currently in the Land O' Lakes jail due to a recent domestic issue."

The investigation was closed with no indicators of environmental hazards as to the victim child, Autumn Davis with the alleged predator listed as Jennifer Brophy (mother as to Autumn). The mother denied that her daughter has a diaper rash, she advised Donavin and Melissa are angry because they wanted to claim the children on Donovain student loans.

On October 14, 2020, the Florida Child Abuse Hotline received intake#2020-296119 alleging:
"The mother and father leave Sebastian, Nicholas and Autumn home alone with no adult supervision. The father has people come to the home all hours of the night. The father has a loaded firearm within arms reach of Sebastian, Nicholas and Autumn. It was stated Sebastian, Nicholas and Autumn are always dirty and asking for food.

Sebastian, Nicholas and Autumn live with their mother, father and maternal grandfather."

On November 4, 2020, the Florida Child Abuse Hotline received additional intake alleging: *"The grandfather was charged with rape a while back and there is a concern he has touched Autumn. She is always saying that her vagina hurts, and it is always red."*

The investigation was closed with no indicators of inadequate supervision and sexual abuse-sexual molestation as to the victim children, Autumn, Sebastian Davis and Nicholas Galli with the alleged perpetrators are listed as Melissa Galli, Donavin Davis and Morse Clark. The children are not ever left home alone unsupervised, per the parents of the children to include the neighbors. The neighbors advised there is a disgruntled neighbor creating problems for the family. On the weekends Autumn and her brother Sebastian visit their father Donavin and their step mother Melissa. The child Autumn denied anyone touching her girly parts, if they did she would tell her mother. Other child denied any inappropriate touch. Melissa and Donavin denied the allegation, they advised the children are never alone with Morse. The children all denied allegations. Though, Morse Clark, does have a child sexual abuse conviction from 1991, he is not ever alone or in a caregiving role of the children. LE unfounded their report and CPT provided an exception. The alleged victim child does not reside in the home and lives with her mother and visits her father in this household every other week. The mother, Jennifer Brophy (mother as to Autumn and Sebastian), denied any concerns for sexual abuse. There was no evidence gathered through interviews and collateral sources to support any allegations of inadequate supervision. No services needed.

On June 15, 2020, the Florida Child Abuse Hotline received intake#2020-169766 alleging: *"The father has a lot of people coming and going to the house at all hours of the day and night. The father is rough with the kids and he leaves then home alone while he goes out or he leaves with them various people. The father has been heard talking about fire arm he has and that he leaves it down when the children are there. There are concerns for the kid's safety. The kids have also had head lice on more than one occasion that has yet to be resolved."*

The investigation was closed with no indicators of environmental hazards and inadequate supervision as to the victim children, Autumn and Sebastian Davis with the alleged perpetrator listed as Donavin Davis. Concerns were raised that the father has a gun in the home where the children are able to reach it. Concerns were also raised that the father has a lot of people over to the home all hours of the day and night. CPI met with the children and father who reside at the home. Children are limited in their verbal skills due to their young age and not able to provide any information as it relates to the allegations. Donavain confirmed he owns a gun, went to his closet, pulled out his gun case from the top of the closet and then retrieved a key he needed to use to unlock the case the gun was in. The children do not have access to the locked handgun case and it is kept out of reach. The children were observed to be free from marks or bruises or lice. Neighbors deny that the father has a lot of foot traffic. No concerns were noted for the father using drugs or the home being hazardous. The home was observed to be free from hazards. The father owns a gun and is versed on gun safety. The hand gun is kept in a lock box at the top of his closet out of the reach of his children. Children were observed to be free from lice. No concerns were voiced from the mother of the children or fathers girlfriend. Neighbor denies concerns for people coming and going from the home. At this time there is no evidence to suggest that the children have been harmed in any way or are likely to be harmed.

On February 26, 2020, the Florida Child Abuse Hotline received special conditions referral (foster care referral) intake#2020-067648: *"Logan is on anti-psychotic medication for trying to harm the people in the home. In the past, Logan stated he was going to get rid of all of them. In the middle of the night, he went and stuffed a lot of things in the oven and turned it on causing it to burn up. He drew a knife on his caregiver and assaulted the two-year-old in the home. Knives were also found hidden under his mattress.*

Logan has been refusing to take his anti-psychotic medication for the past five days. Logan is big for his age. The foster mother would physically force him to take it. Four months ago, Logan walked in traffic trying to kill himself. He would also run away. He makes ongoing homicidal ideations.

When Logan went to school today 02/26/2020, he was accessed to be Baker Acted. Law enforcement told the mother if they arrest Logan, she would have to pick him up in four hours. The school Social Worker stated Logan did not meet the Baker Act criteria. Logan stated "now you just pissed me off and I'll make sure Nicholas is not here so I can be the only child". He stated he wants the two-year-old to be dead because he wants to be the only child.

A safety plan was placed in the home, however, the safety plan was taken off because Logan was doing well for about six weeks. The safety plan Included Logan being monitored 24-hour a day and they had a camera in his room."

The intake caregiver is listed as Melissa Galli and the child listed is Logan Pranter.

On September 19, 2019, the Florida Child Abuse Hotline received intake#2019-297226 alleging:
"On Wednesday 09-18-2019, it was reported Nicholas fell while running down the sidewalk, which caused him to sustain a knot on his head and cuts on his face, however, Nicholas has no other injuries on his knees, hands, arms or any other part of his body that would indicate he fell on a sidewalk. As a result, there are concerns that Nicholas' injuries are not consistent with the explanation provided for the injuries. Nicholas has a raised knot the size of golf ball on the center of his forehead. The knot appears to be a red and white circle. It was also stated to be the size of an egg. Nicholas also has a cut on his nose and a cut between his nose and his upper lip. There is an additional cut on his chin. This is not the first time that Nicholas has gotten a lump on his head while in Melissa's care. Last month, Nicholas sustained a knot on his head and it was reported that he had fallen off Melissa's bed. At one point, Nicholas woke up from sleeping and was crying out for his mother. It was stated that Nicholas indicated that the mother had hit him and hurt him. It is unclear if this was during the same time period as Nicholas sustaining the marks on his head. Nicholas knows Melissa as his mother.

In the past, Melissa has spanked Nicholas hard. Melissa attempted to hit Nicholas on his behind and he moved and she hit him on his back near his waistline instead. As a result, Nicholas sustained redness on his lower back/waistline area.

There are concerns for Nicholas because he frequently goes to the hospital. Melissa has taken him to the hospital recently because she thought he was having a seizure."

The investigation was closed with no indicators of physical injury as to the victim child, Nicholas Galli with the alleged perpetrator Melissa Clark (now Melissa Galli). Other household members include Morse Clark, parent/caregiver listed as Jason Eccles and child, Logan Prater. Melissa provided medical paperwork from the child's hospital visit from early in the day. The child was diagnosed with an "abrasion" on September 19, 2019 at Trinity Medical Center. The mother provided the child already had an appointment with his pediatrician on September 20, 2019 and plans to follow up with them during this appointment. The case was staffed with CPT on September 20, 2019 in which was staffed for an exception. Zuzanna Balter, Case Coordinator, reported that after review of the photos submitted to them, the nurse practitioner did not feel that the child needed to be seen by the Child Protection Team. A law enforcement report was taken by New Port Richey Police Department, Officer Toldo in which no criminal action was taken. There is no evidence to support the allegations of physical injury at this time. After interviewing the caregivers and household members, it appears the child fell while running on the sidewalk outside of the residence. The child was seen by a medical professional the next day in which

they documented the child had "abrasions" and no follow up actions were identified. At this time, the children are safe in the care of their caregivers Melissa Clark and Jason Eccles. No services are needed.

On May 9, 2019, the Florida Child Abuse Hotline received intake#2019-153992 alleging:
"For the last couple of months, Nicholas has been in need of a Pulmonary Doctor. Nicholas's Pediatrician recommended the doctor visit due to issues with Nicholas's ears, throat and nose. Nicholas's current caretaker has made multiple attempts to get him medical attention, however, due to him not having legal guardianship over Nicholas, his visits have been denied. The mother is aware of Nicholas's need for a Pulmonary doctor but has not made any attempts herself to take him to one."

The investigation was closed with no indicators of medical neglect as to the victim child, Nicholas Galli with the alleged perpetrator listed as April Hammond (now April Murray). Other parent listed in the home is Melissa Galli, Jason Eccles, household members Robert Delks and Morse Clark. CPI completed contact with the victim child, Nicholas Galli, and Melissa Galli. The child appeared to be clean, appropriately clothed, and free of marks or bruises. Melissa demonstrated to CPI temporary guardianship paperwork from the court signed by April Hammond (now April Murray) and there was no expiration date. Melissa advised that April nor, Robert Galli, has ever taken the child to the doctors. April Hammond did not want the child because of the way he was conceived and signed guardianship to her. She advised the last saw a pulmonologist a year ago at Pediatric Pulmonology in Tampa for respiratory issues. She the child has two inhalers; one is steroidal and the other non-steroidal. CPI observed these and photographed them. Both are prescribed as needed. She advised the child does breathing treatments are needed. The child is also allergic to bees, peanuts, and fresh grass. The child's epi-pens were observed and photographed. Household members Jason Eccles (Michelle's current paramour) and roommate, Robert Delks Jr., were not aware of the Nicholas' previous caregivers but knows that Melissa has always been a "mother" to him. They stated April is not involved. The maternal grandfather, Morse Clark, advised Melissa has always been the one taking Nicholas to doctor's appointments. The birth mother signed temporary non expiring custody to Melissa Galli and is therefore not involved. The child's medical needs are being adequately met to include regular wellness visits and follow ups with specialists.

On November 19, 2018, the Florida Child Abuse Hotline received intake#2018-757131 alleging:
"On 11/18/18, the father was supposed to have Nicholas for the weekend and was to drop him at 6pm back to the mother and he never did. The father told the aunt that he is not getting Nicholas back because she is a bad mother.

The father has no running water, no electricity at his home. The father had Nicholas staying with the uncle and the aunt. The father physically cannot care for Nicholas. The aunt and the uncle both have severe heart conditions and are a huge fall risk. The aunt and the uncle do hot have good balance. The aunt and uncle have been seen where they almost dropped Nicholas.

The father is very abusive both mentally and emotionally. The father has screamed in Nicholas face. The father has smacked Nicholas. The father plays on his phone and Nicholas has gotten in cabinets that has chemicals in it.

The father has called the stepmother a whore and has threaten to hit the mother in front of Nicholas. Nicholas is not in a good place. Nicholas will be at the aunt and the uncle's home while the father works 16/17 hours a day. Nicholas will not have any interactions with other children and is not able to go outside. It will not be in Nicholas best interest to be living there.

The biological mother abandoned Nicholas since he was born and he has been by the stepmother's care for a year and a half. The stepmother is trying to get Nicholas to the doctors for hi pulmonary doctor for his ear, nose and throat. The father, aunt and uncle are denying Nicholas from going to the doctors."

The investigation was closed with no indicators of inadequate supervision as to the victim child, Nicholas Galli with the alleged perpetrator listed as Robert Galli. CPI completed contact was made with Roy and Jacqueline Piester (relatives of Robert Galli), and the victim child Nicholas Galli (1). The child was observed to be sleeping in a crib. He was appropriately dressed for bedtime, clean, and free of marks or bruises indicative of abuse or neglect. CPI rubbed the child's back gently and observed movement. Roy Piester advised that Michelle dropped the child off to them earlier in the week unclothed and with no diaper bag. He stated Michelle is engaging in unsafe behavior, such as partying late at night, bringing strangers over to her home, and allowing her father, who has significant medical problems to babysit Nicholas. Roy confirmed that Michelle and Robert have not yet adopted the child. Michelle currently possesses a power of attorney signed by the birth mother, April Hammond, which Roy says Michelle forged. Roy advised that April Hammond is sending them another power of attorney giving responsibility of the child to him, his wife, and Robert Galli. Jacqueline Piester expressed concern that Michelle recently lost her job and has no stable income. Jacqueline advised they are both retired and do have heart conditions, but they are no more a fall risk than anyone else their age. She stated that she and Roy have been babysitting Nicholas with the Michelle's permission since she got him. Roy advised the Robert's home did not have electricity and running water briefly because Michelle had them turned off. He advised that Robert restored both the next day. There is no evidence to support findings of inadequate supervision as the child is appropriately supervised by the temporary guardians as permitted by Michelle. The Robert's home has food, running water, electricity. Jacqueline and Roy are physically capable of caring for the child appropriately.

On May 24, 2018, the Florida Child Abuse Hotline received intake#2018-560348 alleging:
"The mother claims the child fell today while standing hitting the back of his head. The mother claims he was acting lethargic and not acting himself after the fall. She also claimed he was having seizure like activity so she took him to an ER today. He was stable and drinking by the time he was hospitalized. Hours later a CT scan revealed a frontal lobe brain bleed which was a concern since the mother claimed he fell and hit the back of his head today. The mother eventually admitted that he also fell three days ago off a bed. She claims she forgot about this fall but she admitted that he has been off balance and falling since that alleged fall three days ago. There are concerns for the mother forgetting about the child's fall three days ago and the associated symptoms as well as not getting medical attention for that fall."

The investigation was closed with no indicators of medical neglect as to the victim child, Nicholas Galli with the alleged perpetrator listed as Melissa Clark (now Melissa Davis). Other parent/caregiver/significant other in the home is listed as Robert Galli and household member Morse Clark. The investigation was commenced at St. Joseph's Hospital in Hillsborough County by Hillsborough CPI where the child was transported from Trinity Medical Center. CPI made contact, Melissa Clark (now Melissa Davis), and the child, Nicholas Galli. The child was observed to be of average height and weight for his age. Melissa stated that early on the morning of May 22, 2018, around 3:00 AM, she and her fiancé, Robert Galli, was in the bed with the child between them. Melissa stated Mr. Galli got out of bed to use the bathroom and the child rolled over and fell out of bed, striking his head on the floor. Melissa stated she immediately woke up and grabbed the child. Melissa stated she did not notice it at the time, but she later found a small bruise on the right side of his forehead. That morning the mother stated she took the child to his pediatrician to have him checked. Per Melissa, the pediatrician said the baby was fine.

Additionally, the child was said to have been stumbling around on May 24th, 2018 when he attempted to reach for a toy and fell back, striking the back of his head on the floor. The mother stated the child

appeared to shake and she was afraid of possible injuries so she contacted emergency medical services around 4:30 pm that day. The child was transported to the emergency room in Trinity. The mother advised she did tell the doctor and nurse about the incident on May 22nd, 2018 and never attempted to keep anything from them. The mother stated the child was seen after that initial fall and the pediatrician had no concerns at that time. The mother's home was observed the following day by Pasco CPI and was found to be clean and appropriate. The child was observed to be happy and free of any marks or bruises indicative of abuse or neglect. The dime sized bruise from the fall was observed.

On October 29, 2015, the Florida Child Abuse Hotline received intake#2015-290503 alleging: *"The mom does not want to care for the child so Mr. Ward and his girlfriend care for her. Mr. Ward was heard bragging that they give beer to the child in a sippy cup, and that the child can now drink three beers a day."*

The investigation was closed with no indicators of substance-misuse-alcohol as to the victim child, Sebastian Davis with the alleged perpetrator listed as Faye Davis and Steve Dunn. Household member listed on the investigation included Tyler Davis.

On September 10, 2013, the Florida Child Abuse Hotline received intake#2013-245045 alleging: *"Thursday, on 09/05/13, the mother smacked Steven with an open hand. Steven sustained a bruise on his chest that look like finger marks. The mother will scream, yell or smack Steven on the arm, thigh, and chest with an open hand or back hand when she gets upset with him because is screaming. She will also spank him the butt with a spoon. Steven screams when he doesn't get what he wants. It was reported that the mother hits him at 2 to 3 times daily. There are times that she threatens to beat or punch, but hasn't done so. The mother is verbally abusive towards Steven. She uses foul language when she yelling and screaming at him. She tells Steven to shut the "fuck up" and lets him know she doesn't want to deal with him.*

Also, the mother doesn't supervise Steven properly. Whenever Steven goes outside to play, he is unattended. Sometimes, the mother doesn't know he's outside. Reportedly, Steven has never been injured from being outside unsupervised due to being outside for only a few minutes at a time.
There are concerns for Steven's safety.

The mother doesn't work and has no money. She depends on the grandfather to provide for her and Steven. The mother has a temper and can get out of control at least a couple of times a week. She'll get in your face and scream and yell. Reportedly, the mother is not afraid to go to jail."

The investigation was closed with no indicators of physical injury as to the victim child, Steven Lewis Jr. with the alleged perpetrator listed as Michelle Galli. Melissa Clark (now Melissa Davis) is listed as a household member/parent caregiver along with Robert Galli. The case will be closed with no indicators of Physical Injury. The child was observed by CPI and LEO with no marks or bruises. Michelle indicated that she will pop the child on the butt if he misbehaves, but denied that she has ever left marks or bruises on her son. She also denied that the child has gotten out of the house and been unsupervised. Robert (maternal grandfather as to the victim child Steven) denied that Michelle has ever hit the child and caused any marks or bruises. He also denied that the child has gotten out of the house unsupervised. Melissa indicated that she did see a bruise on the child on September 5, 2013, but did not call law enforcement due to concerns for Michelle being mad at her. Melissa indicated that Michelle also yells at the child along with Melissa and Robert a lot. Melissa indicated that she has been standing outside on two occasions and the child has wandered out of the house and Michelle did not know where he was until she was calling for him. Michelle was referred to Suncoast Parent Aid/ Early Childhood Services.

Criminal:

The caregiver, Melissa Davis has a criminal history. Her criminal history consist of evidence destroying (2022), public order crime (2022), and false reporting (2022).

The biological mother, April Hammond, does not have any criminal history.

Medical:

The child, Nicholas Galli is diagnosed being on the autism spectrum along with ADHD. He is prescribed Lorazepam, Albuterol Sulfate, Dextroamphetamine, and Clonidine.

6. The continuation of the child in the home is contrary to the welfare of the child because the home situation presents a substantial and immediate danger to the child's physical, mental or emotional health or safety which cannot be mitigated by the provision of prevention services. The provision of appropriate and available services will not mitigate the need for placement of the child in shelter care because:

   ☒ An emergency existed in which the child could not safely remain in the home;

   ☐ The home situation presents a substantial and immediate danger to the child which cannot be mitigated by the provision of prevention/diversion services;

   ☒ The child could not safely remain in the home despite the provision of the following services and efforts made by the Department of Children and Family Services/Pasco Sheriff's Office to prevent or eliminate the need for placement in shelter care:

   ☐ The child cannot safely remain in the home because there are no prevention services that can ensure the safety of the child.

7. The child is in need of and the petitioner requests the appointment of a Guardian ad Litem.

8. The petitioner requests the parents, if able, be ordered to pay fees for the care, support and maintenance of the child as established by the Department under Chapter 39, Florida Statutes.

9. The petitioner requests the parents be ordered to provide the Department of Children and Family Services and the Department of Revenue financial information necessary to accurately calculate child support under Section 61.30, Florida Statutes, within 28 days of this order.

10. The affidavit and petition is filed in good faith and under oath.

11. Inquiry has been made pursuant to the Indian Child Welfare Act (ICWA).

    ☒ The child, Nicholas Galli is not subject to ICWA.

☐ The child _____ is subject to the Indian Child Welfare Act (ICWA) and is/are associated with the _____Tribe.

12. ☒ The child is not currently prescribed and taking psychotropic medication.

    ☒ The child Nicholas Galli is currently prescribed and taking psychotropic medication. The Petitioner is requesting authorization, absent parental consent, to continue administering the child's psychotropic medication; to wit; Lorazepam, Albuterol Sulfate, Dextroamphetamine, and Clonidine.

13. ☐ Keeping Child Safe Act applies based upon the following:

    ☒ Keeping Child Safe Act does not apply.

14. The Department and its contract agencies, the Pasco Sheriff's Office, Child Protection Investigation Unit, Family Support Services Suncoast, respectfully request the release of the child's medical and educational records to the Department and its contract agencies, as well as the Guardian ad Litem, if appointed, and the child's attorney.

15. Pursuant to Florida Rule of Juvenile Procedure 8.255(b) the Petitioner believes it is not in the best interests of the child to attend the shelter hearing in this matter for the following reason(s):

    CPI respectfully requests due to COVID-19 and the child's age that she be waived from attending this hearing and any future hearings.

    Therefore, the Petitioner requests the court find it is not in the best interest of the child to attend this hearing and excuse the child's attendance.

16. Petitioner's statement pursuant to the Uniform Child Custody Jurisdiction and Enforcement Act (UCCJEA): The number of minor child is one. The name, period of residence, address, who the child lived with and relationship are:

Period of residence	**Address**	**Who child lived with and relationship**
2021- Current	6715 Hone Street New Port Richey, FL 34653	Caregiver- Melissa Davis
April 2020- Dec. 2021	6313 Tennessee Ave. New Port Richey, FL 34653	Caregiver- Melissa Davis
March 2019- April 2020	5742 Ashen Ave. New Port Richey, FL 34652	Caregiver- Melissa Davis
Birth- March 2019	3531 Dellefield St. New Port Richey, FL 43655	Caregiver- Melissa Davis

17. I have not participated as a party, witness or in any other capacity in any other litigation or custody proceedings in this or any other state concerning custody of a child subject to this proceeding. I have no information of any other state custody proceeding pending in a court of this or any other state concerning the child subject to this proceeding, other than

☒ I do not know of any person not a party to this proceeding who has physical custody or claims to have custody of visitation rights with respect to any child subject to this proceeding.

☐ I do know of any person not a party to this proceeding who has physical custody or claims to have custody of visitation rights with respect to any child subject to this proceeding, to wit;

Wherefore, the affiant requests that this court order that this child be placed in the shelter custody of:

☒ The Department/Pasco Sheriff's Office having the discretion to place with non-relative, Robert Galli upon an approved home study, abuse registry and criminal background check.

☐ At the home of a responsible adult relative/non-relative to wit:

☐ Discretion to reunify with the parent/s_____

☐ Licensed Care

I missed a call from this number
Good evening. This is CPI Caminero with the Pasco Sheriffs Office Child Protective Investigations Division. I've attempted to complete contact with you regarding the concerns as to Nicholas ingesting an illicit substance. The department has attempted to implement safety plan and gather/assess information as to the safety of Nicholas to no avail. Due to the immediate safety concerns a shelter petition will be filed and a pick up order issued to take Nicholas into care. Court will be tomorrow (11/18/2022) at 8 am at the West Pasco Judicial Center located at 7530 Little Rd. New Port Richey, FL 34654. The department would ask that you and Nicholas come to the court hearing tomorrow with the Honorable Judge Kembra Lewis.
Send me the petition please so I can read it.
What is your email so I can forward

Hello Melissa. I am still awaiting your email address so I can send you this petition. I was advised to inform you that if you do not show up in court with Nicholas tomorrow at 8am, our Department will be reporting to law enforcement that he is a missing child.

IN THE CIRCUIT COURT OF THE SIXTH JUDICIAL CIRCUIT
IN AND FOR PASCO COUNTY, FLORIDA

MELISSA LEE GALLI,
Petitioner,

Case No. 51-19-DR-942
Section Z1

and

APRIL JEAN HAMMOND,
Respondent
_____/

FILED FOR RECORD
PASCO COUNTY, FLORIDA
19 APR -1 PM 3:4
Paula S. O'Neil
Clerk & Comptroller
Pasco County, Florida

REPORT AND RECOMMENDATIONS OF GENERAL MAGISTRATE

This cause came before the undersigned on March 29, 2019, on the Order of Referral dated March 6, 2019, referring this case on the Petitioner's Petition for Temporary Custody by Extended Family, filed on February 21, 2019. The parties were self-represented. After reviewing the record and receiving evidence from the Petitioner and the Respondent, the undersigned makes the following findings of fact, conclusions of law and recommendations to the court.

A. The Court has jurisdiction over the parties and jurisdiction over the subject matter of this cause.

B. This cause is properly before the General Magistrate, an Order of Referral having been entered and no objections having been filed.

C. The Petitioner is related to Nicholas Ryan Galli, DOB May 13, 2017 within the third degree by blood or marriage through the Respondent/mother. The child's mother is April Jean Hammond, who has signed a Waiver of Service of Process and Consent for Temporary Custody by Extended Family. The birth certificate does not list a father.

D. The minor child has resided with the Petitioner since date of birth. The Petitioner provides a stable home for the child and is able to meet all the child's financial and emotional needs.

E. It is in the best interest of the child for temporary custody to be awarded to the Petitioner.

F. The parties have waived their right to file Exceptions to this Report and Recommendations of the General Magistrate.

It is therefore

RECOMMENDED that Petitioner's Petition for Temporary Custody by Extended Family shall be granted. Temporary care, custody and control of the minor child, Nicholas Ryann Galli, DOB May 13, 2017, shall be with Melissa Lee Galli.

RECOMMENDED that the Petitioner may consent to all necessary and reasonable medical and dental care for the child, including, but not limited to, medical screening, immunization and PPT-Tuberculin testing, non-emergency surgery and psychiatric care.

RECOMMENDED that the Petitioner is authorized to secure copies of the child's records held by third parties that are necessary to the care of the child, including but not limited to:

A. Medical, dental and psychiatric records;

B. Birth certificates and other records; and

C. Educational records.

RECOMMENDED that the Petitioner is authorized to consent to school or daycare enrollment and grant or withhold consent for the child to be tested or placed in special school programs, including, but not limited to, exceptional education, after school programs, holiday recreational programs, and field trips.

RECOMMENDED that the Petitioner is authorized to do all other things necessary for the care of the minor child of this action.

RECOMMENDED that the Court adopt and confirm the Findings and Recommendations set forth herein without delay.

GENERAL MAGISTRATE
Dated this 29th day of March 2019

GALLI/HAMMOND 51-19-DR-942

ORDER APPROVING REPORT AND RECOMMENDATIONS OF GENERAL MAGISTRATE

THIS CAUSE came before the Court on the Report and Recommendations of General Magistrate prepared after hearing on March 29, 2019. The Court being advised that the parties have waived the ten (10) day objection period provided by the Rules, it is therefore

ORDERED AND ADJUDGED that the Report and Recommendations of General Magistrate dated March 29, 2019, said Report being attached hereto and incorporated herein by reference, be and is hereby confirmed, ratified, and made an Order of this Court and the parties are specifically directed to abide by the Recommendations therein.

DONE AND ORDERED in New Port Richey, Pasco County, Florida, this 1 day of March 2019.
April

CIRCUIT JUDGE

Medical Consultation

Child's Name: Nicholas Galli
Date of Birth: 5/13/2017
Report Number: 2022-142287
Child Protection Specialist: Shelby Carrero
Protective Investigator: CPI Caminero

Reason for Referral:

On 5/10/2022, a report was received at the Florida Abuse Hotline alleging, "Autmun stated that she was told by her mother to say that her "mommy Melissa" got medication from the doctors this weekend and put the medication inside Autum's "choochkie" because it was hurting. The biological mother also stated that the stepmother is not allowed around the children due to facing serious charges for what happened to the children."

On 5/11/2022, an 03 was received at the Florida Abuse Hotline alleging, "Over the weekend, "Mommy Melissa" put medication inside Autumn's "choockie." The mother inserted the medication while the father was at the store. There a concerns that Autumn is being sexually abused. There are concerns that the children are in imminent danger."

On 5/14/2022, an 04 was received at the Florida Abuse Hotline alleging, "The stepmother keeps the children in their rooms all day on the weekend. The stepmother will lock the door. The stepmother will not allow the children to eat or drink until dinner time. All the bruising on the children is from the stepmother hitting them with belts and hangers. Th stepmother gives the children medicine to go to sleep as well as the stepmother puts medicine inside Autumn's vagina

In the past, the stepmother has beat a child that lives with her and put that child in the hospital. This was in January. The child sustained a broken leg because of it."

On 5/15/2022, an 05 report was received at the Florida Abuse Hotline alleging, "Allegedly mom has been putting things into Autumn's vagina while Autumn was laying on her bed in her room. Autumn is scared of her mommy and i she tells her no, then mom will beat her. The father "has done to stop it", he will take Autumn and put her into a cold shower for lying. Sebastian has seen mom do this to his sister and has seen mom put something inside her while they were on the couch. Sebastian was scared to say anything as he felt he would get in trouble.

Both children have seen mom take Nicholas into the bedroom, they heard yelling and him screaming "no, mommy please don't". There is a court order that mom is not allowed around any of the children, but dad still continues to allo her around them. It is believed that the children are being sexually abused as well a physically abused and the father i allowing it to continue."

On 5/21/2022, an 06 report was received at the Florida Abuse Hotline alleging, "The children are supposed to be with the father but the father is allowing the stepmother to leave the state with the children so the mother cannot get them back. The stepmother is a danger to the children and there are concerns that they are in imminent danger with her. There is a court order that the stepmother is not to be around the children and she is around them in a blue Nissan vehicle. The stepmother has beat the children before and left marks on their body."

On 5/23/2022, CPI Caminero contacted CPT and provided the following information: The household consists of Autumn and Sebastian's stepmother Melissa Davis, stepfather Donavin Davis and Nicholas who is Mrs. Davis' adopte son. CPI advised Mrs. Davis has left bruises on the children before and has threatened to "beat them." CPI advised there is now a court order in place that Mrs. Davis is not allowed to be around Autumn and Sebastian due to there bei a danger to them. CPI advised Mrs. Davis was recently arrested for false reporting as she was telling Autumn and Sebastian what to say and lie about allegations against their biological mother.
CPI advised the children are not disclosing anything current. CPI advised paternal family doesn't have a good relationship with father.

In regards to the bone fracture that was screened out by the hotline, CPI advised mother wouldn't let CPI talk to Nicholas at commencement. CPI advised Nicholas was interviewed at his adopted father's house and disclosed to the CPI that he has been spanked with a wooden spoon by his mother and Donavin, however a timeframe was not established. It is not known if Nicholas has any current injuries. CPI advised Nicholas' adopted father expressed concerns for Nicholas in his adopted mother's care and that Nicholas has had bruises/marks on him before that Nichol has stated were from his mother. CPI advised Nicholas' adopted father also expressed concerns for Mrs. Davis' menta health. CPI advised it doesn't appear the CPI that interviewed Nicholas elaborated on the bone fracture. CPI advised Autumn did state she saw Nicholas in cast and that it was because Nicholas fell off the trampoline.

CPI advised Mr. Davis gets his children Autumn and Sebastian every other weekend and it is court ordered that Mrs. Davis is not to be around them. CPI advised Autumn was observed to have a faded black eye due to victim falling at school and a school note of the incident was produced to CPI.

This writer expressed concerns for Nicholas due to the ongoing pattern of reports and findings for physical abuse as t Nicholas. Nicholas has been seen by CPT six times and five of those times for physical abuse with several that were verified. This writer advised CPT needs to see Nicholas and that Mr. and Mrs. Davis are not to be present at CPT. CI will take LE out to the home tonight and address the bone fracture and advise mother of CPT appt.

On 5/24/2022, CPI Caminero advised she and LE went to the home last night and Mr. and Mrs. Davis were verbally abusive to CPI and Mrs. Davis would not allow CPI or LE to see Nicholas. CPI advised Mr. and Mrs. Davis were not cooperative, however did advise that Nicholas was taken to Trinity Hospital and denied that he sustained a fracture.

CPT to request medical records from all area hospitals and a medical consultation will be completed, however CPT st needs to see Nicholas. At minimum, a staffing with Children's Legal Services present is also needed to further discus this case.

A CPT Consult was completed 5/26/22

Impression:

1. ***History of closed head injury with loss of consciousness/concussion: indeterminate but concerning for physical abuse***
2. ***History of verified physical abuse of this child on 2 previous CPT exams***

The overall findings are indeterminate but concerning for physical abuse. Nicholas has been seen by CPT twice in the past with verified findings of physical abuse. Due to the past concerns and current allegations, it was recommended that Nicholas receive a CPT medical examination and specialized interview. Mother declined this and has not been compliant with CPI or this investigation. There are concerns alleged for ongoing physical abuse in the home. It is unknown if Nicholas has any current injuries. CPI is requesting a medical records consultation in lieu of an examination.

On January 9, 2022, Nicholas presented to St Joseph's hospital via EMS for a head injury with loss of consciousness. His mother reported he "fell out of bed striking his head on the nightstand and tile". This occurred 12 hours prior. He lost consciousness for 2 minutes and was taken to an unnamed outside hospital and released. After returning home, he then continued with dizziness and vomiting and had a syncopal episode. He was brought to St Joseph's hospital and admitted for 2 days. His exam revealed "mild bruising to the cheek and jawline". He was monitored for two days and released back into the care of his guardian/mother.

Further investigation into the type of bed and height of the bed he was allegedly lying on at the time of the fall is recommended. It would be highly unusual to sustain this severe of a head injury to cause loss of consciousness from rolling off of a lower level bed. If the child fell from a higher bunk bed this may be plausible. This injury is indeterminate for physical abuse.

It is not considered adequate to evaluate medical records in lieu of a medical examination when allegations of physical abuse alleged. This is especially concerning since Nicholas has had two previous verified reports. Nicholas has not been interviewed regarding this head injury. A CPT medical exam and specialized interview of Nicholas are strongly recommended. This will likely require court involvement.

Requests and Recommendations:

1. *Safe, nurturing and stimulating environment free from abuse, neglect and violence*
2. *CPI to obtain a court order for Nicholas to be seen by CPT for a statutorily mandated medical exam.*
3. *A CPT multidisciplinary staffing is recommended once all information has been gathered*
4. *Obtain medical records for CPT review reflecting alleged "fracture or leg injury"*

Consult Findings:

Additional medical records from Trinity Hospital and Pediatric Orthopedics were received and reviewed on 6/30/22

Pediatric Orthopedics- J. Carney PA

2/24/22 Nicholas was seen for "possible broken right foot". The injury is said to have occurred on 2/22/22. He was jumping on a trampoline and went to do a flip and accidentally flipped off the trampoline. His mom states he landed with his toes flexed under his foot and rolled his ankle. He had mild swelling and would not bear weight so he was seen at Trinity ER. A splint was applied. X-rays were completed in our office today and no abnormalities were detected. There are no fractures. Bony or lytic lesions. Physes are open. A walking boot was given and he is recommended to wear it for a week or two. He is diagnosed with a Foot Contusion. NO follow-up is needed.

Trinity Hospital

**see previous CPT consult 4/1/21 for previous Trinity hospital records only records from then listed below*

2/22/22 Nicholas was seen in the ED for "right foot pain". Mom states patient fell off trampoline earlier today and bend his toes under his foot. X-ray ankle- negative. No acute findings. Patient broke his foot about 1 year ago. Mom wants him splinted so that she can take him to see orthopedics on Friday. Diagnosed right foot injury. Refer to Dr Scott Beck ACH-pediatric orthopedics.

1/9/22 Nicholas was seen in the ED for blunt head trauma, contusion, loss of consciousness. Per mother"He was sleeping and rolled out of bed and there is a heavy night stand next to his bed that he hit with his right forehead which is where he had a previous injury as an infant and had to be transferred to children's hospital and was in the hospital 21 days and on a respirator due to bleeding in his brain. He was unconscious for about 2 hours and I called the oncall pediatrician and they said to keep him awake and watch him. We kept him awake for 2 hours and then he went to sleep and slept until 11 am which is very unusual for him. He threw up twice and is complaining of a headache and since he had bleeding in his brain before we wanted to get him checked out. He is also staggering side to side when he walks". History of prematurity birn at 34 weeks, infant a-fib, autism, TBI with bleed and arrythmia. CT head negative. Right forehead contusion observed. Diagnosed concussion, blunt head injury. Zofran prescribed. Follow-up with PCP tomorrow.

12/29/21 Nicholas was seen in the ED for cough, cold, fever since yesterday. Pulse ox 99% RA. Breath sounds normal. CXR normal. Mother concerned since previous RSV infection he gets sick very quickly. Patient has no concerning PE findings. Flu and Covid tests will take 48 hours to completed. Follow-up with PCP. Diagnosed URI. Flu and Covid-negative.

No visits between 12/29/21 and 3/25/20. See previous CPT consult for 3/25/20 and prior.

Impression:

1. **No fracture identified**
2. **Impression remains unchanged- indeterminate but concerning for physical abuse**

The overall findings remain unchanged. Nicholas did not have a foot fracture as alleged. He allegedly fell from a trampoline and both Trinity hospital and Pediatric orthopedics confirmed he did not have a fracture. He was diagnosed with a bruised foot.

He did suffer a head injury on 1/9/22 and mother alleges to Trinity hospital another previous serious head injury as an infant in which he was hospitalized for 21 days with a brain bleed. This is highly concerning given his positive findings of physical abuse in the home on multiple occasions. This recent head injury was already addressed in the previous consult and his head injury as an infant was addressed in a previous medical exam/investigation.

"On January 9, 2022, Nicholas presented to St Joseph's hospital via EMS for a head injury with loss of consciousness. His mother reported he "fell out of bed striking his head on the nightstand and tile". This occurred 12 hours prior. He lost consciousness for 2 minutes and was taken to an unnamed outside hospital and released. After returning home, he then continued with dizziness and vomiting and had a syncopal episode. He was brought to St Joseph's hospital and admitted for 2 days. His exam revealed "mild bruising to the cheek and jawline". He was monitored for two days and released back into the care of his guardian/mother.

Further investigation into the type of bed and height of the bed he was allegedly lying on at the time of the fall is recommended. It would be highly unusual to sustain this severe of a head injury to cause loss of consciousness from rolling off of a lower level bed. If the child fell from a higher bunk bed this may be plausible. This injury is indeterminate for physical abuse.

It is not considered adequate to evaluate medical records in lieu of a medical examination when allegations of physical abuse alleged. This is especially concerning since Nicholas has had two previous verified reports. Nicholas has not been interviewed regarding this head injury. A CPT medical exam and specialized interview of Nicholas are strongly recommended. This will likely require court involvement."

Requests and Recommendations:

1. **Safe, nurturing and stimulating environment free from abuse, neglect and violence**
2. **CPI to obtain a court order for Nicholas to be seen by CPT for a statutorily mandated medical exam and specialized interview.**
3. **A CPT multidisciplinary staffing is recommended once all information has been gathered**

II. Narratives

A. Allegation Narrative

On 10/8/22, Nicholas was at school and was having a very rough day, Nicholas wanted to put his hands on many different children, he chocked a little girl in the class room and slapped another little boy in the face, he was then putting quarters in his mouth, yelling at other children calling them losers. Nicholas was asked to calm down and he refused. Teachers came in to help calm him down. Reportedly, Nicholas was acting in this manner because his dad is always mean to him and hits him all the time. Dad also threatens to burn all of his stuff including his bed, and tells him that he is going to beat him. Mom and dad fight over Nicholas all the time. Dad calls Nicholas a "bad child" and "ungrateful person." Dad has forced Nicholas to eat and when he does not eat, he gets slapped and dad forces the food into his mouth. If that does not work, then dad will grab Nicholas by the arm and throw him into his room. When Nicholas takes a shower, dad will not allow mom to come in and help him. Dad comes into the bathroom and is mean to Nicholas. He yells in his face and says mean things. There is a time that Nicholas has slipped in the shower because of dad. Dad has also slapped Nicholas in the face and made his mouth bleed. When mom tried to intervene, dad yelled at her and made her cry. Dad tells mom that she needs to stop treating Nicholas like a baby and that is he is going to be disrespectful to a adult then he will tear Nicholas like one. Dad also says that it is his mom's fault Nicholas is the way he is, that it is her fault he is a bad kid. Dad has told Nicholas that he needs to bein a place for bad children or he can pack his back and leave. Dad has told mom that Nicholas is the reason why they are fighting all the time and that Nicholas will be the reason why he leaves.

II. Narratives

A. Allegation Narrative

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the central abuse hotline is subject to the penalty provisions of s. 39.205.

The children were with the father from Friday after school until Monday. The children are afraid to go back to the father's house. The father told the children that someone broke into the house on Halloween and stole a lot of stuff. The father said that he had a firearm that was long and black that someone tried to steal it. There are concerns that the firearm is within reach of the children but this is unknown. The stepmother took a bath with Autumn. Autumn was screaming. Autumn was given a big white pill and it made her feel funny. It is unknown what was given to Autumn. The stepmother is on Hydrocodone because she has a pill problem. The stepmother is not supposed to be around the children at all due to court orders. There are concerns that she is still hurting the children. Autumn does not remember what happened. Autumn told the father that her mother said the stepmother is not their mother. The father has talked about how he would kill the mother's family in front of the children. The children are traumatized because the stepmother stole Sebastian's black necklace and broke it because she was mad at him.

Nicholas has mental issues. The father yells at the children all the time and sends them to their room. The father sleeps all day and the children are up by themselves.

II. Narratives

A. Allegation Narrative

There are concerns regarding the safety and wellbeing of Nicholas. It is believed that Nicholas has marijuana in his system, but it is unknown where he obtained the marijuana. Around 3:30 am, Nicholas started having hallucinations and screaming; he thought bugs were crawling on him, and a snake was around his neck. Nicholas was taken to the pediatrician around 8 am, and he began showing signs of lethargy and slurring his words; he was transported to the hospital and examined, and it was determined his pupils were dilated. Nicholas was given a toxicology screen, and it was discovered he had marijuana in his system.It was alleged that Nicholas told the mother that a woman came to his bedroom and offered him a brownie, which he ate. It was also alleged the woman was the husband's sister, who does not want Nicholas or the mother in the husband's life, and wants the husband to be with the mother of his children- this story is not plausible, and these allegations were not given until the results of Nicholas toxicology screen were returned. There is no evidence that suggests the husband's sister is responsible for this incident. It is alleged the husband has a medical marijuana card, but he ingests the marijuana at a friend's home and doesn't keep it in the house.

II. Narratives

A. Allegation Narrative

Nicholas was seen in clinic for hospital follow up on 11/16/2022. He was seen at Mease Countryside the day prior (11/15/2022) because he was having hallucinations yesterday morning at dad and stepmom's home (started at 3:30am). Nicholas said someone gave him a brownie in the middle of the night. The person came through the window into the room (2 girls, black hair and red leggings, blonde with glasses). At the hospital, Nicholas was found to have greater than 50 nanograms (2 ounces) of THC in his system via lab work. His CT of head came back normal. There were no meds given, per stepmom and he was discharged the same day. There are no changes to his psych meds at this time. Nicholas has not had any hallucinations since yesterday afternoon. He is back to baseline with appetite and activity. Nicholas had trouble sleeping last night because he was scared to sleep in the room.

There is a custody battle between the mother and father/stepmom.

I. Allegation Narrative(s)

Sequence Type	Date/Time Received	Response Priority
Additional	09/30/2022 5:52 AM	24 Hours

Narrative

The mother and father were accused of child abuse by an unknown person. The allegations include the father shaving the daughter's hair and having the children take ice cold showers. The mother is being accused of lifting Autumn's skirt to look at her vagina. These accusations and were unfounded by law enforcement.

Sequence Type	Date/Time Received	Response Priority
Initial	08/16/2022 12:55 PM	Immediate

Narrative

On 8/13/2022, the father shaved Autumn's head and put her in a cold shower because she said no to her step mother. The step mother tried to lift up Autumn's dress to look at her vagina.

The step mother and father got into a fight and the father punched the step mother in the face.

There are many concerns for the safety of the children as there are many concerns for sexual abuse. The step mother is not supposed to be around the children per the family law judge. The father is not in his "right state of mind."

IV. What is the extent of the maltreatment? What surrounding circumstances accompany the alleged maltreatment, precipitating events, history?

ALLEGATIONS:

01: "On 8/13/2022, the father shaved Autumn's head and put her in a cold shower because she said no to her step mother. The step mother tried to lift up Autumn's dress to look at her vagina. The step mother and father got into a fight and the father punched the step mother in the face. There are many concerns for the safety of the children as there are many concerns for sexual abuse. The step mother is not supposed to be around the children per the family law judge. The father is not in his "right state of mind."

02: "The mother and father were accused of child abuse by an unknown person. The allegations include the father shaving the daughter's hair and having the children take ice cold showers. The mother is being accused of lifting Autumn's skirt to look at her vagina. These accusations and were unfounded by law enforcement."

HOUSEHOLD COMPOSITION:

The household consist of the father, Donovan Davis his wife, Melissa Davis and the three children, Sebastian Davis, Autumn Davis and Nicholas Gali.

INVESTIGATIVE OUTCOME:

CPIT McMillan completed interview with the child Autumn Davis. Autumn is four years old and verbal. The child appeared to

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

be clean and free of any marks and bruises. Autumn appeared to be of the appropriate height and weight for a child her age. Autumn successfully qualified truth and lie utilizing the QTCO booklet. Autumn is in preschool and she enjoys coloring. Her favorite thing to color is flowers. Her favorite color is the rainbow and she enjoys playing with toys. Autumn said she gets along with her brother Sebastian. When she is with her mom they enjoy playing with her dolls and with her dad she plays with her baby. Autumn said she sees her dad for two days and is will her mom for eleven days. CPIT addressed the allegations with the child who said that she has seen her dad and Melissa say bad words but has not seen them fight with each other. Autumn advised that her dad did shave her head but does not know why he did it. She was not put in a cold shower she had a warm one instead. Autumn advised that she did not want her head shaved and that she was forced to get it.

CPIT McMillan completed interview with the child Sebastian Davis. Sebastian is six years old and verbal. The child appeared to be clean and free of any marks and bruises. Sebastian appeared to be of appropriate height and weight for a child his age. Sebastian successfully qualified truth and lie. A photo was taken of the child. Sebastian is in the 1st grade and his favorite subject is math as it is easy for him. He enjoys playing video games, going to the park, and the arcade. He said with his mom he plays video games and with his dad they will watch tv. Sebastian said that his dad is mean as he gives him bad food like tacos that are spicy. Sebastian said he sees his dad for two days and does not see Melissa. CPIT addressed the allegations and he advised that he heard his dad and Melissa argue when they were sleeping. He said that his dad was yelling at Melissa but never hit one another. Sebastian said that Autumn's head was shaved three days ago. He said that his dad shaved it because he told him to. He said that his dad put her in a cold shower due to it taking too long. Sebastian said that Autumn wanted her head shaved.

The child, Nicholas Gali was observed by the department to being free and clear of any concerning marks or bruises.

Both Melissa and Donivan were present for the interviews outside while they recorded the department. Melissa advised that Donivan had cut Sebastian's hair a little while ago and Autumn wanted her hair cut as well so her allowed her to pick her style and he cut it. Melissa advised that Donivan asked her if she was sure and she advised that Autumn stated that it was just hair and it would grow back. Melissa advised that Autumn asked for one side to be shaved which is what was cut. She advised that after her hair was cut, she then questioned if her mother would like it. Melissa denies ever lifting up Autumn's underwear as she has not been around the children since April 22, 2022 and stays in Hernando. She advised that she has not been home however, Autumn and the other children bathe themselves and denies anyone putting Autumn in a cold shower. Melissa denies there being any domestic violence between she and Donivan.
Donivan advised that he shaved Sebastian's hair himself because he has clippers and does not think it is necessary to pay someone else to do it. He advised that Autumn asked him to shave her head which is why he did it. He advised that Autumn is not allowed to wear her hair on her shaved side because her mother does not allow it. He advised that Jen does not like it and has texted him that it looks awful and Autumn has also told him that Jen tells her it looks awful. He advised that there is no domestic violence between he and Melissa. He advised that he has never showered Autumn in a cold shower. Donivan also showed CPI a photo of Autumn smiling and happy after getting her hair shaved because of how excited she was.
CPI Chamberlin gathered a collateral with the paternal grandmother Kristine Davis. She provided that she does not have any concerns with the mother and how she takes care of the children and provided positive of the mother. She provided that she does have some concerns for the father. She provided that recently the children came home and autumn has had half a shaved head and that the other child Sebastian came with a Mohawk. The mother was able to fix the Mohawk but they cannot do anything about how part of her head is shaven. She provided no concerns for Jennifer or her household. She provided that the father has called CPI in her belief numerous times on the mother and that this is the third CPI that has come to her residence to speak to her in regards to the mother and how she cares for the children. She provided that the mother is doing her best for their children. The mother and father are going through custody.

CPI Caminero spoke with the mother, Jennifer who advised that she does not currently have any concerns for Donovan. Jennifer advised that Autumn told her that she did not ask for her haircut and advised that she did not like it. She advised that she never expressed to her about cutting her hair however, Donovan said she asked for it. She denies Sebastian or Autumn disclosing any domestic violence. She advised that the kids have told her that they shower at their fathers home however, she has never heard of them stating that they have taken any cold showers.

grandmother), Jennifer Brophy (mother)

FINDINGS:

Bizarre Punishment: No indicator
Inadequate Supervision: No indicator
Household Violence: No indicator

REFERALLS:

The family did not need any services or referrals at this time.

SAFETY DECISION:

The children are marked safe at this time. The father shaved Autumn's head however, was not for discipline, the father and Melissa advised that Autumn asked for it and Sebastian stated that it was because he told his dad to do it. Autumn denies being put in a cold shower. The father and Melissa advise that he children bathe themselves and know how to turn on the water. The child's head was half shaved and she is able to cover it up if she wanted to. The children did not disclose any domestic violence in the home and there have not been any call-outs to the home due to domestic violence. Melissa has not seen the children since the court order was put in place by the family courts and has no access to either Autumn or Sebastian. Impending danger has not been identified.

Supplemental	06/21/2022 12:36 PM	

Narrative

Mom would use a belt to beat Nicholas, resulting in a split open, bloody lip and a black right eye. Mom also put her hands around Nicholas' neck choking him. Donavin was just sitting there watching this happen.

Mom gives Autumn a blue pill (Unknown) so she would go to sleep.

There are concerns mom has no food in the house, nor electricity or water.

There is a no contact order for 500 feet for mom and Sebastian, but mom still goes around him.

Donavin wants 50/50 custody, possibly so he and mom can run away with the kids.

Sequence Type	Date/Time Received	Response Priority
Additional	06/14/2022 6:29 PM	24 Hours

Narrative

Today, 06/14/22, the mother was in a Jeep with Nicholas, the father and a neighbor. The mother was allowing Nicholas to hang out the side of the jeep while it was moving, and Nicholas almost fell out of the jeep. Nicholas was not strapped in and he was not in a car seat. The neighbor laughing about it and went faster. There are concerns that Nicholas is going to get hurt or killed in the care of the parents.

Sequence Type	Date/Time Received	Response Priority
Additional	06/14/2022 6:20 PM	Immediate

Narrative

On 6/12/2022, the mother punched Nicholas while they were at the grocery store. Nicholas was acting out, so the mother punched Nicholas in the head. She then told him something, details unknown. The mother then slapped Nicholas so hard that his face was red. The mother also grabbed and squeezed him by the arm, and he could be heard saying "Mommy, let go, you're hurting me". The mother then told Nicholas that "if you don't stop, I'm going to leave you here". The mother then left Nicholas in the middle of the aisle as he was crying.

On 6/14, there was a mediation that took place and mention of the charges being dropped and criminal charges being closed. There is a concern that the mother will be allowed around the children without a safety plan in place. The mother still beats the children and gets physical with them. The mother and father's actions got

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

Autumn kicked out of school. The father is trying to take the children away from the mother. When the children are with the father, they are in danger because the father gives them medicine to go to sleep. The mother is getting ready to leave the state with Nicholas as she is out on bond. There is a court order in place that states that the mother cannot be around the children, though she is still trying to come around the children. The children visit the father on the weekends and Nicholas is with him now.

Sequence Type	Date/Time Received	Response Priority
Supplemental	06/03/2022 8:00 PM	

Narrative

It was disclosed on Tuesday, that the stepmother was at Learn and Play (Autumn's school) trying to enroll her son. There is a court order that the stepmother is not allowed to be around the children, due to her being a danger to them. It is believed that the stepmother was there to try to take Autumn and run with her as she has tried to leave the state with the biological parent's kids before.

On 06/03/2022, the stepmother was then again at Sebastian's place program trying to enroll her son there as well. There is a court order that she is not allowed around the children. The children are currently with their father for the weekend. When it is not his weekend to take then, it is believed that they are going to leave the state with the children as there is a court order that says they can't leave with the children. There are concerns for the children's safety as they are in imminent danger. There should be a well check done on them immediately to ensure the children are safe.

Sequence Type	Date/Time Received	Response Priority
Supplemental	05/21/2022 11:35 AM	

Narrative

The children are supposed to be with the father but the father is allowing the stepmother to leave the state with the children so the mother cannot get them back. The stepmother is a danger to the children and there are concerns that they are in imminent danger with her. There is a court order that the stepmother is not to be around the children and she is around them in a blue Nissan vehicle. The stepmother has beat the children before and left marks on their body.

Sequence Type	Date/Time Received	Response Priority
Additional	05/15/2022 9:36 PM	24 Hours

Narrative

Allegedly mom has been putting things into Autumn's vigina while Autumn was laying on her bed in her room. Autumn is scared of her mommy and if she tells her no, then mom will beat her. The father "has done to stop it", he will take Autumn and put her into a cold shower for lying. Sebastian has seen mom do this to his sister and has seen mom put something inside her while they were on the couch. Sebastian was scared to say anything as he felt he would get in trouble.

Both children have seen mom take Nicholas into the bedroom, they heard yelling and him screaming "no, mommy please don't". There is a court order that mom is not allowed around any of the children, but dad still continues to allow her around them. It is believed that the children are being sexually abused as well a physically abused and the father is allowing it to continue.

Sequence Type	Date/Time Received	Response Priority
Additional	05/14/2022 3:39 PM	24 Hours

Narrative

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

The stepmother keeps the children in their rooms all day on the weekend. The stepmother will lock the door. The stepmother will not allow the children to eat or drink until dinner time. All the bruising on the children is from the stepmother hitting them with belts and hangers. The stepmother gives the children medicine to go to sleep as well as the stepmother puts medicine inside Autumn's vagina.

In the past, the stepmother has beat a child that lives with her and put that child in the hospital. This was in January. The child sustained a broken leg because of it.

Sequence Type	Date/Time Received	Response Priority
Supplemental	05/11/2022 11:39 PM	

Narrative

Over the weekend, "Mommy Melissa" put medication inside Autumn's "choockie." The mother inserted the medication while the father was at the store. There are concerns that Autumn is being sexually abused. There are concerns that the children are in imminent danger.

Sequence Type	Date/Time Received	Response Priority
Supplemental	05/10/2022 11:57 AM	

Narrative

Autmun stated that she was told by her mother to say that her "mommy Melissa" got medication from the doctors this weekend and put the medication inside Autum's "choochkie" because it was hurting. The biological mother also stated that the stepmother is not allowed around the children due to facing serious charges for what happened to the children.

Sequence Type	Date/Time Received	Response Priority
Initial	05/07/2022 12:21 PM	24 Hours

Narrative

The step-mother has left bruises on the children before, and has threatened to beat them. There is a court order in place that the stepmother is not allowed to be around the children due to being a danger to them. It is believed she is currently at the house with the children. The stepmother is out on bond due to telling the children what to say. Based on the stepmother's history, it is believed the children are in imminent danger and that the stepmother is going to beat them for talking and putting her in jail.

The neighbor laughing about it and went faster. There are concerns that Nicholas is going to get hurt or killed in the care of the parents."

HOUSEHOLD COMPOSITION:

The household consist of the mother, Melissa Davis the father, Donivan Davis and the three victim children, Sebastian Davis (step-son to Melissa), Autumn Davis (step-daughter to Melissa) and Nicholas Galli.

INVESTIGATIVE OUTCOME:

CPI Caminero commenced the case at the alleged house of focus located at 6715 Hone St. Upon arrival, CPI made FTF contact with the father, Donivan Davis who was irate, cursing and yelling at CPI and deputies. The father denied the department access to the children and the home. The father continued yelling and screaming by calling the deputies "Donut munchers" and called CPI "CPI bitch" the father stated that he was going to call his attorney. Donivan then came back outside yelling "hey CPI bitch, you can come in and see the kids and check the house" Donivan stated that only CPI was to come inside alone and the deputies were to stay outside. CPI explained that for her safety, she had to enter with law enforcement. Donivan began to argue then picked deputy, Ashley Stahl to enter. Donivan attempted to close the door on deputy Pullara blocking his view of CPI and his trainee Stahl. Pullara explained that she is in training and he needed to supervise her and he needed to keep the door open. Donivan continued to try and slam the door by pushing it forcefully with his body and deputy

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

Pullara put his foot in the way. Deputy Pullara advised Donivan that he needed visual of his trainee and to not close the door on his foot again. Donivan told him that he was not allowed to enter his home. Deputy Pullara explained that he was not going to enter. During this encounter, the child, Sebastian hugged CPI as he watched the father scream and yell at the deputy. Autumn also came up to CPI and faint bruising was observed under her eye. Deputy Stahl asked autumn what happened to her eye and the word "school" came out of her mouth and she said nothing more as Donivan walked up as he had already advised the children not to speak to CPI. CPI observed the home and did not see Melissa Davis in the home. Donivan then told the department to "get the fuck off his property." The department then left the residence.

According to the child, Autumn, The child advised at her mom's home she lives with mom, bubba and "big guy." At dad's house she resides with dad, Melissa, Bubba and Nick as well as Chi Chi, a dog. For fun at mom's she likes to color, for fun at dad's she likes to play on the trampoline with Bubba. If she gets into trouble at dad's house, she has to sit in her room. She gets in trouble for digging in the sand. When asked how long has to sit in time out, the child stated "13, 21, 20, 20, 20" and could not give an appropriate amount of time. The child advised that Daddy and Melissa put her in her room. She denied that she is spanked and denied that she gets hit with anything such as a belt, spoon or hanger. She denied that she has ever seen her dad or Melissa hit her brother. When she is in trouble and in her room, the door is open, not shut. The door is always open and there is never a time where she is stuck in her room and cannot get out. She stated that dad "likes when we be good" and has never seen a boo-boo on her or her brother from getting into trouble. She also gets in trouble for hitting people and being bad. When asked in Nick has ever been in a hospital or if he ever wore a cast, Autumn advised that she has seen him in a case because he "broke his foot." When asked how this happened, she stated he fell off the trampoline, CPI asked if she saw him fall off and she stated that she did not because she was at momy's but knows this because Nick told her. CPI observed the child to have a healing swollen eye, and a mark to her left arm. She stated that the mark was due to getting pinched on the swing at school when she tried to get off. CPI asked the child again several minutes after and her story was consistent. According to the child, the injury to her eye was from getting hit with a tire at school. Miss Katie knew about this because she told her and she was crying. The child advised nothing further. CPI obtained photo documentation of the child. CPI completed a field visit at Learn N Plan Day care off 52 in Hudson and made FTF contact with the child, Autumn. Autumn was observed wearing shorts, a short sleeve shirt and sneakers. Autumn did not present with any concerning marks or bruises. Autumn was presented with a girl diagram where she named the body parts. Autumn named the vagina the "PP" and the butt the "butt" and the chest "boobies" Autumn states that all three of those areas are bad touches and denies anyone touching her in any of those areas or inserting anything inside of those areas. Autumn states that Melissa and her dad are nice. Autumn states that the last time she went to her dads house, she does not remember however, states that her daddy was the only one there and Melissa was not there. She states that when she is at her mom "Jen's house" she states that her mom helps her shower. When she is at her father's house, her dad and sometimes Melissa will help her take a shower. She states that when Nicholas gets in trouble, he gets sent to his room and denies him being physically disciplined.

CPI made FTF contact with the child, Autumn who was observed free and clear of any concerning marks or bruises. Autumn stated that she has been here at moms for 11 days and she goes to her dads for two days. She states that she does not remember when the last time she saw Melissa was however, thinks it has been "a lot" of time. When she is at her dad's house, she states that for discipline, her dad will send her to her room all night. She states that Melissa does not put her hands on her when she is in trouble. She states that no one hits her when she is in trouble. She advised that when Nicholas gets in trouble, he gets sent to his bedroom. He denies seeing Melissa, her dad or Nicholas today. She states that when she is in the car with her dad, Nicholas has a car seat. She denies ever seeing Nicholas hang off the car.

According to the child, Sebastian, He does not get into trouble at mom's house and does not get into trouble at dad's house. He stated that daddy does not get mad at him then later stated that his dad will yell at him loud if he does not listen. There is never a time he is in his room and the door is locked. There is never a time he cannot open his door if he is in his room. The child denied taking any medicine and stated that he has seen Nick take medicine when he is sick. He has never heard or seen Nick wear a cast and does not know if he broke anything. The child advised that the injury to his left leg happened at school when he was helping kids roll up a carpet. He stated that the bruise on his right leg was from a bully at school who kicked him on the shin. The child was observed to have a slight blue mark to the right of his face which he stated was from his friend Carter hitting him "a little bit harder than me" after he hit Carter "medium" at school. CPI asked if he has ever been hit with a spoon, belt or hanger. The child stated that he got hit on the knee with a spoon by his father on accident. He stated that he did not remember when this was and could not provide further information. CPI asked about the child's injuries again and he stated that he could not remember what happened. He then stated he did not know how he got the mark on his face, then

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

stated that his father hit him with a fork. CPI asked other questions before readdressing the injury, when CPI asked the child if he has ever been hit with a spoon, he stated no. When asked if he was ever hit on purpose or on accident with a fork, he stated no. He denied that Melissa has ever hit him and stated that his father does not hit him. CPI obtained photo documentation of the injuries and lack of injuries.

Contact was made with Sebastian who states that he does not know when the last time he saw his father was. He states that the last time he saw Melissa was when he was at dads house. He states that Melissa was nice and so was his dad. He states that when he takes showers, his dad helps him. Sebastian states that he has taken cold showers because the hot water was not working. He states that for discipline, he gets sent to his room and nothing else happens. Nicholas was presented with a boy diagram and was able to determine good touch vs bad touch and states that he has never been touched in those areas. Sebastian was observed with a puffy eye to which he stated that a boy named Billy at school punched him in the eye and the teacher stated that Billy was going to get a referral.

According to the child, Nicholas, When he stays at his mother's house he stated that it is just his mother and step-father. He denied that the other children are there. For discipline they will send him to his room. He also stated that he gets spanked with a wooden spoon. When asked where on his body he stated he did not know and just put his head down. He denied that they do anything else to him. He did state that they have left marks and bruises on him but he was not able to answer when the last time was or where on his body. The child was just able to say that it happens a lot. When asked who the one who gives him the bruises is, he stated that it is both his mother and step-father. When asked if any of the adults drink anything he isn't allowed to he stated they drink soda. He was not able to describe if they act any different. He stated that they drink "normal" like him. Nicholas was able to describe that his mother and step-father smoke cigarettes. He described them to be white and denied that they act any different or weird when they smoke. He denied that either of the adults take any pills. He stated he takes pills every day. His mother will play with him and they also watch TV together. He denied that he likes to do anything with his step-dad. He stated that his mother and step-father get along well. He denied that they fight, hit or hurt each other.

An OTI was sent to Hernando County where contact was made with Melissa, According to Melissa, She was upset about us being there, she eventually allowed us access into the home. At first she refused to answer is Nicholas is in the home. Eventually, she stated Nicholas is not there, she stated why do we want to see him, he is not part of the case? Nicholas is never here at this address. She doesn't live in the home, her address is 6715 Hone St. New Port Richey, 34653. She lives at this address every other weekend. She has not seen the step-children since 04/22/2022.Biological mom-sexual allegations against her, Bruise on step-daughters eye. The biological mom is the abuser, she blames me for every charge involving DCF, and she is the abuser. She never threatened to beat the children. She never laid hands on the children. For discipline, she sends them to their room, takes away something or a privilege. She spanks Nicholas on the bottom when he disobeys.

According to Nicholas's father, Robert, he stated that Nicholas is at his house on weekends and he will be with his mother and step-father during the week. The child will tell Robert things when he arrives at his home of some of the things that his mother and step-father do to the child. Last weekend, Nicholas described that the step-father grabbed his face and squeezed his cheeks. He denied that he saw any marks or bruises on the child from it. There have been a few times where he has seen marks and bruises on the child and the child has stated that it is from the mother and step-father. When Robert has confronted the mother he stated she will lie about the situation and stated she is a pathological liar. He described the mother to have severe bipolar disorder and schizophrenia. He described her to be a narcissist and a master manipulator. She is very sneaky. He stated that she has gone behind his back to take him off of the paperwork. Robert stated that a friend of his and the mother gave them the child as she could not care for him. They are not his biological parents and so he cannot put himself back on the paperwork. The mother has gotten injunctions against the father before to keep the child away from him. There is currently a court order where the mother is not allowed to be around the step-father's other children. Robert does not feel that the mother should be around any children. He denied any knowledge of the mother being around the other children and that she will usually go to a friend's house when the other children go to visit the father. Robert indicated that there was one time when the child had a black eye and she blamed it on him. She kept the child from him for 9 months and that happened last January of 2021. The father has tried to get emergency custody on many different occasions but it has not worked and they will eventually give the child back to the mother. He is scared of what the mother will do to the child. He feels that both the mother and step-father are abusive towards the child and the mother will cover up for the step-father. He stated that the child is on three different medications and the mother claims that the child has anger management issues. The mother has him on Clonidine, dextroampamphetamin, and escitalopram. He feels that the mother's medicating him because she cannot handle

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

him. He does not give the child his medication and feels that he is fine. He denied any concerns for either parent misusing alcohol and stated they might use socially. He knows that previously the step-father smoked marijuana but does not know what his use looks like now. He denied any knowledge of drug use for the mother. Robert is not aware of any DV between the two of them but stated that he knows the mother has been aggressive towards previous boyfriends. He does not know if there have been any incidents with the step-father. The mother and Robert had been together for 7 years but they have not been together for about 3 years. Robert stated that he is trying to get the mother to sign over papers so that the child can live with him when the mother goes to prison.

According to the mother, Jennifer, She stated that Autumn attends Learn and Play Academy and Sebastian attends PLACE at Chasco Elementary School. She advised that she was made aware of Autumn's injury after the DVI was dropped. She stated that she did not see the children for two weeks and the mother was then told that the child received the injury at school in which a report was provided to her. She stated that the injury is healing and has been getting better since the incident occurred however, denied that this is a new injury. She advised that she was not aware of the mark on Sebastian's face however, did see the mark on his leg which he stated happened at school. She advised that she does not know what discipline is at the father's home but has never been told or seen anything concerning regarding any marks or bruises on the children after they return and they have never disclosed being injured by dad or Melissa. She advised that there was one time she was told that Nick slapped Sebastian and in turn, the father slapped Nick but she does not remember when this was. This was the only statement she has heard about the father hitting the kids. She advised that currently, the father gets them every other weekend. She will have them all week and they will go to the father's house on Friday. When they are with the father, Melissa cannot be in the home, this has been the arrangement for only one week. The mother stated that she has no concerns for the children being hit with objects at their father's home and advised that she was made aware they get time out if they are bad and spend the rest of the night in their room. She advised that they told the grandmother that they have to stay in their room the rest of the night.

CPI spoke with the mother, Jennifer who states that Autumn had disclosed to her that "mommy touched my coochie and it hurts, mommy got me medicine and put it inside not outside" When asked who mommy is, she stated that it was Melissa. She states that Autumn later went to the bathroom and went up to her and stated that she needed to pee and that is why it hurt. She has not complained since. She states that she did not take Autumn to the doctor either as Autumn stated that it hurt because she needed to pee shortly after and did not complain about it.

CPI collateral with Jennifer Brophy who states that she has had Autumn and Sebastian and states that the last time they were at their father's was the last weekend of the 4th. She states that Donivan will have them again this weekend. She states that she does not know what discipline looks like at the father's home as they do not talk with her about it. She states that the only thing she has heard was that Autumn had mentioned to her grandmother that Donivan had hit Nicholas because Nicholas had it Sebastian. She advised that when Donivan dropped the kids off to get dental work and she saw 2 car seats and three children were in the car. She denies ever hearing of any children swinging from the car. She advised that Autumn now attends La Petit on Covel Stone.

According to the family friend, Raychel Olsen, she stated that the mother does not reside with her. She was here last weekend. She comes and will stay with them when the father has his time sharing with the kids. She comes alone and does not bring Nicholas. She couldn't remember when she last saw him. Stated she is aware that he has a birthday party either this weekend or next weekend. She does not know how the mother disciplines, she has not seen it she doesn't know a lot about her parenting since when she is at their house, and she is by herself.

CPI Caminero collateral with the paternal grandmother, Christine Davis who states that her son is an awful person. She states that the children are not safe around Melissa or Donivan. She states that Melissa is an awful human being. She comes from a family where she experienced sexual abuse. She states that she has a child, Nicholas who claims is her child however, believes that he belongs to her ex-husband but it is believed that their neighbor who was a drug addict gave her that child. She states that Donivan and Melissa continue calling in false allegations on Melissa. She states that she has witnessed Donivan hitting the children. When Sebastian was young, Donivan dropped Sebastian and broke his leg. Donivan has smashed food into Sebastian's face. She states that there are camera's set up in her house in fear of Donivan. She states that Donivan is physically harmful to the children. In addition, he has poisoned the children's mind with false reports against Jennifer. She states that since Donivan was a child, he was always tough. She states that when Melissa entered his life, he

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

changed into an awful person.

CPI Caminero collateral with Barabara Ticich at Richey Elementary. Barabara states that she does not have any concerns for Nicholas as it is just an odd situation. The mother has expressed there being numerous contact with the department. Barbara denies seeing Nicholas with any concerning marks or bruises and Nicholas has never expressed anything concerning. Nicholas is on medication and when he is on it, he is compliant. Nicholas has ADHD and will sometimes show those effects. Nicholas is always in school unless he had a doctors appointment. Nicholas had an injury and had hospital paper work which made him miss at least a week but is not sure exactly how much and it was sometime in January. When Nicholas misses school, it is normally due to doctor visits. Nicholas does not express any violent behaviors however, he does not like being touched and if someone touches him unexpectedly, he will swing as a startled response however, if he sees them coming he is fine. Barbara states that Melissa seems very concerned for Nicholas and has no concerns for Melissa as a caregiver. She states that Nichola's father picked him up once however, he has ridden the bus most of the year. Nicholas does not get hurt at school. Nicholas is one of the clumsier children in the class room however, it is not anything out of the ordinary for a child as he likes to jump and leap and trip over things. Nicholas has never disclosed anyone being physical with him. He only mentioned when he fell out of bed and hurt his foot on the trampoline.

On June 1st, 2022, CPI Caminero spoke with PSO Deputy Kevin Pareja-Rodriguez who states that he went to the residence today to follow up on the report from the bone fracture with Nicholas. He states that Melissa allowed him to see Nicholas and that Nicholas was observed to being fine and did not appear to having any injuries. Nicholas did not disclose any corporal punishment by Melissa.

On June 7th, 2022, CPI Caminero completed a field visit to the Learn N Play daycare and made contact with the director, Harris in addition to the owner. Harris states that Donivan and Melissa requested a conference with the owner which they took the time to do so. When Donivan and Melissa came in they "came in hot" with an attitude. He states that Donivan had his phone out and was recording their entire encounter. He states that Donivan tried to trap them into making a statement about Jennifer. He states that Donivan is always trying to start problems at the daycare. He states that their main purpose originally was to get their step son, Nicholas enrolled. When they arrived, Melissa asked if it was going to be a problem because her step kids attend there. He states that they have on file stacks of paper of visitation with Donivan and Melissa. He told her that they would get him enrolled however, after thinking about it, they decided they were not going to due to the liability with all the legal paper work. He states that Melissa and Donivan then called angry asking why they called Jennifer to ask her permission for Nicholas to attend the school. He stated that they did not call Jennifer to inform her of anything. That is then when the conference was requested. He states that they did not want to deal with their problems and dismissed the parents and the child in addition, they will not accept Nicholas. He states that last week, Donivan called saying that Autumn's mother, Jennifer has COVID and is sending the child to school and he is concerned. He states that he told him that if the child is exposed it is to the discretion of the daycare center and told him to have a nice day. He states that they were never provided with any COVID results. He states that he has thought about trespassing him and Melissa and allowing Autumn to come to the school as that is her only stability. He states that when the father brings in Autumn, he always brings her in late where she misses her learning time.

On June 13, 2022, CPI Caminero spoke with Gel at Pediatric Associates who states that Nicholas's last visit was on June 2, 2022 for a well visit. The child came to the office and presented with a cough and vomiting. The clinician requested a hearing and ocular photo screening due to the visit being a well visit. She states that the mother, Melissa was the one who accompanied the child. There were no other concerns on the child's chart. The child is up to date with all of his immunizations. The child was referred to a Psychologist on April 2021. August 6, 2021, he was referred to a Neurologist. September 15, 2021, he was referred to a Psychologist. Feb 2022, he was referred to an Orthopedic, Hahn Gregory. The Neurologist is Joel Rodriguez. On May 24, 2022 a Behavioral Therapist. There are no upcoming appointments.

A review of the Trinity Hospital Records were completed. The mother, Melissa Davis took the child, Nicholas Galli to the hospital on February 22 due to a right foot and ankle injury. The patient (Nicholas) presented with most of his pain on the top of his toes and foot. An X-ray was completed on Nicholas and there were no acute findings. It stated that the bones and joints were unremarkable, No subluxation and normal alignment. There was no soft tissue swelling or gas. The mother wanted him splinted so that she could take him to the Orthopedics on Friday.

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

A review of records from Children's Orthopaedic and Scoliosis Surgery Associates was completed. The child, Nicholas was seen by the doctor with a chief complaint of possible broken foot. The injury to the right foot was said to have occurred on February 22, 2022 due to him jumping on the trampoline and accidently flipping off when he flipped which caused Nicholas to land on his toes flexed under his foot and rolled his ankle. The alignment of the foot were symmetrical.

SOURCES:

Melissa Davis (mother),Donivan Davis (father), Sebastian Davis (child), Autumn Davis (child), Nicholas Galli (child), Kevin Pareja-Rodriguez (deputy), Gel (Pediatric Associates), Harris (Learn N Play daycare), Barabara Ticich (Richey Elementary), Christine Davis (paternal grandmother), Jennifer Davis (mother), Raychel Olsen (family friend), Trinity Hospital Records, Children's Orthopaedic and Scoliosis Surgery Associates

FINDINGS:

Bone Fracture: No indicator
Inadequate Supervision: No indictor
Physical Injury: Not substantiated
Sexual Abuse: Sexual battery: No indicator

REFERRALS:
An ELC referral has been provided to the family, HOPE Florida. In addition a sun coast voices referral has been sent for clothing.

SAFETY DECISION:
The investigation will close out with no indicator for the following maltreatments. The maltreatment of Physical injury will be not substantiated. The child, Nicholas sustained a foot injury however, upon reviewing medical records, the child's foot never sustained a fracture and the notes did not indicate that he sustained in injury which was inflicted by a parent/caregiver. Household members informed that the injury sustained was caused by him playing on the trampoline. A report came in for Physical injury however, upon speaking with the mother and collaterals, the child was not present with the mother on the day she was at the grocery store and allegedly smacked the child. In regards to physical injury on Autumn and Sebastian, there have been concerns for Melissa being physical with all of the children. Physical injury will be not substantiated as the children have not presented with any marks or bruises however, collaterals appear to have concerns for the children being physically abused. The child was not observed with any injury. The child, Autumn denies anyone touching her inappropriately when the allegations for sexual abuse came up. The Maltreatment for inadequate supervision is also screened out as the child, Nicholas was not in the jeep when the allegations came in for the child hanging out of the car while the mother and step-father were driving. Impending danger has not been identified and the children are marked safe.

Initial	11/06/2021 2:00 PM	24 Hours

Narrative

Nicholas resides with the mother and stepfather in the home of Lori Fein. Luke McKie and Allison Pantle are also in the home.

Nicholas was interviewed by CPT on 11/5/21 due to concerns for sexual abuse. Nicholas reported that Allison was "tickling me, grabbing me on my pee pee, and in between my legs." Allison used her hand to tickle Nicholas all over his body. The mother was at work and the stepfather was in the bathroom. When presented with a male gingerbread diagram, Nicholas denied being touched inappropriately. Nicholas is afraid of Allison.

Lori took a "sexy" picture of Nicholas when he had a costume on. Nicholas demonstrated by laying on the floor on his side, then rested his right elbow on the floor and placed the palm of his hand onto the right side of his face. Lori works at the house. She makes Nicholas feel better and gives him lots of hugs.

The stepfather squishes Nicholas on the cheeks when he gets in trouble. Nicholas advised that the markings on his cheek (not observed) were from the stepfather squishing his cheek. He demonstrated a pinching motion. Nicholas stated that this happened due to him not listening and it last happened today. Nicholas doesn't do anything for fun with the stepfather as he is "a mean guy". The stepfather doesn't do anything for Nicholas. The stepfather broke Nicholas's pumpkin that he made. The stepfather does "mean stuff" like grab him. Nicholas advised that the stepfather has spanked him on the butt with the belt and the hand. Nicholas gets bruises afterwards.

There are concerns for how Nicholas is treated by household members. Two of the residents wear bathrobes all day and they open up exposing their underwear and on one occasion a resident's robe opened up exposing private areas.

There are concerns for Nicholas's safety as it appears he is residing in a home similar to that of a group home setting. There are numerous household members not known to him or his family. There are concerns for the mental health of at least one household member. Lori is the owner of the home. Information was reported that she may be associated with the "Warlock Gang".

Nicholas is four years old and requires the care and supervision of an appropriate caretaker. He has been diagnosed with autism and anger/ explosive disorder which would increase his vulnerability.

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

IV. What is the extent of the maltreatment? What surrounding circumstances accompany the alleged maltreatment, precipitating events, history?

This in-home investigation met the criteria for streamline.

ALLEGATIONS:

On November 6, 2021, the Florida Abuse Hotline received intake 2021-341952 with the following allegations, "Nicholas resides with the mother and stepfather in the home of Lori Fein. Luke McKie and Allison Pantle are also in the home.

Nicholas was interviewed by CPT on 11/5/21 due to concerns for sexual abuse. Nicholas reported that Allison was "tickling me, grabbing me on my pee pee, and in between my legs." Allison used her hand to tickle Nicholas all over his body. The mother was at work and the stepfather was in the bathroom. When presented with a male gingerbread diagram, Nicholas denied being touched inappropriately. Nicholas is afraid of Allison.

Lori took a "sexy" picture of Nicholas when he had a costume on. Nicholas demonstrated by laying on the floor on his side, then rested his right elbow on the floor and placed the palm of his hand onto the right side of his face. Lori works at the house. She makes Nicholas feel better and gives him lots of hugs.

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

The stepfather squishes Nicholas on the cheeks when he gets in trouble. Nicholas advised that the markings on his cheek (not observed) were from the stepfather squishing his cheek. He demonstrated a pinching motion. Nicholas stated that this happened due to him not listening and it last happened today. Nicholas doesn't do anything for fun with the stepfather as he is "a mean guy". The stepfather doesn't do anything for Nicholas. The stepfather broke Nicholas's pumpkin that he made. The stepfather does "mean stuff" like grab him. Nicholas advised that the stepfather has spanked him on the butt with the belt and the hand. Nicholas gets bruises afterwards.

There are concerns for how Nicholas is treated by household members. Two of the residents wear bathrobes all day and they open up exposing their underwear and on one occasion a resident's robe opened up exposing private areas.

There are concerns for Nicholas's safety as it appears he is residing in a home similar to that of a group home setting. There are numerous household members not known to him or his family. There are concerns for the mental health of at least one household member. Lori is the owner of the home. Information was reported that she may be associated with the "Warlock Gang".

Nicholas is four years old and requires the care and supervision of an appropriate caretaker. He has been diagnosed with autism and anger/ explosive disorder which would increase his vulnerability."

HOUSEHOLD OF FOCUS:
The household of focus consists of Nicholas Galli (4), his legal guardian via family court order, Melissa Galli Davis, and Melissa's husband, Donavin Davis. At commencement, there were additional roomates in the home; Lori Fein, who is caring for two live-in, disabled individuals, Luke McKie and Allison Pantle. At case closure, there are no additional household members in the home.

MALTREATMENT:
Case is open to Safe at Home for In-Home Non-Judicial services due to impending danger being identified during prior investigation for concerns of physical injury by the caregiver's husband, Donavin Davis. Nicholas denied any new incidences of physical abuse since March 2021.
Nicholas was seen at CPT and initially stated he was touched on his "pee pee" by Allison, then denied it. There is video footage of the incident due to cameras being installed in the home and Allison was observed to tickle Nicholas briefly but they were laughing and she stopped when asked.

NATURE OF MALTREATMENT:

CPIT Giannone completed initial contact with the family on November 6, 2021 at the mother's residence. It was determined the child was with Melissa's ex-husband in Pinellas. The home was observed to be a three bedroom two bathroom home with four residents, all of whom have mental health diagnoses. The home is equipped with video cameras that have audio footage.

Melissa Davis, caregiver, advised Nicholas was seen by Child Protection Team the previous day and they are working with a detective regarding allegations of Nicholas being touched by Allison. Melissa denied she is allowing Nicholas to be out of her or her husband's sight while they are in this home. Melissa denies any physical discipline in the home since the last report. She states she has not seen Donavin pinch Nicholas's cheeks or spank him with belts. Melissa states that Nicholas has behavioral issues, and when he gets worked up, he goes crazy and could possibly injure himself. Melissa states that when this occurs, she has to let him "ride it out," because nothing will stop him.

Donavin Davis, Melissa's husband, confirmed issue with Allison. He denied any physical discipline occurring in home and stated there are video cameras with audio footage throughout the home to prove that nothing is occurring.

Pinellas CPIS Chilton completed contact with the child, Nicholas Galli, at CPI office accompanied by Robert Galli. Robert is the ex-husband of Melissa and father figure to Nicholas. Nicholas was observed to be free of any marks or bruises. He presented as extremely hyper and active during the interview. He was able to be truth/lie qualified. When discussing his parents, he refers to Melissa as his mother and Melissa's husband, Donavin, as his father. Nicholas reported that he lives with

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

his "mom" and his "dad," his "mom's cousin," Lori, and Allison. He stated that he feels safe with his "mom." He stated that Donovan does bad stuff. He said Donovan grabs him and hits him "everywhere." The child demonstrated by grabbing his face with one hand by the cheeks. He stated the last time Donovan did it was in March 2021 and he said he did it "one time, two times and four times. He stated he feels safe at home and gets put in the corner when he is in trouble. He stated the other people living in the home are mean but denied he is afraid of anyone. He stated the landlord "cut the pipes" and "Freon" made him sick but he couldn't elaborate on those statements.

Collateral contact was completed with Robert Galli who brought child to CPI office to be interviewed. He explained Nicholas calls him "dad" but he is not his father. He stated he gets him every weekend from Friday through Sunday. He expressed concerns for child's unstable living environment as Melissa has moved five times in the last three years. He feels Melissa has mental health diagnoses and he feels her husband gave Nicholas a black eye in the past which was previously investigated.

On November 16, 2021, an open services staffing was completed with Safe At Home to include CPI Giannone, ACPIS Sysol, CPIS Yedinak, SAH CM Feiler, and SAH Supervisor Snitkin. CPI did not address sexual abuse allegations due to case being open to major crimes and child being interviewed at Child Protection Team. Due to new allegations, SAH had implemented a safety plan where child is always supervised by the caregivers, Melissa and Donavin. The family is currently residing on one bedroom of the home together and SAH is working on getting the Melissa and Nicholas out of the home. Melissa stated she is willing to go to a shelter with child. Case Management has concerns for the caregivers' ability to keep Nicholas away from these other tenants if they remain in the home.

Reviewed CPT report dated November 22, 2021. A forensic interview as requested by Detective Williams, Pasco Sheriff's Office, due to Nicholas (4) reporting a household member grabbed and massaged his crotch area. Nicholas was accompanied to CPT by his caregiver, Melissa Davis. Nicholas reported a household member, Allison, was "tickling" him and "rubbing" him on his "pee pee." He then stated she did not do that and tickled him "all over his body." He described her as happy when she tickled him and would not stop when he told her to stop. He advised his "mother" (Melissa) was at work and he was home with Donavin, who was in the bathroom, when this occurred. Nicholas further explained that he and Allison were playing "tickle tag" and he was wearing a vampire costume at the time. He denied he tickled anyone. Nicholas denied anyone touching him on private parts when provided with a diagram. He advised "Lori" took a "sexy" picture of him which consisted of him in his costume lying on his side with his elbow on the floor and his face in the palm of his hand. Nicholas was not observed with any marks or bruises though stated Donavin pinched his cheek this day for not listening. He stated he has received bruises in the past from Donavin spanking him with a belt and his hand. He described Donavin as "mean" and stated he broke his pumpkin. It was recommended: Nicholas should not be left unsupervised with any household members. Donavin Davis should not be in a caregiver role of child. No physical/corporal punishment should be used. Caregivers should participate in intensive parenting education, and a CPT staffing would be beneficial.

Reviewed progress with Safe at Home. Case was accepted for In-Home Non-Judicial Services on October 27, 2021. SAH provided financial assistance for family to move to Roadway Inn for two weeks then plan to move in with family member. It was recommended: Nicholas engage with counseling and received psychiatric services through Sequel Care, Nicholas engage with ABA therapy due to Autism diagnosis, Family engage with SAH services. On November 11, 2021 Donavin completed a random urinalysis that was positive for marijuana. He had an expired medical marijuana card and was in process of it being renewed.

Collateral contact completed with safety monitor, Julie Edwards. She meets with the family twice per week and she has no concerns. She has noticed a positive change since the family has moved back into the home and the other household members have been evicted. She denied any concerns for the family.

Collateral contact completed with SAH Case Manager, Jaime Feiler. She stated family is back in the home they were in at commencement (6715 Hone Street, New Port Richey). Everyone else was evicted and in the home is only their family. She stated the family is doing really well and both Melissa and Donavin are engaged and working with them. Nicholas is in process of being linked to ABA therapy and his behaviors have decreased. Donavin has obtained a medical marijuana card. They will continue working with the family.

Reviewed LE report 21-039249 which was unfounded for Lewd/Lascivious Molestation. There were concerns a household

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

member, Allisson Pantle, cornered the child, Nicholas Galli (4) in the kitchen and touched his crotch area, over clothing. The caregiver to child, Melissa Galli, advised when she got home from work, Nicholas, advised her Alison was chasing him around the house tickling him and he pointed to his crotch area and said she patted him there. Deputy Potts interviewed another household member, Luke McKie, who observed Nicholas and Allison running circles through the living room and kitchen area and she heard Allison say she was going to ticking him and Nicholas asking her to stop. Detective Williams observed the video footage from the home and reported it clearly showed Allison and Nicholas were playing. Nicholas was observed to be wearing his vampire costume from Halloween and attempt to scare Allison. Allison was observed laughing and saying he was a "cute little vampire." Nicholas was observed several times to poke Allison or try to scare her and finally she chased him into the kitchen. She could be observed to tickle him and he slid to the floor laughing before saying "stop," which she did.

PRIORS:
There has been a pattern of concerns for family regarding physical injury and medical neglect, with the last case in 2021 closing verified for physical injury on the caregiver's paramour, Donavin Davis. Case is currently open to Safe at Home for In-Home Non-Judicial Services.

FINDINGS:
Physical Injury- No Indicator
Sexual Molestation - No Indicator

ANALYSIS: There was no evidence gathered to support the allegations of sexual molestation. The incident was recorded on video which clearly showed the household member tickling Nicholas however he was not touched on any private areas of his body. The case was transferred over to In-Home Non-Judicial Services due to concerns for the caregiver's spouse injuring child which has already been investigated. The child did not disclose any additional incidences of Donavin using physical discipline.

V. Safety Analysis Summary

Nicholas (4) is residing with his legal caregiver, via family court, Melissa Davis, and her husband, Donavin Davis. They are currently open to In-Home Non-Judicial Services through Safe At Home due to previously being deemed unsafe due to Donavin's discipline of child leaving marks. At case commencement, the family was residing in one bedroom of a home which was being operated as a group home for disabled adults. All additional household members are now out of the home. There was no evidence gathered to support any sexual molestation of NIcholas by household member, Allison Pantle. Child was seen at CPT and findings were indeterminate. There is video footage in the home which was observed to show Allison tickle Nicholas briefly however she was not observed to touch him on any private parts. Law enforcement closed their case as unfounded. The child, Nicholas, denied any physical discipline since the last case was closed. Collateral with current Safe at Home case manager and safety monitor did not disclose any concerns for the family who continue to engage in services. No additional services are needed.

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

IV. What is the extent of the maltreatment? What surrounding circumstances accompany the alleged maltreatment, precipitating events, history?

Allegations:

On, August 18, 2021 the Florida Abuse Hotline received concerns for the victim child, Nicholas Galli. "Nicholas has a fresh scratch mark near his temple and eye. He has a rectangular shaped bruise right next to his eye on his temple. The stepfather caused the injury because of Nicholas's attitude. The injury was caused his morning or yesterday evening. Nicholas is scared."

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

Household of Focus:

Nicholas Galli/Child (four years old)
Melissa Davis/Caregiver, she has legal custody through family court.
Donavin Davis/Spouse of Melissa

Maltreatment:

Nicholas was interviewed by CPIT Gleason and Deputy Croft on August 19, 2021. Nicholas was observed with a two bruises on his face. When asked what happened, he stated he and Donavin (who he refers to as his father) were kicking and punching each other like superheroes. He stated he is disciplined by being spanked on the butt with an open hand over clothes. His caregiver, Melissa Davis, stated that Nicholas was not listening and he jumped off of the couch and he fell and hit his head. Melissa's husband, Donavin Davis, said Nicholas was jumping on the couch and he told him to stop several times. When he continued to jump, he advised Melissa what was going on and he went outside to smoke a cigarette. He was outside and did not see Nicholas fall and hurt himself. Nicholas was interviewed at Child Protection Team and gave two additional explanations for hat occurred. He advised he was running from snakes and he advised Donavin turned him over to spank his butt and he hit his head on the side of the trailer which was the most plausible explanation provided based on his injuries. Law enforcement was present at interviews and Pasco Sheriff's Office Report 2102932 has been unfounded for child abuse.

Surrounding Circumstances:

CPIT Gleason met with Nicholas Galli at school and when asked what happened, he provided a story about how he and his father were kicking and punching each other like superheroes, and he made his dad's nose bleed.

CPIT Gleason made collateral contact with Nicholas teacher and she stated that Nicholas says his injury came from his father, Donavan.

CPIT Gleason met with the caregiver, Melissa Davis. She was upset with CPI being involved again however she was compliant and engaged in an interview. She stated Nicholas had gotten his injury after he was jumping on the couch. She told hi to stop but he would not listen and he fell and hit his face on a window sill. She stated this has not been the first time it has happened and she knows it will not be the last time because Nicholas has been diagnosed with Intermittent Explosive Disorder and Post Traumatic Stress Disorder. He is prescribed Clonidine. She stated he has random outbursts that make it so he goes against what Melissa and Donavin will tell him. She submitted to a random urinalysis and was negative for all substances.

CPIT Gleason met with Donavin Davis, who stated, Nicholas was jumping on the couch. Donavin got Melissa and they were both telling him to stop. He had gone outside and smoked a cigarette and knew he fell but was not around to watch it happen. He refused to submit to a random urinalysis. He did not appear under the influence of any substances.

The child was seen at Child Protection Team on August 20, 2021 and was observed with a three and a half centimeter linear bruise extending from his hairline just over his right temple to just under the corner of his left eye. He was also observed with a non-specific one centimeter bruise at the lateral border of right eyebrow. Nicholas provided two explanations for how the injury occurred. He provided a story about running from snakes and he provided that Donavin turned him over to spank his butt and he hit his head on the side of the trailer. The medical examination supports findings of abuse based on him hitting the side of the trailer being a plausible explanation for the linear bruising.
Child Protection Team provided the following recommendations: No physical/corporal punishment. Refer parents for parenting classes to learn alternative forms of effective discipline. Recommend behavioral counseling for Nicholas if he truly has an anger or explosive disorder. Continue to follow up with pediatrician for behavioral problems. Ensure safe, nurturing home environment free from abuse and exposure to violence.

This is the fifth time Nicholas has been seen at Child Protection Team. In May 2018, Nicholas was seen for head injury that was determined to be accidental resulting from falling from bed. In January 2021, Nicholas was seen due to having injuries

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

that were reportedly caused by Melissa's ex-husband, Robert Galli. Nicholas provided a clear story of physical abuse but was free of injuries. The overall findings were indeterminate in support of physical abuse. In April 2021, Nicholas was seen for physical abuse, medical neglect, and pediatric falsification/ Munchausen syndrome by proxy. The overall findings did not support abuse or neglect. Nicholas stated he is afraid of his "dad" whom he identifies as Donavin and stated that his "dad" Donavin is mean and spanks him. In June 2021, Nicholas was referred to having facial and buttock injuries caused by Donavin Davis. The injury was consistent with a high force grab. Nicholas also had linear bruising to his buttocks at the commencement of the investigation. The overall findings supported the allegations of physical abuse. At the conclusion of this investigation, Melissa, denied she would allow Donavin to continue disciplining Nicholas.

Collateral contact was completed with Marisela Castillo, school social worker at Richey Elementary. She advised Nicholas has behavioral issues and she has observed him having meltdowns in school. She denied any concerns for Melissa as a caregiver of Nicholas and expressed she would like to see Melissa officially adopt him.

On September 15, 2021 CPI Myers received a phone call from Melissa Davis, who was crying and stated Nicholas is being placed under a Baker Act due to acting out aggressively while at the pediatrician's office. She advised while at his appointment at Pediatric Associates, Nicholas was trying to take a toy from another child and when Melissa told him no, he started kicking her in the face and scratching her. He was taken to Mease Countryside Hospital, however he did not meet criteria and was referred to a pediatric neurologist.

The family engaged in Primary Diversion Services throughout the investigation. The child was linked to Sequel Care to address his needs but has not been linked to a counselor yet. Melissa was cooperative and began utilizing positive reinforcement as discipline. Donavin was resistant to work with Safe at Home and wanted the case manager to be reassigned.

Priors:
The family does have history with the department. The last report was received June 2, 2021 which was verified for physical injury with Donavin Davis as the caregiver responsible. At the conclusion of the investigation, Melissa verbalized she was separating from Donavin due to incident where Donavin lost his temper while disciplining Nicholas and grabbed Nicholas's face causing bruising. Nicholas also had bruising on his buttocks from Donavin. Child was seen at Child Protection Team and they had positive findings of abuse. Melissa was working with Family Support Services from the prior investigation . Referrals were completed to Sequel Care for Nicholas and a referral was completed to Baycare for anger management and parenting. In March 2021, a report was closed with no indicators of physical injury. There were two reports received in 2020 with no indicators of environmnetal hazards, inadequate supervision,

Findings:
Physical Injury- Not Substantiated

Sources:
Melissa Davis, Legal caregiver
Donavin Davis, Spouse of Melissa
Jamie, Case Manager/Safe At Home
Marisela Castillo, school social worker/Richey Elementary

Analysis:
The child was observed with a two bruises on his face which he provided different explanations for how they occurred. While at Child Protection Team, one of the explanations he provided was that Donavin turned him over to spank his butt and he hit his head on the side of the trailer, which is plausible based on his injury. Nicholas has behavioral outbursts both at school and home and has been linked with a pediatric neurologist who is evaluating child to determine if there is a medical basis for his behavior, as well as assessing him for Autism Spectrum Disorder. Due to this being the second incident of Nicholas receiving injuries from being disciplined by his caregiver's husband, Donavin Davis, impending danger was identified and case was transferred for in home non-judicial services.

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

V. Safety Analysis Summary

Nicholas was observed with two small bruises on his face at commencement. He was seen at CPT and provided several explanations for the injury to include Donavin flipping him over to spank him and he hit his face on side of trailer which was the most plausible based on the injury. CPT had positive findings that support abuse by Donavin. Nicholas is diagnosed with Intermittent Explosive Disorder and Post Traumatic Stress Disorder and is prescribed medication. He attends VPK daily at Richey Elementary and according to school social worker, he has meltdowns at school, however she has no concerns for child in the home with Melissa and Donavin. Nicholas has been referred to a pediatric neurologist and they are scheduling a sleep deprivation study to determine if there are any medical issues contributing to his outbursts and are evaluating him for Autism Spectrum Disorder. Melissa engaged with Primary Diversion throughout this investigation and has begun utilizing new techniques with Nicholas. Donavin has been resistant to suggestions provided from Primary Diversion but has agreed to continue working with services to learn better parenting techniques. Case is being transferred for in-home non-judicial services.

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

IV. What is the extent of the maltreatment? What surrounding circumstances accompany the alleged maltreatment, precipitating events, history?

ALLEGATIONS:

On, June 02, 2021 the Florida Child Abuse Hotline receive concerns for the victim child, Nicholas Galli. "The step father was angry and grabbed Nicholas' cheeks and squeezed to where the child had a bruise on his face. Nicholas' mouth was bleeding as well. There is a concern for the safety of the child."

HOUSEHOLD MEMBERS:

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

Nicholas Galli/Child
Donavin Davis/Stepfather
Melissa Davis (Galli) /Mother

MALTREATMENT:

Nicholas said that Donavin grabbed him by him by his cheeks, he also said that he hurt his head at school.

Melissa stated that Donavin let his frustration get the best of him, while he was helping her care for Nicholas. She stated that Donavin did grab Nicholas by his cheeks and left a mark on his cheek, she stated that Donavin did also smack Nicholas on his butt and left finger prints on Nicholas butt.

Donavin agreed that he allowed his frustration to get the best of him, he stated there is a lot of things happing with him and his own kids. He said to include Melissa's father being back in the hospital. He stated that he did not have intentions on hurting Nicholas, he stated he was not aware of any markings on Nicholas until Melissa told him.

SURROUNDING CIRCUMSTANCES:

Nicholas was observed to have a faint bruise on his cheek. Nicholas said he got a mark on his head at school, he was bouncing around at school and he fell. Nicholas was observed jumping on the couch and jumping around Tony, from Safe at Home. She was telling Nicholas to calm down and be careful. Nicholas said that Donovan smacked him around. He did say Donovan grabbed his face.

Melissa said that Nicholas is a "wild child." Nicholas was not listening to her and he was not following directions. She stated that Nicholas was fooling around as usual. Donovan was feeding Nicholas dinner she said Donovan then told Nicholas to get ready to take a shower and Nicholas told him no he was not listening to Donovan. She said Donovan did grab his cheeks and she noticed some bleeding due to Nicholas biting down on his cheeks while Donovan was grabbing his cheeks. She said Nicholas was spitting in Donovan's face because he didn't want to go to bed and she said Nicholas began to throw a tantrum. Melissa stated she was on the phone with a couple of different attorneys and the hospital where her dad was. She said then Tony, from Safe at Home, called. Melissa and said Donovan was trying to get Nicholas's attention by grabbing his cheeks. She stated she knows for a fact that Donovan did not purposely grab Nick to hurt him. She stated when she noticed what was going on, she yelled at Donovan and told him to stop and back off. She stated she separated Donovan and Nicholas so Nicholas's behaviors cool down as well as Donovan.

Donovan said last night he told Nicholas after dinner it was time to take a bath and lie down. He said that Nicholas continuously asked for Melissa after his bath and he would not lie down in bed. He said that he would lie Nicholas down and Nicholas would get back up and run around. He said that Nicholas has been kicking and punching him, even while he was trying to lie him down. He said that Nicholas is a handful to discipline. To his knowledge there were no marks and bruises on Nicholas. He said he gave Nicholas a spanking on his bottom with his hand and Nicholas began yelling and screaming. Donovan said he then placed both hands on his cheeks and pinched his cheeks, with a little more force than he should have to get his attention, not to hurt him. He said the entire time Melissa had been on the phone with different people trying to handle business for her father. He said when Melissa got off the phone she came into the house and she calmed Nicholas down and calmed him down. She then laid Nicholas down and Nicholas went to sleep. He denied ever disciplining Nicholas in the past. Nicholas is disciplined by Melissa. He said he kind of "snapped." He stated he has smacked Nicholas on the hand in the past but there was a reason behind it.

Tony from Safe at Home said that she could hear Donovan telling Nick to lie down several times. Then she could hear Nicholas screaming and Melissa went into the room.

Julie Edwards, the family neighbor said that Nick was eating dinner, he was making a mess. She said Donovan asked him, if he was finished, then Donovan took the bowl. She said Nicholas began screaming and kicking Donovan. She then heard Donovan tell Nicholas it was time to take a bath. She said after his bath she could hear Nicholas screaming and raging

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

because Donovan was trying to get Nick to lay down. She stated Nicholas was kicking the door off and on that went on for about a half an hour. She said that Nicholas does have explosive rages. She said he has kicked her before. She described Donovan as being a little rough and more verbally aggressive than Melissa is with Nicholas. She said the other night she was there when all this happened and Melissa was on the phone with Morgan & Morgan and the hospital dealing with her dad. She said and that was the reason that Donovan stepped in to try to help Melissa. Julie said that Melissa is usually the one that handles Nick and Donovan only deals with Nicholas when Melissa is occupied.

Shannon Chila, the director of Adventure Day Care, she advised she does not have any concerns for Nicholas. She said he comes to daycare dressed clean and she really does not have anything bad to say about Nicholas. Shannon said on 06/01/21, there was an incident on the playground and Nicholas hit the right side of his forehead outside on the play area on a plastic toy.

PRIORS:
The family does have history with the department. The most recent allegation 2021 the allegations are physical injury (no indicator) and inadequate supervision (no indicator) with Nicholas Galli 2018 medical neglect(no indicator) physical injury (no indicator) 2019 inadequate supervision (no indicator) 2020 physical injury (no indicator) household violence threatens child (no indicator) 2020 environmental hazards, inadequate supervision (no indicator)

FINDINGS:
Physical Injury- Verified

SOURCES:
Nicholas Galli/Child, Melissa Davis/Mother, Donavin Davis/ Step-father, Tony/Safe at Home, Julie Edwards/ Neighbor, Samantha Chila/ Daycare

ANALYSIS:
The case is closing with findings of physical injury being verified. The child was observed with a bruise on his face from the stepfather grabbing his cheeks and finger marks on his buttocks from stepfather spanking him. Child was seen at CPT and there were positive findings of abuse.

V. Safety Analysis Summary

The child, Nicholas Galli (4) is deemed safe with his mother, Melissa Galli and no impending danger was identified. Child was observed with a bruise on the right side of the his face and what appeared to be finger markings on the child's buttocks. New Port Richey took report and forwarded charges to SAO, however at closure no charges have been filed. Child Protection Team had positive findings for abuse. The mother and Donovin separated. Family just completed Family Support Services and family was referred to Sequel Care and Baycare for anger management and parenting at closure.

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

I. Allegation Narrative(s)

Sequence Type	Date/Time Received	Response Priority
Supplemental	04/13/2021 7:41 PM	

Narrative

The parents are packing up their car with a lot of bags. There is a concern they are leaving state. Nicholas is in danger in their care. The mother has been off her medication and she is not in her right state of mind to have Nicholas in her care out of state.

Sequence Type	Date/Time Received	Response Priority
Supplemental	04/08/2021 3:34 PM	

Narrative

The mother was hitting Nicholas on his belly and it hurts. The mother grabbed him and the father hit him and got him on his knee with the father's nails . There is a scratch on his knee, but it is relatively fresh and could be no more than a few hours old. Nicholas was sucking his thumb and it is believed this is regressive behaviors. He has been staring of into the distance and being more aggressive in his play during free time.

Sequence Type	Date/Time Received	Response Priority
Supplemental	03/12/2021 10:36 AM	

Narrative

Nicholas is abused by the mother. Nicholas states he hates the mother because she hurts him and smacks him very hard. It is unknown when the last time the mother smacked him or if he has ever had injuries. A year ago, Nicholas was observed with black eyes and bumps on the head. the mother would always come up with an excuse for him having the injuries such has he hit the door or tripped over something. On 01/17/2021, Nicholas had a left black eye and bruised ribs. The mother took Nicholas to the hospital and accused the father of causing the injuries. However, there are concerns the injuries occurred while in the mother's care.

Nicholas attends Great Hope Preschool. Nicholas doesn't want to live with the mother but wants to live with the father. Nicholas is afraid of the mother.

The mother is not the birth mom but the guardian. The birth mom gave the father and mother, Melissa signed guardianship because she already had six children. The mother, Melissa claimed to be a third relative to the birth mom which they are not blood related. Everything the mother does is a lie. The mother is bipolar and doesn't take her medication. The mother states she is cured. In June 2020, the mother stole $2,000 from Nicholas's paternal relatives after getting their credit card information. However, law enforcement did nothing about it because the bank returned the money back to the relative's account. The mother gets away with everything, it is unbelievable.

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

The mother got married three months ago. The grandfather have heart problems. The grandfather was convicted of child molestation in the State of Washington. The grandfather has three charges but the State of Washington did not classify him as a sex offender. He spent some time in jail. The stepfather have two girls that visit on weekends.

Sequence Type	Date/Time Received	Response Priority
Initial	03/04/2021 5:20 PM	24 Hours

Narrative

On 01/17/2021, Nicholas was admitted to the hospital with a black eye, bruised ribs, and cuts on him. Nicholas was in the care of the mother when the incident occurred. It is believed that the mother or stepfather caused Nicholas' injuries. Nicholas' father was previously accused by the mother of being the individual responsible for these injuries on Nicholas. Nicholas' father hasn't seen Nicholas since 01/11/2021. Nicholas' father dropped Nicholas off at daycare on this day without any injuries. The mother took Nicholas' father to court for the allegation, but she dropped the charge. The mother likely got angry because Nicholas was asking about his father, resulting in the injuries. Nicholas has expressed in the past that he doesn't want to go home to the mother's home when he is with his father. Nicholas has expressed that the mother spanks him hard. Nicholas screams, cries, and hides when mother picks him up from his father's home. There is a concern that the mother's violence towards Nicholas is escalating. There is a concern the mother could put Nicolas in coma or kill him even by accident with her level of anger. There is a history of physical abuse in the mother's home. About a year ago, Nicholas had cuts on his lips. Nicholas previously had a knot on his forehead. When Nicholas was younger the mother pushed him off the bed and ended up with a knot. DCF was contacted, but no one came to talk to Nicholas' father about the incident. During the incident, Nicholas had a concussion and slight brain bleed. Nicholas had another knot on head last year as well as a second black eye. The mother abuses Nicholas out of anger. The mother has eight or nine previous DCF cases against her and three domestic violence cases in the past year and a half. The mother had a history of domestic violence towards Nicholas' father while they were still together.

The mother has unmanaged mental health issues. The mother is diagnosed with severe Bipolar Disorder and Schizophrenia. The mother gets angry very easily. The mother goes from being angry to "psycho" very quickly. The mother is supposed to be taking medications for her mental illness. The mother hasn't been taking her medications for five or six years. The mother's mental health is getting worse and worse. The mother's unmanaged mental health issues are a serious danger to Nicholas.

The maternal grandfather living in the home has three charges against him in the early 90s for having sex with a child.

The mother and stepfather are smoking marijuana.

The mother may have Munchausen's and/or Munchausen's by proxy. The mother has taken Nicholas to the hospital an abnormal amount of times for unverified issues. The mother was claiming that Nicholas had seizures, which no one has seen. The mother is most recently claiming Nicholas has psychological problems, likely caused by the mother.

The stepfather/father's children are in the home on Friday, Saturday, and Sundays. The mother brought a homeless man into the home that she doesn't know. The mother is described as manipulative and narcissistic. The mother makes up stories like crazy. The mother plays the victim well.

IV. What is the extent of the maltreatment? What surrounding circumstances accompany the alleged maltreatment, precipitating events, history?

On, March 4, 2021 the Florida Child Abuse Hotline receive concerns for the victim children, Nicholas Galli. "On 01/17/2021, Nicholas was admitted to the hospital with a black eye, bruised ribs, and cuts on him. Nicholas was in the care of the mother when the incident occurred. It is believed that the mother or stepfather caused Nicholas' injuries. Nicholas' father was previously accused by the mother of being the individual responsible for these injuries on Nicholas. Nicholas' father hasn't seen Nicholas since 01/11/2021. Nicholas' father dropped Nicholas off at daycare on this day without any injuries. The mother took Nicholas' father to court for the allegation, but she dropped the charge. The mother likely got angry because Nicholas was asking about his father, resulting in the injuries. Nicholas has expressed in the past that he doesn't want to go home to the mother's home when he is with his father. Nicholas has expressed that the mother spanks him hard. Nicholas screams, cries, and hides when mother picks him up from his father's home. There is a concern that the mother's violence towards Nicholas is escalating. There is a concern the mother could put Nicolas in coma or kill him even by accident with her level of anger. There is a history of physical abuse in the mother's home. About a year ago, Nicholas had cuts on his lips. Nicholas previously had a knot on his forehead. When Nicholas was younger the mother pushed him off the bed and ended up with a knot. DCF was contacted, but no one came to talk to Nicholas' father about the incident. During the incident, Nicholas had a concussion and slight brain bleed. Nicholas had another knot on head last year as well as a second black eye. The mother abuses Nicholas out of anger. The mother has eight or nine previous DCF cases against her and three domestic violence

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

cases in the past year and a half. The mother had a history of domestic violence towards Nicholas' father while they were still together. The mother has unmanaged mental health issues. The mother is diagnosed with severe Bipolar Disorder and Schizophrenia. The mother gets angry very easily. The mother goes from being angry to "psycho" very quickly. The mother is supposed to be taking medications for her mental illness. The mother hasn't been taking her medications for five or six years. The mother's mental health is getting worse and worse. The mother's unmanaged mental health issues are a serious danger to Nicholas. The maternal grandfather living in the home has three charges against him in the early 90s for having sex with a child. The mother and stepfather are smoking marijuana. The mother may have Munchausen's and/or Munchausen's by proxy. The mother has taken Nicholas to the hospital an abnormal amount of times for unverified issues. The mother was claiming that Nicholas had seizures, which no one has seen. The mother is most recently claiming Nicholas has psychological problems, likely caused by the mother. The stepfather/father's children are in the home on Friday, Saturday, and Sundays. The mother brought a homeless man into the home that she doesn't know. The mother is described as manipulative and narcissistic. The mother makes up stories like crazy. The mother plays the victim well."

On, March 12, 2021 the Florida Child Abuse Hotline receive a supplemental intake that involved concerns for the child, Nicholas Galli. "Nicholas is abused by the mother. Nicholas states he hates the mother because she hurts him and smacks him very hard. It is unknown when the last time the mother smacked him or if he has ever had injuries. A year ago, Nicholas was observed with black eyes and bumps on the head. The mother would always come up with an excuse for him having the injuries such has he hit the door or tripped over something. On 01/17/2021, Nicholas had a left black eye and bruised ribs. The mother took Nicholas to the hospital and accused the father of causing the injuries. However, there are concerns the injuries occurred while in the mother's care. Nicholas attends Great Hope Preschool. Nicholas doesn't want to live with the mother but wants to live with the father. Nicholas is afraid of the mother. The mother is not the birth mom but the guardian. The birth mom gave the father and mother, Melissa signed guardianship because she already had six children. The mother, Melissa claimed to be a third relative to the birth mom which they are not blood related. Everything the mother does is a lie. The mother is bipolar and doesn't take her medication. The mother states she is cured. In June 2020, the mother stole $2,000 from Nicholas's paternal relatives after getting their credit card information. However, law enforcement did nothing about it because the bank returned the money back to the relative's account. The mother gets away with everything, it is unbelievable. The mother got married three months ago. The grandfather have heart problems. The grandfather was convicted of child molestation in the State of Washington. The grandfather has three charges but the State of Washington did not classify him as a sex offender. He spent some time in jail. The stepfather have two girls that visit on weekends."

On, April 8, 2021 the Florida Child Abuse Hotline receive a supplemental intake that involved concerns for the child, Nicholas Galli. "The mother was hitting Nicholas on his belly and it hurts. The mother grabbed him and the father hit him and got him on his knee with the father's nails. There is a scratch on his knee, but it is relatively fresh and could be no more than a few hours old. Nicholas was sucking his thumb and it is believed this is regressive behaviors. He has been staring of into the distance and being more aggressive in his play during free time."

On, April 13, 2021 the Florida Child Abuse Hotline receive a supplemental intake that involved concerns for the child, Nicholas Galli. The parents are packing up their car with a lot of bags. There is a concern they are leaving state. Nicholas is in danger in their care. The mother has been off her medication and she is not in her right state of mind to have Nicholas in her care out of state.

HOUSEHOLD MEMBERS:
Nicholas Gall/Child
Morse Clark/Maternal Grandfather
Donavin Davis/Stepfather
Melissa Davis/Mother

MALTREATMENT:
The child, Nicholas was not observed to have any marks or bruises when the department arrived at the family's home. Nicholas said yes, he did have a black eye he then got distracted and began taking about something on the TV. He said that his mommy did spank his hand because he was doing something that he was not supposed to do in the kitchen. Melissa denied the allegations, she said Robert dropped of Nicholas she took the child to the hospital due to the marks and bruises on his body. Morris, maternal grandfather said Robert is "pissed off" he denied all of the allegations, he said he has no concerns

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

for Melissa caring for Nicholas. Donovan Davis denied the allegations, he said his children have not been in his home for over three months. He said old stuff is being brought to the table.

SURROUNDING CIRCUMSTANCES:
CPI and Officer Delibertit observe Nicholas he appear to be free from marks and bruises, his mother, Melissa took off his shirt and his pants he was able to photo Nicholas, he was free from marks and bruises. There was a bruise located on his shin that appear to be from Child's Play. He was able to fix it. He then said that his mommy spank his hand and put him in his room for timeout because he was doing something in the kitchen he wasn't supposed to do.

CPI and Officer Delibertit met with Melissa and she denied the allegations. She stated that Robert dropped Nicholas off, she then took him to the hospital due to his marks and bruises. She said that Nicholas was diagnosed with RSV when he was 3 weeks old. She did not ever pushing him off the bed she said that he rolled off the bed he was taken to Trinity Hospital when he was a baby, there was a brain bleed however it was not because of injury it was because his skull wasn't fully formed. Nicholas only has a seizure when his temperature gets high, he has not had a seizure in over a year that is when she gives medication is when needed and he has a seizure. She said he has never have marks or bruises on his body when he is in her care, other than basic child play when he is outside playing on his scooter. She stated she is not taking medication for bipolar she does have depression and she does have a therapist that she is seeing. She said Robert is fighting her for Nicholas Robert because he is mad, she said this is the last time a incident will happened with marks and bruises on Nicholas, she stated she told Robert this is his last time that he will be seeing Nicholas. She denies that anyone in the house smokes marijuana. She said of the last time that Donovan's kids were here at the home was 3 months ago they have not been here since and they do not live here. Melissa stated three weeks ago she went and picked up a truck from Donovan's home that was in both of their names she called Pinellas County Police Department to assist her she stated she has the child she needs transportation, and Robert was being nasty to her. She got the vehicle in her possession she then took the vehicle and traded it for a vehicle of her choice.

Morris Clark, maternal grandfather said that Robert is pissed off about her taking the truck. He stayed at Robert told him his self that he's going to destroy Melissa's life. He deny all allegations he has no concerns for Melissa caring for the child he leaves him in the care of the daycare and one daycares close with the neighbor Julie. He denies ever sing any marks and bruises on him that Melissa has done, when Nicholas gets in trouble Melissa puts in his room for timeout. The incident where nickel is rolled off the bed he said it's strange because Robert is the one that had Nicholas in his care at that time.

Donovan Davis, is the step father of Nicholas. He deny the allegations, he said it's old stuff being brought to the table. He stated Robert is lying the information is old and incorrect. He said he has nothing more to add, his children have not been in this home and over three months, their mother and he are working with the court for mediation.

Rachael Hentz, step-sister of Melissa. Stated she does not know what she is doing with Nicholas, she advised she has not been around them in over three years, she denied having any current information on the family, she said she is aware that Morse, maternal grandfather lives in the home and she feels like the home is not safe for Nicholas.

Child Protection Team stated in notating the allegations for physical injury were not supported and the allegations for Munchausen syndrome by proxy was for to have no indication. Notes were read from the pediatrician notes and last visits.

PRIORS:
The department has been involved with the family since 2013 there have been allegations. In 2018 medical neglect(no indicator) and physical injury (no indicator) with victim child listed as Nicholas and alleged perpetrator Melissa Galli 2019 inadequate supervision (no indicator) child listed as Nicholas and alleged perpetrator Melissa Galli 2020 physical injury (no indicator) household violence threatens child (no indicator) child listed as Nicholas and alleged perpetrator Melissa Galli 2020 environmental hazards, inadequate supervision (no indicator) 2020 sexual molestation alleged perpetrator Melissa Galli and Morse Clark (the maternal grandfather, Morse Clark, does have a child sexual abuse conviction from 1991, he is not ever alone or in a caregiving role of the children), inadequate supervision (both no indicators).

FINDINGS:

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

Physical Injury- No indicator
Inadequate Supervision- No indicator

SOURCES:
Melissa Davis /Mother, Donavin Davis/Stepfather, Morse Clark/Maternal Grandfather, Rachael Hentz, Step- sister, Child Protection Team

ANALYSIS:
The case is closing with findings for physical injury and inadequate supervision being no indicator. Child protection team has indeterminate findings for Munchausen syndrome and nothing to support the allegations of physical injury at this time. The child stated he will go to time out when he is in trouble.

V. Safety Analysis Summary

The case is closing with findings for physical injury and inadequate supervision being no indicator. Child protection team has indeterminate findings for Munchausen syndrome and nothing to support the allegations of physical injury at this time. The child stated he will go to time out when he is in trouble.

On November 4, 2020 the Florida Child Abuse Hotline receive concerns for the victim children, Nicholas Galli, Sebastian Davis, Autumn Davis. "The grandfather was charged with rape a while back and there is a concern he has touched Autumn. She is always saying that her vagina hurts, and it is always red."

HOUSEHOLD MEMBERS:
Sebastian Davis/Child
Autumn Davis/Child
Nicholas Galli/Child
Donavin Davis/Father
Melissa Galli/Mother
Morse Clark/Grandfather

MALTREATMENT:
The children are not ever left home alone unsupervised, per the parents of the children to include the neighbors. The neighbors advised there is a disgruntled neighbor creating problems for the family. On the weekends Autumn and her brother Sebastian visit their father Donavin and their step mother Melissa. The child Autumn denied anyone touching her girly parts, if they did she would tell her mother. Other child denied any inappropriate touch. Melissa and Donavin denied the allegation, they advised the children are never alone with Morse.

SURROUNDING CIRCUMSTANCES:
Autumn 3 years old was observed to be free from bruises and any marks she was observed to be sitting in a chair with a night gown on. Autumn calls Morse, "Pop Pop." The child appeared to be happy. CPI went over the child's body parts with her she

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

understood what her body parts are and she made CPI and the officer aware that no one touches her girly part, and she would tell mommy. She was observed to be wearing a pullup.

Sebastian Davis appear to be free from marks and bruises he was able to truth lie qualify. He said they eat food here at Melissa's house because they have to keep muscles. He said no one leaves them home alone, he said Pop-Pop is here and dad is here. He said his mom comes to pick him up, and dad's friend next door comes over. Then mommy picks them up and then Mommy comes back to get them. Sebastian was observed to be very playful and constantly moving around the place. He was able to tell all of his body parts to the CPI and New Port Richey officer, he said that no one has touched his "wiener" and if someone did he would tell his mom.

Melissa Galli, she said there was a neighbor back when she was dating Donovan he and the neighbor was sharing a car, Donovann and the neighbor had a blowout. She denied Autumn and Sebastian have been there for about 2 weeks. She said 2 weeks ago all the cops came out for a welfare check, to see the kids said the kids were fine they left. The children's mother picked the kids up last week and the kids have not been back to her home since. Sebastian and Autumn do not live with her, they live with their mother and they only visit on the weekend. CPI received a phone call from Melissa Galli on 11/4/2020, she said she is calling CPI because she was told that Autumn keeps getting rashes at her grandparents' house, and her pull-up's are not getting changed. She was told that Autumn had been saying her private area hurts. Melissa said Autumn's paternal grandparents keep saying that Autumn is being touched. She said the grandparents pulled up the criminal history on Morse and seen his history and began making assumptions that she is being touched by Morse. She said that her father is never alone with the kids ever, she said he does not give any of the kids a bath either, she denied that her dad has ever seen the kids naked. Melissa said her father, Morse went to the hospital on Monday because he had a heart attack and a stroke. She said the last time her father seen Autumn was this past Sunday, she said she was home and Donavin was there all weekend.

Donovan Davis blames the report on a neighbor he had a car issue with. Donavin then told CPI he is aware of Pop's history. He said since him and his children's mother, Jennifer broke up his daughter has regressed and is back in diapers and pull ups. He said one time when he was wiping her she stated it hurts down there, he then just allowed her to wipe herself, and to tell him when she had to pee. To his knowledge Autumn had some kind of female issue, so he started giving her cranberry juice. He said his parent's called this in because they don't want Melissa and him to be together. He said that "Pops" does not do anything with the kids he said it is always him or Melissa that gives baths he said pops never does any of that for the kids. He said in the past he has seen his daughters private area read and irritated but he is not sure if she is red or irritated now.

Jennifer is the biological mother of Autumn. She denied having any concerns for her daughter in her father and Melissa's care. She said she does not think that anyone has touched her. She said her daughter is going through potty training. She said her daughter will stay in her wet panties and will not tell anyone. She denied seeing any rashes or her being irritated. She said today Autumn said her "pee pee" hurts but there was nothing to be concerned about. She changed Autumns pull-up and CPI observed the child to be free from rashes and any marks or bruises.

Morse Clark, does not know anything about the allegations but he knows that the kids are always clean, whatever the allegations are there are bunch of crap. He said the kids are never home alone. The last time Autumn and Sebastian was at the house was two weeks ago. CPI and New Port Richey Officer met with Morse at North Bay Hospital, Morse stated its okay to discuss the allegations because he is tired of these allegations. The department continued to speak to Morse in his hospital room. Morse denied the allegations, he advised the last time he seen Autumn was last week. He said the kids come to visit Thursday-Sunday. He denied ever being alone with the kids he refuse to be in the bathroom with any of the children when they are taking their bath, he said he will not ever go in the bathroom with any of the children he said for this exact reason. He said that he has overheard Melissa and Donavin say the child's private part is hurting because her nana left her pull up on too long.

Robert Galli, is the adopted father of Nicholas. He said that he does not have any concerns when his child is with his mom in her care. He did not have any concerns for domestic violence or drugs however, he does not live in the house so he does not know what goes on when he's not here.

Sherri McCamon is a family neighbor, she stated there's an angry neighbor, she is mad because Melissa is dating Donovan now. Donovan and the neighbor were sharing a car but they no longer share car. And the neighbor is mad, Jessica Melendez,

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

is the mad neighbor. She said I'm sure there will be more calls to come in because she wants people to be on her side. There's no side to be on in the kids have nothing to do with their drama concerning a car they share.

Julie Edwards, a neighbor said her daughter is 17 and she was the one at the house when she took Melissa to get pizza for the kids 2 weeks ago. She denied that the kids are ever home alone. She said a neighbor in the apartment complex is angry and upset. She denies that Melissa's kids are ever begging for food, if it's something that Melissa doesn't have she can always ask her but that has not happened.

Jennifer Brophy, the biological mother of Autumn and Sebastian said she does not have any concerns for any child neglect or child abuse with her children in the care of Melissa and their father Donovan. She has no concerns for any domestic violence, or drugs and alcohol. She does not have any concerns for the kids being in the home alone, she said they are care for. She does not know what is going on she just knows that she was told to bring the kids early so that CP I couldn't meet with them. She describes Donovan and Melissa as good co-parents and she does not have any problems with either one of them.

PRIORS:
The family has six priors with the department none of the priors have been verified, allegations for physical injury, no indicator, medical neglect, no indicator. The most recent case in 2020 listed Donavin as the alleged perpetrator and the children listed Autumn and Sebastian with allegations of environmental hazards and inadequate supervision both no indicator, no services. Nicholas was the victim child in a 2020 allegation with household violence threaten child with Brandon listed as the alleged perpetrator case not substantiated.

FINDINGS:
Inadequate supervision- No indicator
Sexual Molestation - No indicator

SOURCES:
Melissa Galli/ Mother, Donavin Davis/Father, Morse Clark/ Maternal grandfather, Jennifer Brophy/biological mother, Julie Edwards/Neighbor, Sherri McCamon/ Neighbor, Robert Galli/ Father of Nicholas, Sebastian Davis/Child

ANALYSIS:
The children all deny any inappropriate touching. Sebastian denied being home alone and not having food. Collateral sources advised there is a disgruntled neighbor that is making complaints, sources are visible with the family and children and deny concerns.

V. Safety Analysis Summary

The children are deemed safe and no impending danger was identified. The children all denied allegations. Though the grandfather, Morse Clark, does have a child sexual abuse conviction from 1991, he is not ever alone or in a caregiving role of the children. LE unfounded their report and CPT provided an exception. The alleged victim child does not reside in the home and lives with her mother and visits her father in this household every other week. The mother, Jennifer Brophy, denied any concerns for sexual abuse. There was no evidence gathered through interviews and collateral sources to support any allegations of of inadequate supervision. No services needed.

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

IV. What is the extent of the maltreatment? What surrounding circumstances accompany the alleged maltreatment, precipitating events, history?

Allegations:

On May 21, 2020, law enforcement was called to the home due to a domestic violence call. Brandon hit Melissa; it is unknown

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

what they were arguing about. Nicholas was in the home asleep at the time of the incident. Brandon was arrested. There have not been prior domestics between Brandon and Melissa.

Maltreatment:
Mother's boyfriend, Brandon Egley was incarcerated for battery against the mother Mellissa Galli. Melissa advised Brandon threatened her in her bedroom with a BB Gun that was not capped with the orange tip; she said that he punched her in the ribs and hid her cell phone and keys. The mother ended up the relationship immediately after that and obtained an injunction against Brandon. Maternal Uncle and grandfather were not aware of what occurred because it happened in the bedroom. They are not aware of anything prior except that he is a liar.

Nature of the Maltreatment/Surrounding Circumstances:
The child, Nicholas Galli lives at home with his caregiver, Mellissa Halli. He has visitation with other caregiver, Robert Galli. Melissa and ex-husband share custody of Nicholas since he was born. Melissa advised that Nicholas is not her bio child. She and her ex-husband were trying to adopt him. They are in the process of a divorce and a custody battle. Robert has Nicholas every weekend from Friday at 3:30 PM until Sunday between four and six.
CPI was not able to interview the AP Brandon Egley as he was released from jail one day before the commencement of this investigation commenced and there was no other address for him than the one in the police report.

The incident of violence for what Brandon was incarcerated occurred one month before the commencement of the case.

The mother, Melissa Galli said she was "kind of dating" Brandon. Three weeks prior to May 21st they were talking. She began to notice that Brandon have been lying to her about him being in the military and his employment. While on Facebook she had contacted a lady who was an old friend of hers, she then found out her friend is the ex-wife of Brandon. On May 18th she and Brandon went to look at some homes and Weeki Wachee one of the homes was a $600,000 home. She said Brandon had made up a bogus story about how he was going to purchase this home for her cash money. On the 21st Brandon call to come over so that he could hang out with her and talk to her. Once Brandon came to the house she walked into her room Brandon follow her into her room, she said Brandon lock the bedroom door behind her. Nicholas was in his room sleep. She did not know however, Brandon had a gun in her closet that did not have an orange tip on it, so she had no clue that it was a BB gun. She tried to leave the room Brandon threatened to shoot her and to shoot Nicholas if she tried to scream or leave the Room. Brandon band begin to punch her in her ribs he then took her keys and her cell phone and head them so she could not leave the bedroom. She fell asleep eventually woke up around 8 am and told Brandon that she had to take her son to school if she did not she will go to jail. Brandon told her to take him to school come right back. At that time when she got Nicholas dressed left the house to come to school she then called law enforcement, explain to them what happened she also called her father and explains her father what happened. She then filed a report with New Port Richey police department and Brandon was arrested.

Morris Clark, maternal grandfather recalls his daughter and Brandon in the bedroom and he overheard a large bang. He asked the two if they were okay and Brandon said yes we are okay.

Austin Clark, maternal uncle, said he woke up to the cops being at the house. He said Nicholas was asleep to his knowledge. He said he is heavy sleeper, he does not recall any fighting he was asleep.
There are priors for inadequate supervision, medical neglect, and physical injury. There is no significant pattern and there have been no findings on priors. Locals shows the mother is linked to a 2018 domestic. She was also arrested for assault in 2009. AP Brandon has no criminal history that affect child safety.

Robert Galli, ex-husband stated that Melissa has a habit of picking up man and bringing them home around Nicholas. She met Brandon out in front of 7-Eleven in Pasco County and took him home. That just shows what kind of a person she is that she is, so desperate that she will pick up any man and take them home with her without really knowing that person or without concern that the person may be unsafe to be around Nicholas.

Faith Tura, cousin, said she does not have any concerns for Melissa caring for Nicholas, she denied any concerns for any drug or alcohol use. She denied having any concerns for any domestic violence in the home around the child. She described the relationship between Melissa and Nicholas as a great relationship she said Nicholas eats and she has no concerns for any

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

abuse or neglect.

Ms. McPherson, teacher of Nicholas advised she does not have any concerns for the child Nicholas, she denied any concerns for child abuse or neglect, she advised he comes to daycare clean and he looks happy and healthy.

Findings:
Not substantiated for household violence threatened harm.

Sources:
Melissa Galli/mother, Morris Clark, maternal grandfather, Austin Clark/maternal Uncle, Robert Galli/Mellissa's ex-husband, Faith Tura/cousin, Ms. McPherson/Nicholas' teacher, CCIS, priors and NPR LE Report.

Analysis:
This case is being close not substantiated for household violence threatens child. The mother's boyfriend engaged in a violent behavior against the mother while he was visiting the mother. The mother called the police and the boyfriend was incarcerated. The mother demonstrated protective capacities as she obtained a restraining order against the AP that was granted for one year.

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

Narrative

On 3/3/20 the caregiver struck Logan in the head for misbehaving. She said he was being aggressive. She has a history of hitting Logan and leaving marks or injuries on him. The caregiver has been told that she cannot put her hands on him. She has bi-polar and when she gets upset she will get into altercations with him and will hit him because she says she will not just sit there and let him hit her. Recently He was also holding a knife to his caregiver when he was talking about wanting to kill Nicholas. There are concerns for both the caregiver and Logan's safety due to the violence between each other.

There is concern because Logan is extremely violent, he jumps out into traffic, and disassociates. He is threatening the elderly father of the caregiver's husband. He was just started on Seroquel during his baker act. Logan has repeatedly hurt Nicholas by leaving marks and injuries on him. He has pushed him down, knocked him over, and hit him. Nicholas was just baker acted for homicidal ideation. He was saying he wanted to kill Nicholas because he wants to get rid of him so he can be the only child. He also said he was having sexual fantasies about stabbing children. There is extra concern due to Logan being sexually abused by his father.

There is domestic violence in the home. The caregiver's husband has been arrested multiple times for domestic violence on the caregiver. One time Logan stepped in between the caregiver and her husband right before he tried to strike her. A few days ago the husband tried to run the car off of the road with Logan in the car. Nicholas was not in the car for that incident he was in the hospital with an illness.

Nicholas has PTSD, psychosis, and possibly other mental health. He is very manipulative. He is not rooted in reality and is somewhere else. What he says cannot be trusted.

IV. What is the extent of the maltreatment? What surrounding circumstances accompany the alleged maltreatment, precipitating events, history?

Summary of Allegations

On March 3, 2020 The Florida Abuse Hotline received a report alleging that the caregiver struck Logan in the head for misbehaving. She said he was being aggressive. She has a history of hitting Logan and leaving marks or injuries on him. The caregiver has been told that she cannot put her hands on him Recently he was also holding a knife to his caregiver when he was talking about wanting to kill Nicholas. There are concerns for both the caregiver and Logan's safety due to the violence between each other. There is concern because Logan is extremely violent, he jumps out into traffic, and disassociates. He is threatening the elderly father of the caregiver's husband. He was just started on Seroquel during his baker act. Logan has repeatedly hurt Nicholas by leaving marks and injuries on him. He has pushed him down, knocked him over, and hit him. Nicholas was just baker acted for homicidal ideation. He was saying he wanted to kill Nicholas because he wants to get rid of him so he can be the only child. He also said he was having sexual fantasies about stabbing children. There is extra concern due to Logan being sexually abused by his father. There is domestic violence in the home. The caregiver's husband has been arrested multiple times for domestic violence on the caregiver. One time Logan stepped in between the caregiver and her

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

husband right before he tried to strike her. A few days ago the husband tried to run the car off of the road with Logan in the car. Nicholas was not in the car for that incident he was in the hospital with an illness.

Household Composition
In the home resides the caregiver; Melissa Galli, the paramour; Jason Eccles, grandfather; Morise Clark the child; Nicholas Galli (2) .The Child Logan Prater (13) is no longer in the home due to a change of placement.

Maltreatment
There were concerns the child's caregiver was being physical with him and that there is domestic violence occurring. The child was hitting his head on the washer and the caregiver placed her hand between the washer and the child's head to prevent him from hurting himself. The caregiver was not trying to cause harm to child but prevent an injury. The child was placed with the caregiver and then removed, and had an emergency change of placement, due to his behaviors. His behaviors were too difficult for the caregiver to handle and were putting the other child in the home in danger. The child was then placed in a different home. There was a previous domestic violence incident and was said to be the only incident. The child is no longer in the home.

Nature of Maltreatment

Logan Prater (13) presented with no physical marks, bruises, and/or injuries indicative of abuse. The child states he was recently placed under a baker act a few days ago because he was told that he pushed a kid down. Once released the foster mother had introduced new rules and he did not agree and felt they were unfair and biased. He then verbalized to the foster mother the rules wasn't fair so she got upset put him in the corner and smacked him beside his head he then sat up against the wall as told; the foster mother then smacks him again beside the head which really hurt. The foster mother then called in the report to law enforcement and the case manager. Rules wasn't fair as he couldn't go past the kitchen and the other kids were allowed to and he wasn't allowed to hang around the other kids. Once case manager arrived the foster mother was yelling at the case manager. She has hit him in the past with her hand mostly. She was also aggressive with the foster father by throwing things at him such as metal. Child states the foster parents are physically aggressive with each other, by pushing and shoving and hitting, 1-2x a week and has been occurring since his placement in the home. Foster mother is physically aggressive with him since he was last baker acted in Sept 2019. Child denies the allegations of the foster father running off the road with him in the car. He and Nicholas argue all the time, denies he has been physical with Nicholas but states Nicholas has hit him. Child denies he has jumped out in traffic and states on that date the foster parents were trying to grab him but he did not wish to be touched and told them but they continued so he put one foot back onto the road; he denies any traffic was passing at the time. Child advised he doesn't like to be touched after being bullied so much in the past.

CPIT met with the child Nicholas Galli (2) who appeared to be clean and free of any marks or bruises. He presented to be very shy. He was unable to be interviewed due to his age and vocabulary.

The caregiver Melissa Galli was non relative placement for the child Logan Prater, she reported that she is the caregiver to two children Logan Prater (13) and Nicholas Galli (2). The child Logan was removed from her home on March 2, 2020 due to his behaviors. The child was then placed in different placement. The child Logan is said to be aggressive and hurts the other child in the home. She reported that on March 3, 2020 Logan was trying to hurt Nicholas and others in the home. He started to hit his head on the washing machine and that is when Mellissa placed her hand between his head and the washing machine so he would not hurt herself. She denied that she was hitting him but strictly trying to prevent him from hurting himself. She then called his case manager and law enforcement. The child Logan has been previously baker acted in May 2019. She advised Logan gets in these moods if he does not get his way and acts out. She reported he has heled up knives before and pushed and his the child Nicholas. She reported that he is very difficult to handle and is a threat to her family. She reported she has told the child Case Manager multiple times about his behaviors. She reports her normal form of discipline is taking way electronics and usually redirecting card. She denied she is physical with the children, denied spanking the children. She advised that there was a domestic violence incident in November with Jason Eccles in the past, where he pushed her. She reported here has not been any other incidents since, and they will get into small "normal couple" incidents. She reported that Jason has never pushed the child in the road. She stated there was a time where Logan was running into the road and Jason grabbed him by the arm to prevent that from happening. She reported she has tried her best to provide for the child Logan but believes a different placement for him would be better, because she feels her family is in danger when Logan was in the

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

home.

CPI spoke to the paramour Jason Eccles who resides in the home. He denied that he or Mellissa are physical with the children. Normal discipline is timeout. He reported that on March 3, 2020 Logan was acting out and he starting to hit his head on the washing machine and Melissa put her hand between the washer and the child's head. He reported she was trying to prevent him from getting hurt. He reported that he and Melissa have has one DV incident in the past and nothing since.

Morise Clark resides in the home and is Melissa's father. Morise denied any knowledge of any physical discipline going on in the home. He denied that Melissa gets physical with the children. He denied anyone getting physical with the children. He advised he has no concerns for the children in the care of Melissa.

CPIT spoke to Dawn who is Nicholas teacher at Story Book Too preschool and she reported no concerns for the child or the mother. She has never seen anything alarming and the child appears to be well taken care of.

Pediatric Associates
The children both attend Pediatric Associates. The child Nicolas was last seen on March 12, 2020. He is up to date on visits. There are no concerns for abuse or neglect for the child. The child Logan was last seen at the pediatric January 28, 2020. He is due for a well check in July. There are concerns of abuse or neglect. The further information or concerns.

New Port Richey Police Department 20-00876
There was no criminal action taken in this case. The children did that appear with any injuries. It appeared that the caregiver was trying to prevent the child form hurting himself.

CPI spoke with Logan's case manager, Faith Frankel. Faith states that there were concerns for the other household members due to Logan's behavior. He has been violent towards the others and has threatened them often. He was Baker Acted previously after threatening others with a knife. Due to his behavior, Faith, removed Logan from the home on March 3, 2020 and an emergency hearing was heled.

Priors
The family has an extensive Departmental history linked. Jason's history as a child is insignificant with only two reports of him as only a child in the home. However, in 2002, Jason was the parent/caregiver on a report for the death of his first son, though there were no indicators. The child passed away while sleeping and the autopsy was indeterminate. The history then jumps to 2012 against Logan's mother, Jennifer Bradley. That year, there were three reports against the mother, culminating in his removal for verified findings of environmental hazards, inadequate supervision, and substance misuse, as well as not substantiated findings of sexual abuse. He was placed with an aunt, Courtney Rutledge, who had reports against her from 2014 and 2019 with concerns for Logan. In 2019, Courtney refused to continue to care for Logan, labeling him a "budding psychopath," which led to an emergency placement with Melissa and Jason. Nicholas' history also shows that he is not Melissa's child but his mother, April Hammond, is not involved. Implications for child safety based on this history are moderate. The current caregivers do not have much against them, though consideration is given regarding growing concerns for the older child's mental health.

Findings: The case is closing with no findings of environmental hazards, no findings of physical injury and no findings of household violence threatens child.

Sources: Caregiver; Melissa Galli, the paramour; Jason Eccles, grandfather; Morise Clark the child; Nicholas Galli (2) child Logan Prater (13) Case manager; Faiyth Frankel, New Port Richey Police Department , Pediatric associates, Dawn; Teacher, CPI observations.

Analysis: There are no signs to indicate there is physical abuse occurring. The child was hitting his head on the washer, because he was mad and the caregiver placed her hand between the washer and the child's head to prevent him from hurting himself. The caregiver was not trying to cause harm to child but prevent an injury. The child was placed with the caregiver and then removed, and had an emergency change of placement, due to his behaviors. His behaviors were too difficult for the

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

caregiver to handle and was putting the other child in the home in danger. The child was then placed in a different home. There was a previous domestic violence incident which is said to be isolated. The child, Logan Prater is no longer in the home. The child's basic and essential needs are being met.

V. Safety Analysis Summary

The children are deemed safe. There are no signs to indicate there is physical abuse occurring. The child was hitting his head on the washer, because he was mad and the caregiver placed her hand between the washer and the child's head to prevent him from hurting himself. The caregiver was not trying to cause harm to child but prevent an injury. The child was placed with the caregiver and then removed, there was an emergency change of placement, due to his behaviors. His behaviors were too difficult for the caregiver to handle and was putting the other child in the home in danger. The child was then placed in a different home. The child, Logan Prater is no longer in the home.There was a previous domestic violence incident which is said to be isolated. The child's basic and essential needs are being met.

Narrative

On Wednesday 09-18-2019, it was reported Nicholas fell while running down the sidewalk, which caused him to sustain a knot on his head and cuts on his face, however, Nicholas has no other injuries on his knees, hands, arms or any other part of his body that would indicate he fell on a sidewalk. As a result, there are concerns that Nicholas' injuries are not consistent with the explanation provided for the injuries. Nicholas has a raised knot the size of golf ball on the center of his forehead. The knot appears to be a red and white circle. It was also stated to be the size of an egg. Nicholas also has a cut on his nose and a cut between his nose and his upper lip. There is an additional cut on his chin. This is not the first time that Nicholas has gotten a lump on his head while in Melissa's care. Last month, Nicholas sustained a knot on his head and it was reported that he had fallen off Melissa's bed. At one point, Nicholas woke up from sleeping and was crying out for his mother. It was stated that Nicholas indicated that the mother had hit him and hurt him. It is unclear if this was during the same time period as Nicholas sustaining the marks on his head. Nicholas knows Melissa as his mother.

In the past, Melissa has spanked Nicholas hard. Melissa attempted to hit Nicholas on his behind and he moved and she hit him on his back near his waistline instead. As a result, Nicholas sustained redness on his lower back/waistline area.

There are concerns for Nicholas because he frequently goes to the hospital. Melissa has taken him to the hospital recently because she thought he was having a seizure.

IV. What is the extent of the maltreatment?
What surrounding circumstances accompany the alleged maltreatment, precipitating events, history?

The household consists of Melissa Galli (28), Jason Eccles (37), Morse Clark (56), and the children Logan Paul (12) and Nicholas Galli (2).

Allegations:
The department received a report with concerns for Physical Injury on 9/19/19. Allegations stated that it was reported that child Nicholas fell while running down the sidewalk. It was reported that the child had injuries that were inconsistent with the explanation provided for the injuries.

Extent of Maltreatment:
On initial contact, CPI and Law Enforcement made contact with the maternal grandfather, roommate at the time and her two children. Melissa, Jason and the victim child were not initially at the home. They returned to the home shortly after CPI's arrival when the grandfather notified them of the department being at the home. Nicholas was observed with a cut to his nose and upper lip and a mark on his forehead. The child's injuries were documented on initial contact. A head to toe was completed on the child due to the allegations in the report and the child presented with no additional marks/bruises to his body.

The mother, Melissa Galli, reported that on Wednesday, the child was running on the sidewalk and fell, scrapping his nose and hitting his head. He had his hands behind his back like "superman" and that is why she feels the child does not have any other injuries. The mother's paramour, Jason Eccles, reported that he was outside when the child fell, and provided the same account to the story as the mother. The maternal grandfather Morse Clark provided the child was running with his hands behind his back and tripped and fell. He said the mother asked him if he needed to be taken to the hospital in which he did not feel at the time that was necessary. The maternal grandfather provided the child cried for a very short period of time, and after he was cleaned up from falling, he wanted to return outside to play.

The mother provided medical paperwork from the child's hospital visit from early in the day. The child was diagnosed with an "abrasion" on 9/19/19 at Trinity Medical Center. The mother provided the child already had an appointment with his pediatrician on 9/20/19 and plans to follow up with them during this appointment. The case was staffed with CPT on 9/20/19 in which was staffed for an exception. Zuzanna Balter, Case Coordinator, reported that after review of the photos submitted to them, the nurse practitioner did not feel that the child needed to be seen by the Child Protection Team. A law enforcement report was taken by New Port Richey Police Department, Officer Toldo in which no criminal action was taken.

Surrounding Circumstances:
Melissa Galli is Nicholas Galli's legal guardian and she has temporary custody of the child. The biological mother, April Hammond (Murray), signed over custody of the child to Melissa and her ex-husband Robert as she was not in a position to care for the child at that time. Since the child has been placed in Melissa and Robert's care, they have divorced and Melissa now lives with her fiancé and his nephew who he has custody of. The child resides full-time with Melissa and Robert has no rights to the child according to custody paperwork that Melissa has for Nicholas. An injunction for cyber stalking was filed on 9/20/19 by Melissa against Robert. There have been numerous injunctions filed by both parties for domestic violence and

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

cyberstalking.

Priors:
In 2019, there were no indicator findings for medical neglect. It was determined that the biological mother is not involved in Nicholas' life and Melissa (current caregiver) is meeting the child's needs medically at this time. In 2018, there were no indicator findings for inadequate supervision naming Robert Galli as the alleged perpetrator.

Findings:
No Indicator for Physical Injury.

Sources:
Melissa Galli (caregiver), Jason Eccles (caregiver), Morse Clark (household member), Robert Galli (Melissa's ex-husband), Jovanna Adams (CPI), Juana Matos (Melissa's friend), prior history, CPI Observations.

Analysis:
There is no evidence to support that the child has been abused or neglected. The accounts of the incident that took place with the victim child were all consistent when interviews were completed. The child's injuries were documented and CPT reviewed the photos taken of the child's injuries and advised that he did not need to be seen by their team. Law enforcement has taken a report, but no criminal actions are being taken at this time. The mother appears protective of the child as she took the child to the hospital and his pediatrician after the incident occurred.

V. Safety Analysis Summary

There is no evidence to support the allegations of physical injury at this time. After interviewing the caregivers and household members, it appears the child fell while running on the sidewalk outside of the residence. The child was seen by a medical professional the next day in which they documented the child had "abrasions" and no follow up actions were identified. At this time, the children are safe in the care of their caregivers Melissa Clark and Jason Eccles. No services are needed.

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

Narrative

The mother claims the child fell today while standing hitting the back of his head. The mother claims he was acting lethargic and not acting himself after the fall. She also claimed he was having seizure like activity so she took him to an ER today. He was stable and drinking by the time he was hospitalized. Hours later a CT scan revealed a frontal lobe brain bleed which was a concern since the mother claimed he fell and hit the back of his head today. The mother eventually admitted that he also fell three days ago off a bed. She claims she forgot about this fall but she admitted that he has been off balance and falling since that alleged fall three days ago. There are concerns for the mother forgetting about the child's fall three days ago and the associated symptoms as well as not getting medical attention for that fall.

IV. What is the extent of the maltreatment?

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

What surrounding circumstances accompany the alleged maltreatment, precipitating events, history?

Allegations:

There are allegations that the mother claimed the child fell while standing and hit the back of his head. The mother claimed he was acting lethargic and having seizure-like activity so she took him to the emergency room. While hospitalized a Computer Tomography (CT) scan revealed a frontal lobe brain bleed which was a concern since the mother claimed he hit the back of his head. Allegations include that the mother eventually admitted that he has been off balance and falling since the alleged fall three days prior. There are concerns for the mother forgetting the child's fall three days ago and the associated symptoms as well as not seeking medical attention for the first fall.

Household Members:

Nicholas Galli, 1, victim child
Melissa Clark, 27, adoptive mother and alleged perpetrator
Robert Galli, 58, adoptive father
Morse Clark, 55, adoptive maternal grandfather and non-caregiver

Maltreatment:

The investigation was commenced at St. Joseph's Hospital in Hillsborough County by Hillsborough CPI where the child was transported from Trinity Medical Center. CPI made contact with mother, Melissa Clark, and the child, Nicholas Galli. The child was observed to be of average height and weight for his age. The mother stated that early on the morning of May 22nd, 2018, around 3:00 am, she and her fiancé, Robert Galli, was in the bed with the child between them. The mother stated Mr. Galli got out of bed to use the bathroom and the child rolled over and fell out of bed, striking his head on the floor. The mother stated she immediately woke up and grabbed the child. The mother stated she did not notice it at the time, but she later found a small bruise on the right side of his forehead. That morning the mother stated she took the child to his pediatrician to have him checked. Per the mother, the pediatrician said the baby was fine.

Additionally, the child was said to have been stumbling around on May 24th, 2018 when he attempted to reach for a toy and fell back, striking the back of his head on the floor. The mother stated the child appeared to shake and she was afraid of possible injuries so she contacted emergency medical services around 4:30 pm that day. The child was transported to the emergency room in Trinity. The mother advised she did tell the doctor and nurse about the incident on May 22nd, 2018 and never attempted to keep anything from them. The mother stated the child was seen after that initial fall and the pediatrician had no concerns at that time. The mother's home was observed the following day by Pasco CPI and was found to be clean and appropriate. The child was observed to be happy and free of any marks or bruises indicative of abuse or neglect. The dime sized bruise from the fall was observed.

Nature of Maltreatment:

According to Melissa Clarke, Nicholas' biological mother is a woman named April Hammond, who currently resides in North Carolina. April Hammond is a friend of the Melissa's, who delivered the child in Florida and then surrendered the child to Melissa to raise as her own. Melissa advised that Nicholas was April's first child and she did not want him. Melissa had temporary guardianship papers signed by April with no termination date. The guardianship papers were observed and obtained by Pasco CPI. Melissa advised that Nicholas will be her first child.

Nicholas was assessed by the Child Protection Team on May 29th 2018 for a medical evaluation and specialized interview. Nicholas was seen out of concern for the head injury he sustained. The medical exam was completed by Dr. Douglass Hasell. Assessment of findings were met with negative results for abuse or neglect; the head injury was determined to be accidental and fully resolved by the time of the assessment. It was further determined that such minor head injuries are common in

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

toddlers of Nicholas' age. A specialized interview was conducted with Melissa and the following recommendations were made to ensure Nicholas' safety at home: safe sleeping practices and following up with a pediatrician.

According to a neighbor who wished to remain anonymous, the Galli's moved into the neighbor around November of 2017. The mother in the home appears to babysit the child as she can see her outside playing with him on occasion. The neighbor stated that child seems well supervised. The neighbor did not have concerns for the child's safety or the family.

According to Roy and Jacqueline Piester, maternal aunt and uncle, they babysit Nicholas twice a week so that Melissa can take her father to his various doctor appointments as he does not drive. Roy stated that Melissa and Robert are fantastic parents. He advised that they smoke cigarettes but they do not smoke in the house and the home never smells of cigarette smoke to him. Jacqueline advised that Melissa is an attentive and loving mother and Nicholas is well provided for. Roy advised that Melissa and Robert have a good relationship. Jacqueline stated that Melissa is the best thing that ever happened to Robert. Jacqueline advised the parents drink occasionally and have no problems with alcohol.

Summary of Priors:

Robert Galli is listed as an alleged perpetrator on an investigation in 2014 that was closed with not substantiated findings of family violence threatens child and no indicators of substance misuse-prescription drugs. Services were offered to the family at that time and declined. Melissa Clarke has no prior investigations as a parent or victim child. Robert and Melissa were listed as household members on an investigation that was closed with no indicators of physical injury.

Findings:

Medical Neglect - no indicator

Sources:

CPI observation, Melissa Clarke/adoptive mother, Robert Galli/adoptive father, Morse Clark/adoptive maternal grandfather, Douglass Hasell/Child Protection Team, Anonymous neighbor, Roy and Jacqueline Piester/maternal aunt and uncle

Analysis:

Nicholas' head injury was determined to be accidental and the mother took appropriate protective action by having him seen by the pediatrician and by emergency medical staff. The mother's explanation of the incidents that lead to Nicholas' injuries were consistent and plausible.

V. Safety Analysis Summary

The child's head injuries were determined to be accidental and not serious. The mother took protective action by seeking medical care after both falls. Safe sleeping arrangements were discussed with the parents.

A person who knowingly or willfully makes public or discloses to any unauthorized person any confidential information contained in the Florida Safe Families Network is subject to the penalty provisions of s. 39.202.

SUPPORT DOCUMENTS: None

RECONSTRUCTION: It is alleged that Donavin Davis, the victim`s father, shaved off Autumn`s hair for punishment, then made her take an ice cold shower. It was also alleged that Melissa lifted up Autumn`s skirt to look at her vagina. The intake report also advised there was domestic violence in the home, with Melissa being struck by Donavin.

CRIME SCENE: 6715 Hone St, New Port Richey, FL 34653.

INTERVIEW: Melissa Davis (offender) AWF, DOB: 05/25/1991

I made contact with Melissa in the front yard of 6715 Hone Street, where she provided me with the following statements: The reason why Autumn wanted her head shaved was because her brother, Sebastian also had his head shaved. She also noted she was informed of this by Donavin after she returned from out of town. Melissa advised due to a parenting plan, she is not allowed to be at the residence while Autumn and Sebastian are visiting Donavin. Melissa also was in Fort Myers when this allegation of her lifting up Autumn`s skirt was mentioned, and the parenting plan was long since in place at this time. Melissa advised that there is no physical altercations that take place in the home, in front of the children or otherwise. She stated that her and Donavin work together and sometimes argue over small things but have a happy relationship.

INTERVIEW: Donavin Davis (offender) AWM, DOB: 05/14/1994

I made contact with Donavin, and he advised he was the one that shaved Autumn`s head and he did it because she asked for it due to her brother Sebastian having all of his hair shaved off. Donavin believed the allegations regarding Autumn taking an ice cold bath and Melissa lifting up her skirt are fraudulent and made up by Jennifer Brophy to get him in legal trouble. He advised that Autumn is old enough to take showers and baths by herself and he has never used water as a type of punishment ever. Donavin also advised there is no domestic violence in the home. Donavin showed me a video of the head shaving incident and it shows Autumn smiling the whole time. He also showed me text messages of Jennifer asking Donavin why he shaved her head, but did not wish to provide the files at this time.

INVESTIGATION: On 9/29/2022, around 1816 hours, I was dispatched to 6715 Hone Street, in reference to a CPI investigation.

I made contact with CPI F. Caminero who provided a summary of the intake regarding this incident. CPI Caminero also advised she made contact with Autumn prior to this incident, who advised she had her hair shaved because her brother had his hair shaved by Donavin.

After I spoke to CPI F. Caminero, we changed location to 6715 Hone St, New Port Richey, FL 34653 and made contact with Melissa and Donavin and conducted the above listed interviews.

It should be noted that Donavin did answer all questions, but he was uncooperative in certain aspects, and consistently asked why questions were relevant to this case. He also made statements to Melissa not to answer certain questions, but Melissa told him to be respectful and cooperate.

While I was on scene, I observed Nicholas inside the residence. Nicholas appeared happy and healthy and did not see

any signs of abuse. The other children, Sebastian and Autumn, were not home at the time of our investigation due to Melissa being home, and they were currently in custody of Jennifer.

The text messages that Donavin showed me were from Jennifer, with Donavin responding. Jennifer asked Donavin why he shaved Autumn's hair without her permission, and stated she looked horrible. Donavin replied that Autumn asked to have half of her head shaved because her brother had his hair shaved off, and Autumn wanted to have fun with her brother. Donavin also stated that he knew the haircut was strange but it made Autumn happy, so he did what she asked and hair can easily grow back.

Due to the statements provided, the video indicating that Autumn was happy and wanted her hair shaved, text messages of Donavin declaring his intent behind shaving half of Autumn's hair, and Melissa being out of county during this incident, I found these allegations of child abuse to be unfounded.

A wants and warrants check on all parties met with negative results.

No further action.

ICR: 1 X $26.00 = $26.00

RELATED CASES: None
STAT DATA: None
BWC ACTIVATED: Yes
SUPPORT DOCUMENTS: None

RECONSTRUCTION: Per the Intake Report: "On 6/12/2022, the mother punched Nicholas while they were at the grocery store. Nicholas was acting out, so the mother punched Nicholas in the head. She then told him something, details unknown. The mother then slapped Nicholas so hard that his face was red. The mother also grabbed and squeezed him by the arm, and he could be heard saying "Mommy, let go, you`re hurting me". The mother then told Nicholas that "if you don`t stop, I`m going to leave you here". The mother then left Nicholas in the middle of the aisle as he was crying. On 6/14, there was a mediation that took place and mention of the charges being dropped and criminal charges being closed. There is a concern that the mother will be allowed around the children without a safety plan in place. The mother still beats the children and gets physical with them. The mother and father`s actions got Autumn kicked out of school. The father is trying to take the children away from the mother. When the children are with the father, they are in danger because the father gives them medicine to go to sleep. The mother is getting ready to leave the state with Nicholas as she is out on bond. There is a court order in place that states that the mother cannot be around the children, though she is still trying to come around the children. The children visit the father on the weekends and Nicholas is with him now."

It should be noted, there was an additional allegation, which was not included in the above listed intake. This allegation stated Nicholas was unrestrained in a Jeep Wrangler and almost fell out while the vehicle was in motion.

CRIME SCENE: Various areas located within the west side of Pasco County.

INTERVIEW: Melissa Davis (offender) AWF, DOB: 05/25/1991
I made contact with Melissa in the front yard of 6715 Hone Street, where she provided me with the following statements: On 06/12/22, she went to Publix to pick up an Uber Eats order she was delivering. While she was there, she observed Jennifer Brophy (Nicholas`s biological mother), who immediately left the store. She did not have Nicholas with her, as he was in Pinellas County at the time of the incident. She believed Jennifer was making fraudulent reports to DCF because she was vindictive. The incident about the Jeep Wrangler had nothing to do with Nicholas. She and Donavin were riding in their neighbor, Brittnay Hartzell`s, Jeep, while Brittany picked up her child. While they rode in the vehicle, Brittany`s child was properly seat belted in and never fell out. She does not beat Nicholas and no one has medicated him.

INTERVIEW: Brittany Hartzell (involved other) AWF, DOB: 09/14/1976
I made phone contact with Brittany, where she provided me with the following statements: She previously had driven Melissa and Donvain in her 1988 blue Jeep Wrangler. While they drove in the Jeep, she picked up her child and brought him home from daycare. Her child was properly seat belted in and never almost fell out of the vehicle.

INTERVIEW: Donavin Davis (involved other) AWM, DOB: 05/14/1994
I made contact with Donavin in the front yard of 6715 Hone Street, where he provided me with the following statements: He did not beat or medicate Nicholas. From the dates of 06/10/22 through 06/19/22, Nicholas was in Pinellas County. Since Nicholas was in Pinellas County, it was impossible for him to be with Melissa at a Publix in Pasco County. He believed the allegations about physical abuse within the Publix were fictitious and made by Jennifer Brophy. He believed the allegations about Nicholas almost falling out of the jeep were fraudulent and made by Detective. C. Sekeres. He believed Detective C. Sekeres made these allegations because he saw Detective C. Sekeres in a gas station parking lot, while he was riding in the jeep. When he saw Detective C. Sekeres, he made sure they immediately left the parking lot, because he felt the detective was vindictive.

INVESTIGATION: On 06/30/22, around 1828 hours, I was dispatched to 6715 Hone Street, in reference to a CPI investigation.

Upon my arrival, I made contact with CPI F. Caminero, who provided me with the above listed intake report. CPI F. Caminero also informed me, she has had an open investigation with Melissa and Donavin for an extended period of time. Due to this, she had already confirmed Nicholas was not in their care and custody on the dates mentioned in the allegations, therefor she believed the allegations were unfounded.

After I spoke to CPI F. Caminero, we made contact with Melissa and Donavin and conducted the above listed interviews. While I conducted my interview with Melissa, she called Brittany and allowed me to conduct the above listed phone interview.

While I was on scene, I observed Nicholas inside the residence. Nicholas appeared happy and healthy and did not see any signs of abuse. Nicholas refused to come outside and talk to me.

It should be noted, Donavin wanted an investigation initiated against Detective C. Sekeres and Jennifer for false reports. I was unable to see who reported the incident to DCF, as they requested to remain anonymous.

Due to the statements collected, I was unable to substantiate probable cause. In addition to the statements provided by CPI F. Caminero, I request this case be placed as inactive.

A wants and warrants check on all parties met with negative results.

No further action.

Physical Char

RELATED CASES: NONE
STAT DATA: NONE
BWC ACTIVATED: YES (except juvenile victim interviews)
SUPPORT DOCUMENTS: NONE

RECONSTRUCTION:

It is alleged that on 06/12/2022, the suspect aggressively grabbed and hurt the victim, who is the suspect's 9 year-old son. Any injuries were unknown. It was also alleged that on 06/14/2022, the same suspect allowed the victim to be unsecured and hanging from a vehicle while it was in motion. The allegation stated there is continued physical violence against another two victims, who are the suspect's 4 and 6 year-old step-children.

CRIME SCENE:

The exact locations are unknown, but the 06/12 incident was alleged to have occurred at an unknown store and the others are assumed to have occurred at the single-family home at 6715 Hone St, New Port Richey, FL, 34653.

INTERVIEW:

I spoke with Sebastian Davis who advised he did not remember the last time he saw dad, but knew he is with mom for 11 days and dad for 2 days. Sebastian stated he did not know when the last time he saw Melissa either. Sebastian said when they get in trouble at dad's house he, Nicholas, and Autumn are sent to their rooms. When asked if mom, dad, or Melissa ever hit him, Sebastian said no, but Benjamin tried to attack him once. It is unknown who Benjamin is. Sebastian said no one hits him when he gets in trouble. Sebastian said Melissa does not hit Nicholas. Sebastian advised he does not like going to dad's house because he does not have Youtube channels.

INTERVIEW:

I spoke with Autumn Davis who advised she has been with mom for 11 days and is with dad for 2 days. When asked how she knew that, Autumn said her mom told her one night. Autumn stated when she gets in trouble at dad's house she goes to her room and she is not hit when she is in trouble. Autumn stated she has not seen Nicholas get hit. Autumn stated she did not see Nicholas today because she has been with her mom. When asked if Nicholas sits in a car seat or a regular seat while they are in the car, Autumn originally said a regular seat, but then corrected herself and said car seat. Autumn stated she has never seen Nicholas swinging outside of the car.

INTERVIEW:

I spoke with Jennifer Brophy who advised the kids were at Donavin's house last weekend, which would have been the weekend beginning on 06/03. Jennifer said the kids are only with Donavin every other weekend and will go back to his house this Firday. Jennifer stated she does not really know anything about what kind of discipline is used at Donavin's house. Jennifer said Autumn once told her grandma that she was sent to her room for the night when she dug in the backyard, but that was the only thing she had heard. Jennifer stated the only time she heard about something physical occurring was a few months ago when Autumn told her Nicholas slapped Sebastian, so Donavin slapped Nicholas. Jennifer advised she has not noticed any marks or bruises on the kids recently. Jennifer advised the only time she had seen the kids in Donavin's car was around February when they had dental work done. Jennifer stated Donavin had all three children in the car, but only had two car seats. Jennifer said she had never heard anything about the kids swinging from Donavin's car.

INVESTIGATION:

On 06/14/2022 at approximately 2038 hours, I responded to 7335 Bramblewood Dr, Port Richey, FL, 34668 in reference to a CPI child abuse.

Prior to arrival, I met with CPI Caminero who provided me with the two DCF intake reports.

The first intake report (2022-142287-08) stated the following:

On 06/12/2022, the mother punched Nicholas while they were at the grocery store. Nicholas was acting out, so the mother punched Nicholas in the head. She then told him something, details unknown. The mother then slapped Nicholas so hard that his face was red. The mother also grabbed and squeezed him by the arm, and he could be heard saying "Mommy, let go, you're hurting me". The mother then told Nicholas that "if you don't stop, I'm going to leave you here". The mother then left Nicholas in the middle of the aisle as he was crying.
On 06/14, there was a mediation that took place and mention of the charges being dropped and criminal charges being closed. There is a concern that the mother will be allowed around the children without a safety plan in place. The mother still beats the children and gets physical with them. The mother and father's actions got Autumn kicked out of school. The father is trying to take the children away from the mother. When the children are with the father, they are in danger because the father gives them medicine to go to sleep. The mother is getting ready to leave the state with Nicholas as she is out on bond. There is a court order in place that states that the mother cannot be around the children, though she is still trying to come around the children. The children visit the father on the weekends and Nicholas is with him now.

The second intake report (2022-142287-09) stated the following:

Today, 06/14/22, the mother was in a Jeep with Nicholas, the father and a neighbor. The mother was allowing Nicholas to hang out the side of the jeep while it was moving, and Nicholas almost fell out of the jeep. Nicholas was not strapped in and he was not in a car seat. The neighbor laughing about it and went faster. There are concerns that Nicholas is going to get hurt or killed in the care of the parents.

The intake reports only listed Donavin Davis and Melissa Davis as mom and dad for all three children, Autumn Davis, Sebastian Davis, and Nicholas Galli. For clarification, Donavin is the biological father of Autumn and Sebastian, and the step-father of Nicholas. Melissa is the biological mother of Nicholas, and the step-mother of Autumn and Sebastian. Autumn and Sebastian's biological mother is Jennifer Brophy, and Nicholas' biological father is Robert Galli.

I am familiar with this family due to previous reports I have taken, and CPI Caminero advised me she has been involved with the family for quite some time and this is intake report number 8 and 9 involving the family.

Caminero advised Nicholas is currently in Pinellas County with Robert, whom she already spoke with. According to Robert, he has had Nicholas with him since Friday (06/10), which would conflict with what the intake reports state. Caminero stated she already requested Pinellas CPI and law enforcement respond to Robert's residence to interview Nicholas reference the allegations. Caminero stated law enforcement was needed here today for the allegation that Melissa is still getting physical with Autumn and Sebastian. Caminero advised that per the custody agreement, Melissa was not allowed to be present when Donavin had his time with Sebastian and Autumn.

Upon arrival, I made contact with Jennifer Brophy who allowed us to speak with both children in private.

I spoke with Sebastian Davis, who provided the above listed interview.

Sebastian had a scrape on his right knee, which he said was from him falling while riding his bicycle.

I spoke with Autumn Davis, who provided the above listed interview.

Autumn had two small band aids on her left ankle, which she stated was from her falling while playing at the pool.

I did not observe any other marks or injuries on either child. CPI Caminero photographed both children.

I spoke with Jennifer Brophy, who provided the above listed interview.

CPI Caminero stated she had not received a response from the Pinellas County CPI on what Nicholas said. Caminero said she has to wait to see what Nicholas said before she can make contact with Melissa. Caminero said she intends to respond to the Hone St. address tomorrow with law enforcement to conduct an interview with Melissa reference the allegations.

All of the children will remain where they are until the weekend, so there is no concern for any further possible victimization at this time.

This case will remain pending active until contact is made with Melissa.

A wants and warrants check on all parties met with negative results.

No further action.

Physical Char

RELATED CASES: No
STAT DATA: No
BWC ACTIVATED: Yes
SUPPORT DOCUMENTS: No

RECONSTRUCTION: The following is a copy of the intake report provided. "The stepmother keeps the children in their rooms all day on the weekend. The stepmother will lock the door. The stepmother will not allow the children to eat or drink until dinner time. All the bruising on the children is from the stepmother hitting them with belts and hangers. The stepmother gives the children medicine to go to sleep as well as the stepmother puts medicine inside Autumn`s vagina.In the past, the stepmother has beat a child that lives with her and put that child in the hospital. This was in January. The child sustained a broken leg because of it."

CRIME SCENE: Residential home located at 6715 Hone Street, New Port Richey.

INTERVIEW: Melissa Davis (Offender): Contact was made with Melissa who was uncooperative with the investigation and refused to have CPI speak with her child, Nicholas Galli. Throughout our time at the residence, Melissa and Donavin Davis were more focused on questioning CPI`s investigative procedures and were hostile throughout the whole encounter.

INTERVIEW: Nicholas Galli (Other): Contact was made with Nicholas who refused to speak about the incident and was constantly arguing with CPI Caminero.

INVESTIGATION: On 05/23/2022 at approximately 1944 hours, I responded to 6715 Hone Street, New Port Richey in reference to a child abuse.

Prior to my arrival at the residence, I made contact with CPI Caminero who briefed me on the allegations and provided me a copy of the intake report. After being briefed by CPI Caminero, we responded to 6715 Hone Street, New Port Richey.

Upon arrival, I made contact with Melissa Davis and Nicolas Galli (see interview above). After attempting to speak with both parties who were uncooperative and wouldn`t allow us to speak with Nicholas we left the residence.

I request this case to be pended back to me in order to attempt to make contact on my next tour of duty.

A wants and warrants check on all parties met with negative results.

No further action.

On 06/01/2022 at approximately 1846 hours, I responded to 6715 Hone Street, New Port Richey in reference to a child abuse follow up investigation.

Upon arrival, I made contact with Melissa Davis who allowed me to speak with her step son, Nicholas Galli after making phone contact with his father, Donavin. Melissa told me Nicholas was in the middle of having an episode and that he is diagnosed with AHDH and Autism. After briefly speaking with Melissa, I made contact with Nicholas, who was crying and angry over an unrelated incident. Nicholas stood next to Melissa and appeared to be in good health. When asked if he feels safe being at this residence, Nicholas stated yes. Nicholas told me whenever he gets in trouble Melissa usually takes his electronics away and denied the allegations of not being feed properly or being left in the room.

After speaking with Nicholas who was still hesitant to speak with me and visibly upset over another incident. I asked Melissa if we can speak again, which she agreed to do. Melissa advised these allegations that are being brought up against her is an ongoing issues with the ex-wife of Donavin. Melissa denied all of the allegations and advised the only forms of discipline she uses is take away Nicholas` electronics or spank him on the buttock with an open hand.

As I was speaking with Melissa, Donavin arrived on scene appearing to be angry and stated why she didn`t wait to have me speak with Nicholas. At this point, I explained I advised Melissa and Donavin that I would be documenting our interview and they had no further information to provide me.

Next, I made phone contact with CPI Caminero who advised she has made contact with Autumn on 05/16/2022 and informed me that she is currently under the care of her biological mother. CPI Caminero stated the additional allegations mentioned in the intake have been unfounded and I informed her of my findings. CPI Caminero stated this is an ongoing issue between families and that there are multiple reports involving all parties. I advised CPI Caminero that at this point, I don`t have any probable cause to make a custodial arrest and that this incident would be inactive.

Based on my findings, I request this case to be inactive.

ICR: 1 x $26.00= $26.00

RECONSTRUCTION: This investigation was initiated due to the following Child Abuse intake report:

"Allegedly mom has been putting things into Autumn`s vigina while Autumn was laying on her bed in her room. Autumn is scared of her mommy and if she tells her no, then mom will beat her. The father "has done to stop it", he will take Autumn and put her into a cold shower for lying. Sebastian has seen mom do this to his sister and has seen mom put something inside her while they were on the couch. Sebastian was scared to say anything as he felt he would get in trouble.

Both children have seen mom take Nicholas into the bedroom, they heard yelling and him screaming "no, mommy please don`t". There is a court order that mom is not allowed around any of the children, but dad still continues to allow her around them. It is believed that the children are being sexually abused as well a physically abused and the father is allowing it to continue."

CRIME SCENE: 6715 Hone St, New Port Richey, 34653

INTERVIEW: VICTIM: AUTUMN DAVIS: DOB 09/20/17: JWF: BWC OFF
Autumn named off different parts of her body using a drawing of a girl provided by Child Protective Investigator Caminero. Autumn referred to her Vagina as PeePee, her breast area as boobies and her bottom as butt. Autumn was asked if anyone has ever touched any of those areas and she stated, "No." Autumn was asked if anyone had ever put anything in her PeePee and she said, "No." Autumn stated her mother gives her baths and her father gives her showers. Autumn was asked if has ever been given cold showers and she said, "No." Autumn was asked if she was scared of her mom or dad and she said, "No."

INVESTIGATION: On 05/17/2022 at approximately 1545 I responded to Learn and Play Preschool, located at 9316 State Road 52, New Port Richey, 34654, reference to a Child Protective Investigation. Upon arrival, I made contact with CPI Investigator Caminero who advised there has been recent extensive history between members of the Davis family, alleging child abuse against each other, culminating in a recent arrest for a false report. CPI Investigator Caminero advised Autumn has been qualified numerous times. CPI Investigator Caminero provided the aforementioned intake report.

I made contact with Autumn Davis and the listed interview was conducted. Autumn appeared in good health and seemed cheerful during the interview. Autumn at M&M`s and told stories to Deputies and the CPI Investigator.

CPI Investigator Caminero advised all further parties would be in southern Pasco. Deputies responsible for the area were dispatched and took over the remainder of the investigation.

A wants and warrants check on all parties met with negative results.

No further action.

On May 16, 2022 at approximately 1731 hours I was dispatched to 7335 Bramblewood DR Port Richey, FL 34668, in reference to conducting interviews for this case with CPI Francelis reference Florida abuse hotline intake # 2022-142287-05.

Upon arrival we made contact with Jennifer Brophy who gave us permission to speak with her biological son Sebastian Davis regarding the allegations of this case. It should be noted Deputy Barr had already conducted an interview with Autumn when he generated this report.

I made contact with Sebastian with CPI Francelis and we asked him when the last time he saw Mellissa, and he said it was last time he was at his dad`s house. We asked Sebastian if Mellissa and his father treat him okay when he is at their house and he said yes. Sebastian was asked who takes him to bath time or shower time and he said it is his dad does. Sebastian advised if anything strange ever happens during bath time and he said his showers are cold because the hot water is not working. Sebastian was back and forth on trying to explain why the water is cold and did not provide any details. Sebastian was asked how he gets disciplined when he gets in trouble and he stated he gets sent to his room. Sebastian advised he never gets hit or touched when he gets punished. Sebastian was asked if he ever sees his brother Nicholas get in trouble and he said yes, but Nicholas never gets hit or touched either. Sebastian was asked if anyone else has ever touched him badly and he said Billy has and explained Billy is a bully at school and had punched him in the eye. No injuries were observed to be on Sebastian. Throughout the interview Sebastian was playing with his toys and distracted not completely answering the questions being asked.

After making contact with Sebastian we interviewed Jennifer about the allegations of this case. Jennifer advised Autumn had come to her after being at her father`s house and said "mommy my coochie hurts". Jennifer stated Autumn said "she got medicine and put it in my coochie" Jennifer asked Autumn if she meant Mellissa is who she is talking about and Autumn said yes. Jennifer advised Autumn would not talk about it after she kept asking for details. Jennifer advised autumn went to the bathroom and then came to her and said she just had to pee that`s why it was hurting. Jennifer advised she confronted Autumn and asked her why did she say Mellissa touched her "coochie" and she said "I don`t know". Jennifer did not provide any further information.

We traveled to 6715 Hone Street, New Port Richey and we attempted to make contact with Mellissa and Donavin Davis.

Upon arriving Donavin opened the door and refused to speak with Law enforcement or CPI but he agreed to get Mellissa so we could speak to her.

Mellissa was extremely irate and would not let CPI Speak. Mellissa stated she is sick of CPI Francelis constantly being at her house of false allegations. Mellissa stated she was in Hernando the last time Autumn was over at the residence so it is impossible that the allegations are true. While speaking with Mellissa she kept demanding the intake report from CPI Francelis which was explained to her that it would not be possible. Mellissa refused to let us walk in her house to see her son Nicholas but she brought him to the glass door so we could see him. No marks or injuries were observed on him.

Mellissa and Donavin refused to have any further communication with CPI Francelis and i.

At this time based on the investigation and the interviews conducted in this case there is no evidence to suggest that abuse or neglect is taking place involving the children.

No wants or warrants.

No further action.

RECONSTRUCTION: On 05/07/2022 at 1221 hours, a report was generated via the Florida Abuse Hotline reference intake # 2022-142287-01. The report read as the following: "The step-mother has left bruises on the children before, and has threatened to beat them. There is a court order in place that the stepmother is not allowed to be around the children due to being a danger to them. It is believed she is currently at the house with the children. The stepmother is out on bond due to telling the children what to say. Based on the stepmother's history, it is believed the children are in imminent danger and that the stepmother is going to beat them for talking and putting her in jail."

CRIME SCENE: A single-family residence located at 6715 Hone St, New Port Richey, FL 34653.

INTERVIEW: I made contact with Donavin Davis, who advised he did not want Law Enforcement or CPI to speak with his kids. He was very adamant about not letting us inside his residence to check on the status of his children. Donavin stated autumn "has a black eye because she fell at school." Donavin was very uncooperative with Deputies and CPI on scene and would not talk to us about any possible abuse allegations related to his daughter Autumn.

INVESTIGATION: On 05/07/2022 at 1553 hours, I arrived at 6715 Hone St, New Port Richey, FL 34653, in reference to assist CPI with a child abuse investigation.

Upon arrival initial contact was attempted at the residence was met with negative results. After waiting at the residence for some time, Donavin Davis returned to the residence with his children Autumn and Sebastian. Donavin quickly rushed the children inside the residence.

We made contact with Donavin and conducted the above listed interview. After speaking with his lawyer Donavin would only let CPI Caminero and Deputy Stahl enter his residence to check on the children and to see if Melissa was in the residence. See supplement for details.

CPI Caminero advised while inside the residence she observed bruising around one of Autumn's eyes.

At this time Melissa was not at the residence and was in Hernando County at a friends residence. Contact was not made, will be attempted at a later date and time.

CPI Caminero advised she would follow up with the children to conduct interviews later this week while they are at school.

At this time I request this case be pending active for further follow up with all the children and make contact with Melissa Davis.

A wants and warrants check was completed on all involved parties and met with negative results.

No further action.

On May 15th, 2022, I responded to 7335 Bramblewood Drive, Port Richey, Florida 34668 in reference to a child abuse CPI.

Upon arrival, I met with CPI L. Williams. CPI L. Williams, advised she was there to interview with children of where the injuries on their person came from. CPI Williams, advised the other interviews were already conducted under this case number.

The allegations were: "The step-mother has left bruises on the children before, and has threatened to beat them. There is a court order in place that the stepmother is not allowed to be around the children due to being a danger to them. It is believed she is currently at the house with the children. The stepmother is out on bond due to telling the children what to say. Based on the stepmother`s history, it is believed the children are in imminent danger and that the stepmother is going to beat them for talking and putting her in jail."

CPI L. Williams and I conducted an interview with Autumn Davis, who qualified using the truth or lie booklet. I observed a bruise under Autumn`s right eye. I asked Autumn where she obtained the bruise from. Autumn advised she fell at school on a tire and she told Ms. Katie. Autumn stated she was crying a lot because it hurt. I observed a bruise on Autumn`s right arm and asked where she obtained the bruise from. Autumn advised she got pinched by the school swing. No further information from Autumn.

CPI L. Williams and I conducted an interview with Sebastian Davis, who qualified using the truth or lie booklet. I observed a bruise on Sebastian`s right leg. I asked Sebastian where he obtained the bruise from Sebastian advised he was playing at school and got the bruise. Nothing further from Sebastian.

This concluded my involvement in this case.

ICR: 1 x $26.00 = $26.00.

On 5/7/2022, at approximately 1500 hours, I arrived to 6715 Hone Street, New Port Richey, FL 34653 in reference to a Child Abuse allegation generated from Florida Abuse Hotline Intake #2022-142287-01. We made contact with Donavin Davis (DOB: 5/14/1994) who was non-cooperative with the investigation being conducted. Donavin continued to yell at the deputies on scene as well the CPI personnel. Donavin contacted his lawyer while we were on scene and advised he would only let CPI Caminero and myself enter his residence to check on the children and to see if Melissa was in the residence. While inside of the residence, I conducted a thorough check of each room and areas in which Melissa could possibly being hiding. While inside of the residence I did not locate Melissa. I exited the residence without incident and advised Donavin that the investigation was still ongoing.

I took no further action.

On 06/19/2022 at 1152 hours, I received a phone call from Katterine Ortiz. Katterine advised she would not be able to meet me in person to conduct an interview due to family obligations.

Katterine stated that she was Autumn`s previous preschool teacher at Learn and Play located at 9310 SR 52, Hudson, FL 34669. Katterine advised around two weeks prior to 05/07/2022 Autumn was running in the playground at school when she tripped and hit her head on a metal car in the playground. Autumn sustained a bruise on her right eye. Katterine advised she documented the incident in accordance with the schools policy and generated an incident report. Katterine stated that she informed a white female who is an authorized caregiver that arrived to pick Autumn up from school of the incident. Katterine went on to state that she also had the caregiver sign the incident report, which was then submitted under Autumn`s file with the school.

Katterine did not remember any specific details about the white female, but she believed that the female was Autumn`s father, Donavin Davis`s girlfriend.

Katterine advised that she longer works for Learn and Play. Katterine had no further information to provide for this investigation.

Based on Katterine`s statements and the statements provided by Autumn and Sebastian to Deputy A. Cloutier on 05/17/2022, I could not establish probable cause that child abuse occurred. I request this be unfounded.

A wants and warrants check on Katterine was met with negative results.

No further action.

Related Case 22-012707

On April 14, 2022, I was assigned Pasco Sheriff's Office report 22-012707. The report states that the victim, Autumn Davis, is being sexually abused by her biological mother, Jennifer Brophy. The report was called into the sheriff's office by Autumn's step-mother Melissa. According to Melissa, Autumn has come to her saying that her mother Jennifer is putting her fingers into Autumn's vagina. Melissa has reported this via several calls to the sheriff's department and Child Protection. Finally, on April 8, 2022, Melissa called and said that Autumn had been sexually abused, documented under report 22-012293. Then this report was made on April 12, 2022, with the same allegations. Then on April 16, 2022, Melissa called the sheriff's office again to report that Jennifer was sexually abusing Autumn. In all of these calls, Autumn has been interviewed by patrol and has denied being touched. Patrol also interviewed Autumn's brother Sebastian who stated that mommy had touched Autumn's vagina and said that mommy has not hurt either of them.

On April 15, 2022, I contacted C.P.I. Manger M. Sedor told me that C.P.I. has concerns for the step-mother Melissa coaching the children on what to say. C.P.I. Manger Sedor also provided me with background information regarding the family's history with the department. C.P.I. Manger Sedor informed me that in January 2022, the step-mother and father called a report stating that the mother had sexually abused Autumn, and C.P.T completed a Save Exam. There were no physical findings of sexual abuse from the Save Exam in that report. C.P.I. Manger Sedor then informed me that within a few hours of Autumn having the Save Exam, the father and step-mother brought Autumn to Trinity Hospital, stating there were cotton balls inside her vagina. At that time, Trinity Medical Center contacted C.P.T. and requested another Save Exam; however, C.P.T. refused. After getting the medical records from Trinity Hospital, it was discovered that there were no cotton balls inside Autumn's vaginal area. Still, instead, toilet paper was found inside of her underwear, and it was the step-mother and father saying it was inside of her vagina.

After speaking with C.P.I, Manager Sedor, I made telephone contact with C.P.T. and talked to Sara Kowal, the senior case coordinator. Sara informed me that she has concerns about having a forensic interview with Autumn or Sebastian. Sara stated that based on the most recent interviews with the children, C.P.T. believes that the step-mother Melissa and the father may coach the children on what to say. Sara then told me that she would provide me a copy of both Autumn's and Sebastian's C.P.T. reports from January 2022. In reviewing the CPT reports from January 2022 those reports noted no physical findings of sexual abuse for Autumn. The SAVE Exam found no findings of sexual abuse on Autumn as well. The report also noted that Melissa was present during the medical exam and she was informed there was no evidence of sexual abuse as well.

On April 18, 2022, I received a phone call from Melissa Davis. Melissa informed me that she was concerned that no one had spoken with Autumn or Sebastian. Melissa confirmed that the patrol deputies had been out to her house several times to talk with the children; however, she was concerned that a detective had not spoken with them. Melissa also told me that she believes that patrol deputies did not ask the right questions because the children did not disclose to them. Melissa said that she had spoken with Autumn and Sebastian, and they had been able to open up to her, and that was why she had recorded them. Melissa agreed to bring both Autumn and Sebastian to my office on April 19, 2022, so that I could interview them. Melissa stated she did not want the children interviewed again by C.P.I. because she believes that C.P.I. is out to get them.

On April 19, 2022, I interviewed Autumn Davis, and her interview was recorded using the interview room video system and was later uploaded to evidence.com. Before interviewing Autumn, she was truth lye qualified using the materials for interviewing professionals. Autumn told me she was four years old and was in daycare. Autumn had her baby doll, Lily, with her during the interview. Autumn told me she knew the names of her body parts, at which time she started naming her body parts and pointing to them. For example, Autumn stated she had a coochie and a butt; she then pointed at them both. Autumn pointed to her front vagina area, called it a coochie, and then pointed to her butt and said it was her butt.

Autumn then told me that her mother "puts her fingers in her coochie." Autumn then said, "big guy and poppy did it too." Autumn said her mother put her fingers in her coochie on Sunday along with big guy and poppy. Autumn told me she did not see them do it, but Melissa told her it happened.

When I asked Autumn why Melissa told her to say these things, Autumn would get down from the chair, sit on the floor, and say, "I don`t know." Autumn then told me that Melissa tells her to say things before she starts recording her saying them.

After speaking with Autumn, I then made contact with Sebastian Davis. Before speaking with Sebastian, I attempted to truth lie, qualify him. When I took out the qualifying book, Sebastian stated he knew how to use the book. At that point, Sebastian took the book and showed me how to truth lie, qualify someone. He also stated that you get into trouble when you don`t tell the truth.

Sebastian told me that he was six years old and is currently in kindergarten. Sebastian told me he had forgotten why he had to speak with me. Sebastian told me that Melissa told him what to say, but he had forgotten. Sebastian then said that his mother put her fingers in Autumn`s when they were on the sofa. Sebastian told me he did not remember when his mother did this but said Melissa told him it happened.

Sebastian said Melissa always tells him what to say because it will get "mommy in trouble." I asked Sebastian if he wanted to get his mommy in trouble, and he stated no, but Melissa did. Sebastian then told me that he forgot again what Melissa wanted him to say to me but stated it was important. Finally, Sebastian told me that his mother, Jennifer, has never hurt him or Autumn but said he did not want to get in trouble with Melissa.

I asked Sebastian several times what happens if he gets in trouble with Melissa, and he would not answer. Whenever Sebastian was pushed on how Melissa would tell him what to say, he would try and use the qualifying children`s book to not talk about Melissa.

On April 22, 2022, I made telephone contact with attorney Jerry Warren who is the attorney for Donavin Davis. Mr. Warren called to find out why I was being called to testify in the DVI hearing. I explained to Mr. Warren that Jennifer Brophy`s attorney had subpoenaed me to testify about the interviews I had conducted with Autumn and Sebastian Davis. I went on to inform Mr. Warren that both children had explained to me that Melissa was telling them what to say in order to get Jennifer into trouble. Mr. Warren informed me that he also believed that Melissa was coaching the children.

Then on April 25, 2022, Mr. Warren again called me. Mr. Warren told me that Donavin is going to dismiss the DVI case against Jennifer. Mr. Warren also informed that he did not think Melissa was going to be at the court hearing on Tuesday April 26, 2022. I explained to Mr. Warren that I needed to speak with Melissa regarding her telling the children what to say to the police about their mother. Mr. Warren informed me that Melissa was not going to speak with me about that. Mr. Warren also asked if I had safety concerns for the children if they were in the care of Donvavin. I explained to Mr. Warren that there is a concern for the children if Donavin knew Melissa was telling the children what to say. Mr. Warren stated that Donavin did not know Melissa was coaching the children.

Based on the statements made by both Autumn Davis and Sebastian Davis, Melissa was arrested for filing false police report concerning capital felony because Melissa told both children to report that their mother Jenifer was committing sexual battery on Autumn. Melissa was also charged with Tamper with or fabricating physical evidence because she used her cell phone to force the children to record videos saying Jennifer was committing sexual battery. I also arrested Melissa with unlawful use of two-way communication device because after she recorded the video`s she then used her cell phone to upload the videos to the Pasco County Sheriff`s office evidence system.

On April 26, 2022, Melissa came to the Pasco Sheriff`s Office District One office where she was placed under arrest for the above charges. Melissa was turned over to PAT1 and was transported to the Pasco County Detention Center without incident. Prior to transported Melissa refused to answer any questions.

A State Attorney Investigation is set for May 11, 2022 at 0830 hours at the New Port Richey State Attorney`s Office.

RELATED CASES: NONE
BWC ACTIVATED: YES
STAT DATA: NONE
SUPPORT DOCUMENTS: NONE

On Sunday, 10/8/18, at 0014 hours, I responded to 3531 Dellefield Street, New Port Richey, Florida, 34655, in reference to a domestic disturbance complaint, which was later reclassified to an assault complaint.

Upon arrival, I made contact with Robert Galli, who stated the following information: Robert stated he got into a verbal altercation with his wife Melissa Galli over her cheating on him. Robert said he was sitting on the couch and Melissa was in the kitchen. Robert said she made a drink for herself and with the drinking glass in her hand she made a gesture as if she was going to throw the glass at his direction. Robert said instead of throwing it at him, Melissa throw it against the interior door, which is nowhere near the location he was sitting at. Robert said the glass shattered and put a dent in the interior door, which is directly south of the kitchen. Robert said she cleaned out the glass and then left the residence as he was contacting law enforcement. Robert advised he was in fear of Melissa that she was going to hit him with the glass. Robert advised nothing was physical. Robert did not want to complete a written statement.

I made phone contact with Melissa who agreed to meet me at the Speedway gas station located at 5426 Little Rd, New Port Richey, FL 34655.

I changed locations to Speedway.

I made contact with Melissa, who stated the following information: Melissa advised a verbal altercation occurred with her husband Robert. Melissa said the argument was over him not wanting her to go hangout with her friends tonight. Melissa said Robert called her a whore and further stated to her no one would want to touch her. Melissa admitted to having a drink while in the kitchen. Melissa said she did throw the glass at the interior door, which was not anywhere near Robert. Melissa said she never made any gestures of throwing the glass at the direction of Robert. Melissa said the glass did break when it hit the door and she then cleaned up the glass and just left the house to avoid further altercations. Melissa said she would never throw the glass at him or even attempt to throw the glass.

While inside the residence I observed the distance from the kitchen and couch which appeared to be a great distance apart. I observed the location of the interior door which was not anywhere close to the area of the living room couch, where Robert was sitting. I took multiple photographs using the Axon Capture application of the interior door and immediate area surrounding it, which included some broken glass.

I provided both Robert and Melissa a business card and a Domestic Violence Booklet.

Due to no witnesses, conflicting statements, and because Melissa left the scene to avoid any further incidents, I did not place anyone under arrest for assault.

I request this case be inactivated.

I completed a wants and warrants check on all parties which came back negative.

I took no further action.

ICR: $26.00 x 2 hours = $52.00

RECONSTRUCTION: On 10/31/2022 between 1000 and 1430 hours, an unknown suspect(s), without permission, forcibly made entry into the residence through the back door of the residence. When inside the residence, the suspect(s), without permission, took custody of her deceased father`s Washington state identification card, his social security card, the decedent`s ashes, six SD cards, a necklace, hydrocodone prescription medication and the decedent`s medication identification card. After taking custody of the items, the suspects(s) then exited the residence, depriving the victim of their belongings. The suspect(s) then fled from the residence in an unknown direction, heading to an unknown location.

CRIME SCENE: The residence that is located at 6715 Hone St. New Port Richey, FL 34653. The residence is located on the west side of Hone St. and faces east. More specifically, the incident occurred throughout the entire inside and outside of the residence.

INTERVIEW 1 (Victim): I made contact with Melissa Davis, who provided me with the following statement: At approximately 1000 hours, she left the residence. When returning to the residence, she observed the back door to the residence was open, the gun case was open and on the bed in the master bedroom and that several drawers appeared to have been gone through and open. She made phone contact with her husband (Donavin Davis). Donavin came home to the residence, where he made contact with the Sheriff`s Office.

Melissa stated that the items that were missing were her deceased father`s Washington state identification card, the decedent`s ashes, hid social security card, six SD cards, a necklace, hydrocodone prescription medication and the decedent`s medication identification card. The necklace was black and silver, rectangular. The necklace contained her father`s ashes. Each side of the necklace had a different phrase on it. The phrases were "You were Ready", "I wasn`t ready", "you`re wings will fly", and "I miss you grandpa". The necklace would cost approximately $250 to replace. The hydrocodone prescription medication was prescribed to her. There were approximately ten tablets left inside the bottle and were 10 mg tablets.

The suspect(s) took the SD card out of approximately six surveillance cameras and were unable to provide me with any video surveillance of the incident. The SD cards have a black bottom and a green top. They say 32 gigabits in blue writing and are OON Walmart brand. The SD card would cost approximately a total of $160 to replace.

The defendant`s ashes are in a clear plastic bag that has a silver zip-tie and a metal ring that included the defendant`s death date on it.

She was going to provide me with the defendant`s identification and his medical identification card by submitting them to Evidence.com

The suspect broke the gun case, causing it not able to be secured when closed. The estimated cost to replace the case would be approximately $350.

The total cost of all items to be replaced is approximately $580.

INTERVIEW 2 (Reporting Person): I made contact with Donavin Davis, who provided me with the following statement: While he was at work, he received a phone call from Melissa stating that someone broke into the residence

and stole several items. He drove home to the residence, where he made phone contact with the Sheriff's Office.

He believes that Kristine Davis, Jennifer Brophy, and Detective Sekeres were possibly involved with this incident. He believes that Detective Sekeres was not directly involved with this incident, but he knows that the incident occurred. He believes this because he claims Detective Sekeres falsely arrested Melissa, and when the case went to court Detective Sekeres admitted to falsely arresting Melissa. He also believes that Jennifer and Kristine were involved with this incident because they are currently going through a custody battle for his child.

He was able to provide me with Jennifer and Kristine's person information.

INVESTIGATION: On 10/31/2022 at approximately 2101 hours, I was dispatched to the residence that is located at 6715 Hone St. New Port Richey, FL 34653, in reference to a burglary of a residence that delayed.

Upon arrival, I made contact with Melissa Donavin Davis, who provided me with the above listed statements.

Neither Melissa nor Donavin were able to provide me with any receipts for the items that were taken from the residence.

Melissa granted me remission to process the residence.

I took digital images of the entire residence using my agency issued mobile device. I later uploaded the digital images to Evidence.com for evidence.

I attempted to collect latent fingerprints from the residence. I was able to collect a latent fingerprint off the container that the stolen ashes were in. I later submitted the latent fingerprint to property and evidence as evidence at the district three office.

While processing the scene, it appeared the suspect(s) made force entry through the back entrance to the residence. I observed the inside portion of the door frame of the back door to the residence was broken where the door handle lock was located. There appeared to be pry marks on the door handle lock. There was also approximately a half an inch mark on the lock of the door has if someone attempted to pry open the door. The metal plate that is connected to the doorframe where the lock is normally, was also broken off.

It should be noted that I was unable to determine what tool was used to break the doorframe. I also did not observe any pieces of wood or other pieces of the door frame on the door inside the residence, including the metal plate that was on the doorframe.

Through a Google query, I found that the door frame would cost approximately $70 to replace.

I also observed that the gun case was open and laying on the bed in the master bedroom. The case's locks were broken, causing it not being able to lock.

Inside the closet of the master bedroom, I observed that several drawers were open and items were scattered on the ground.

The necklace was located on a hanger that was located in the bedroom on the south side of the residence.

After processing the residence for evidence, I provided Melissa with a Victims Rights booklet that included the case number and my contact information. I also informed her that she would have to complete a stolen prescription

affidavit at the district three office.

I then conducted a neighborhood canvas. At the following residences, I made contact with the following individuals, who provided me with the following statements:

6721 Hone St. New Port Richey, FL 34653: Pamela Larson (727-845-8436), who informed me that she did not hear or see any suspicious activity. She also does not have any video surveillance at the residence.

6714 Hone St. New Port Richey, FL 34653: Keath Simons (727-235-2146), who informed me that he did not hear or see any suspicious activity. He does have video surveillance at the residence, but will provide the camera footage to the Sheriff's Office on a later date and time.

6708 Hone St. New Port Richey, FL 34653: the resident informed me that he did not hear or see any suspicious activity. He also does have any video surveillance at the residence, but will provide the camera footage to the Sheriff's Office on a later date and time.

6703 Hone St. New Port Richey, FL 34653: Nathan Hepner (727-565-9362), who informed me that he did not hear or see any suspicious activity. He also does not have any video surveillance at the residence.

Due to the surrounding circumstances of this case, and the amount or property that was taken from the residence, I am requesting this case to be sent to property crime.

A wants and warrants check on all parties met with negative results.

I took no further action.

ICR: 3 hours x $26 = $78

On 11/2/2022 at approximately 2003 hours, I was dispatched to 6715 Hone St New Port Richey, FL 34653 in reference to a supplement follow up.

Upon arrival, I made contact with Donavin Davis and Melissa Davis whom advised some of the things, which were reported stolen had returned.

Melissa advised at approximately 1750 hours, she was outside in her backyard and observed a bag on her porch. Melissa stated she recognized the bag to being her family member`s ashes, which had the social security card, and identification inside of the bag. Melissa pointed the area where the bag was located and they brought the bag inside of the residence.

Melissa stated she also observed some minor damage on her back fence, which was not there previously on the day their house was burglarized. I observed the bag to be closed and later discovered it still had the original zip tie, which was used to secure the remains. Inside the bag I observed a social security card and identification, which was previously reported stolen. Melissa pointed out there was hair which was lodged between the plastic bag and the zip tie. Melissa advised the hair did not belong to her, but to someone else. I asked as to who would steal a family members remains and Melissa advised there has been an ongoing issues between family members.

I took pictures of my observations of the above and later uploaded the images to Evidence.com.

I then walked out to the backyard and observed the fence. While looking at the fence, there was no clear indications of any damage, but there was a gap between two points of the fence. Melissa and Donavin both stated the fence did not have the gap prior to the incident which was reported. I observed the backyard to have tall grass and observed certain areas to be disturbed. It should be noted, Melissa has a dog and the areas which were disturbed had dog feces. I took pictures of the above observations and later uploaded the images to Evidence.com.

Later, Melissa advised shortly after deputies left the incident they heard a noise at the front door. Melissa stated they discovered the necklace which had been stolen from the residence hanging on the glass door`s door knob. I took pictures of the necklace with my agency phone and later uploaded the images of Evidence.com.

I then spoke with Melissa about taking the bag which included her family member`s remains, as well as the other stolen property for evidence. I further explained the process and statute of limitations, which Melissa understood. Melissa requested, I hold off on taking the property until she can make contact with her mother. I had Donavin place the

property within a brown paper evidence bag while they make their decision. Melissa stated she would notify me by tomorrow as what they would like to do with the property.

I later sent an email to Deputy J. Compton to update him in the case.

This concludes my involvement in this case.

No further action.

ICR: 1 x $26.00 = $26.00.

On 11/09/2022, at approximately 2113 hours, I made phone contact with Donavin Davis in reference to case number 22037961.

Donavin explained he suspects Kristine Davis, Jennifer Brophy, and Detective Sekeres were involved in a recent burglary which occurred at his home. Donavin continued to explain he had video footage he recorded while being interviewed by the Department of Children and Families. Donavin advised he wanted to provide the Sheriff's Office with the video recording for his case.

I provided Donavin a link to upload the video recording to Evidence.com

Donavin had no further questions and was cooperative throughout the phone conversation.

I took no further action.
